Small Business Size Standards; Correction

AGENCY: U.S. Small Business Administration.

ACTION: Correcting amendment.

SUMMARY: This document contains a correction to the final regulations which were published in the **Federal Register** of Friday, May 21, 2004 (69 FR 29192). The regulations amended several definitions and made procedural and technical amendments to cover several of the U.S. Small Business Administration’s (SBA’s or Agency’s) programs.

DATES: Effective April 18, 2006.

FOR FURTHER INFORMATION CONTACT: Gary Jackson, Assistant Administrator, Office of Size Standards, (202) 205–6618, or sizestandards@sba.gov.

SUPPLEMENTARY INFORMATION:**Background**

On May 21, 2004 the SBA published a final rule amending its size regulations (69 FR 29192). These regulations are used to determine eligibility for all SBA and Federal programs that require an entity to be a small business concern. Section 121.404 was amended to

address the treatment of the acquisition of a small business concern by another concern during contract performance. Specifically, the final regulation states that the new entity must submit a written self-certification that it is small to the procuring agency so that the agency can count the award, options or orders issued pursuant to the contract towards its small business goals. In the preamble to the final rule, however, the SBA explained that the

amended regulations now state that the new entity must submit a written self-certification that it is small to the procuring agency so that the agency can count the award options, or orders issued pursuant to that contract, towards its small business goals.

69 FR 29192, 29198 (May 21, 2004). According to the preamble, it is clear that the self-certifications for novations and change-of-name agreements affected the subsequent options and orders, but not the original contract award or any option or order executed before the novation or change-of-name agreement.

Need for Correction

The final regulatory text, however, contained an error that has caused some confusion. The SBA misplaced a comma in the final rule, which has caused many readers to interpret section 121.404 to require concerns to submit a self-certification as a small business at the time of a novation or change-of-name so that the procuring agency can count the original contract award towards its small business goals. This interpretation is incorrect, however, as the procuring agency was already given credit towards its small business goals for the original contract award. Section 121.404 is only meant to address whether the procuring agency can count any future award options or orders issued pursuant to the contract toward the agency’s small business goals, if there has been a novation or change-of-name during contract performance. Therefore, the removal of the comma after the word award will eliminate any doubt as to the SBA’s intent regarding this provision.

ACTION: Direct final rule; request for comments.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 modifies the Class E airspace surface area and the Class E airspace area extending upward from 700 feet AGL at Mason City Municipal Airport, IA. A review of the Class E airspace surface area and the Class E airspace area extending upward from 700 feet AGL revealed neither area complies with criteria in FAA Orders required for diverse departures. The radius of the Class E airspace surface area is expanded from within a 4.2-mile radius to within a 4.5-mile radius of the airport and the radius of the Class E airspace area extending upward from 700 feet AGL is expanded from within a 6.7-mile radius to within a 7-mile radius of the airport. These modifications bring the legal description of the Mason City Municipal Airport, IA Class E airspace area into compliance with FAA Orders 7400.2F and 8260.19C. Class E airspace areas designated as surface areas are published in Paragraph 6002 of FAA Order 7400.9N, Airspace Designations and Reporting Points, dated September 1, 2005, and effective September 16, 2005, which is incorporated by reference in 14 CFR 71.1. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of the same Order. The Class E airspace designations listed in this document would be published subsequently in the Order.
