

The Commission notes that, apart from changing the mechanism by which index values are disseminated, the Exchange represents that it will continue to maintain the indexes underlying the Approved Index Options as described in their respective Rule 19b-4 filings and approval orders. Thus, the Commission believes the proposal will continue to provide investors with the pricing information necessary for the orderly trading of options and derivative securities based on these indexes.

B. Subscriber Fees

The Exchange represents that the fees to be charged by PBOT are consistent with the requirements of Rule 603 under the Act in that the fees are fair and reasonable and not unreasonably discriminatory.²⁰ The Commission believes that PBOT's proposed fee structure is reasonable as it is based on the type of data received (real-time, delayed and snapshot), which is, in turn, generally based on the timeliness of the data.²¹

With regard to the 15 percent Administrative Fee Deduction proposed by the Exchange, the Commission does not believe it to be unreasonably discriminatory. As proposed by the Exchange, vendors which provide market data to 200,000 or more Devices in any given month would receive a credit against the fees charged and collected by PBOT pursuant to the vendor agreement. Any vendor that meets the 200,000 Device standard will qualify for and receive the 15 Percent Administrative Fee Deduction. The Exchange represents that PBOT is

disseminate or shall assure that the closing index value is disseminated after the close of business and the current index value is disseminated from time-to-time on days on which transactions in index options are made on the Exchange." Current underlying index values for narrow-based index options trading pursuant to Phlx Rule 1009A(b) and Rule 19b-4(e) under the Act are also reported at least once every 15 seconds during the time the index options are traded on the Exchange pursuant to Phlx Rule 1009A(b)(10).

²⁰ 17 CFR 242.603 (Distribution, consolidation, and display of information with respect to quotations for and transactions in NMS stocks). The Exchange represents that the Vendor/Subvendor Agreements between PBOT and the market data vendors provide that PBOT may change any of the fees enumerated in the agreement by giving the vendor or subvendor advance written notice of such changes. The Commission notes that any such fee changes would need to be submitted to the Commission under section 19(b) of the Act.

²¹ The Exchange represents that it does not presently realize any revenue from the sale of current and closing index values disseminated over CTA that are not shared with other CTA Plan participants. Currently, market data vendors pay a \$200.00 monthly fee to CTA for the right to redistribute current and closing index values on a real time basis, together with delayed last sale data.

offering the 15 Percent Administrative Fee Deduction as an incentive for large market data vendors to carry the data disseminated by the PBOT network. The Commission recognizes that volume-based discounts of fees are not uncommon, and where the discount can be applied objectively, it is consistent with Rule 603. For the same reasons noted above, the Commission believes that the fee structure meets the standard in section 6(b)(4) of the Act²² in that the proposed rule change provides for the equitable allocation of reasonable dues, fees, and other charges among the Exchange's members and issuers and other persons using its facilities.

IV. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,²³ that the proposed rule change (SR-Phlx-2006-04), as amended, is hereby approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²⁴

Jill M. Peterson,

Assistant Secretary.
