#### Synopsis

On December 2, 2005, Mid America Computer Corporation (MACC) filed a petition on behalf of its client companies for expedited, interim waiver of requirements set forth in § 64.4002 of the Commission's customer account record exchange (CARE) rules. *See* Petition for Expedited Interim Waiver of § 64.4002 of the Commission's rules, filed by MACC, December 2, 2005 (Waiver Request). *See also* 47 CFR 64.4002 of the Commission rules. The CARE rules generally require interexchange carriers (IXCs) and local exchange carriers (LECs) to exchange certain customer account information that the Commission has determined is needed by carriers to properly bill their customers and to execute carrier change requests in a timely and efficient manner. *See* Rules and Regulations Implementing Minimum Customer Account Record Exchange Obligations on All Local and Interexchange Carriers, *Report and Order and Further Notice of Proposed Rulemaking*, 20 FCC Record 4560 (released February 25, 2005). The CARE rules became effective on September 21, 2005. *See* Rules and Regulations Implementing Minimum Customer Account Record Exchange Obligations on All Local and Interexchange Carriers, published at 70 FR 55302 (September 21, 2005).

MACC states that it provides billing and data processing services to small, rural incumbent LECs and, more recently, to competitive LECs that provide local and long distance telephone services. On behalf of its approximately 275 client companies, MACC asks the Commission for an interim waiver of subsection 64.4002(a)(7) and § 64.4002(c) of the Commission's CARE rules until September 1, 2006. Subsection 64.4002(a)(7) of the Commission's rules requires a LEC, upon receiving and processing a PIC selection submitted by a customer and placing the customer on the network of the customer's preferred IXC at the LEC's local switch, to provide certain customer account information to the IXC concerning the IXC's new customer. This would include, as relevant here, a notification that the IXC customer's account is subject to a PIC freeze. *See* 47 CFR 64.4002(a)(7) of the Commission's rules. Section 64.4002(c) of the Commission's rules requires a LEC to notify an IXC when the LEC has rejected or otherwise has not acted upon an IXC-submitted PIC change order and to provide the reason(s) why the PIC change order could not be processed. *See* 47 CFR 64.4002(c) of the Commission's rules.

MACC represents that it seeks an interim waiver only with respect to the two provisions of the Commission's CARE rules referenced above and that its processing services are "in compliance" with other requirements established in the CARE order. MACC contends that a grant of its Waiver Request is needed to allow it "sufficient time to complete [its] development of the software" required by MACC's clients to fully comply with the Commission's February 2005 CARE order. According to MACC, an interim waiver would allow it to include the programming changes needed to implement these two requirements in its next regularly-scheduled release of its operating support system product "without significant costs to its small rural LEC clients."

Combining and incorporating the software solutions addressing these requirements with the "regularly-scheduled release of its operating support system product," according to MACC, will avoid the need to issue "numerous updates" and thus limit the costs of any required updates to its clients.
