Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority since it contains aircraft executing instrument approach procedures to Lee C. Fine Memorial Airport, Kaiser/Lake Ozark, MO.

SUPPLEMENTARY INFORMATION:

Background

The Treasury Department and the IRS issued final regulations “1.367(b)–1 through 1.367(b)–6, dealing with tax consequences of certain foreign-to-foreign and inbound corporate transactions, in June 1998 and January 2000 (the January 2000 final regulations). The preamble to the January 2000 final regulations referred to proposed regulations that would be issued to address the carryover of certain corporate tax attributes in transactions involving one or more foreign corporations. Those proposed regulations were issued on November 15, 2000, in the *Federal Register* ((65 FR 69138) (REG–116050–99)) (the 2000 proposed regulations). The public hearing with respect to the 2000 proposed regulations was cancelled because no request to speak was received. However, the Treasury Department and the IRS received and considered several written comments, which are discussed in this preamble.

After consideration of the 2000 proposed regulations and the comments received, the Treasury Department and the IRS adopt substantial portions of those proposed regulations with significant modifications as final regulations under section 367(b).

Overview

A. General Policies of Section 367(b)

In general, section 367 governs corporate restructurings under sections 332, 351, 354, 355, 356, and 361 (Subchapter C nonrecognition transactions) in which the status of a foreign corporation as a “corporation” is necessary for the application of the relevant Subchapter C nonrecognition provisions. Other provisions in Subchapter C (Subchapter C carryover provisions) apply to such transactions in conjunction with the enumerated provisions and detail additional consequences that occur in connection with the transactions. For example, sections 362 and 381 govern the carryover of basis and earnings and profits from the transferor corporation to the transferee corporation in applicable transactions.

The Subchapter C carryover provisions generally are drafted to apply to domestic corporations and U.S. shareholders. As a result, those provisions often do not fully take into account the relevant cross-border aspects of U.S. taxation. For example, section 381 does not specifically take into account source and foreign tax credit issues that arise when earnings

and profits move from one corporation to another.

Congress enacted section 367(b) to ensure that international tax considerations in the Code are adequately addressed when the Subchapter C provisions apply to an exchange involving a foreign corporation. A primary consideration in this regard is to prevent the avoidance of U.S. taxation. Because determining the proper interaction of the Code’s international and Subchapter C provisions is “necessarily highly technical,” Congress granted the Secretary broad regulatory authority to provide the “necessary or appropriate” rules rather than enacting a more comprehensive statutory regime. H.R. Rep. No. 658, 94th Cong., 1st Sess. 241 (1975). Thus, section 367(b)(2) provides in part that the regulations “shall include (but shall not be limited to) regulations * * * providing * * * the extent to which adjustments shall be made to earnings and profits, basis of stock or securities, and basis of assets.”

These final regulations address the carryover of foreign earnings and profits and foreign income taxes in tax-free corporate asset acquisitions by generally applying the principles of Subchapter C provisions such as section 381, which governs the carryover of earnings and profits (and other tax attributes) in certain tax-free corporate reorganizations described in section 368 and in corporate liquidations described in section 332. However, these regulations (like the 2000 proposed regulations) modify certain of the mechanics of the Subchapter C rules as necessary or appropriate to ensure that those rules are as consistent as possible with key international tax policies of the Code and to prevent material distortions of income.

These final regulations address the portions of the 2000 proposed regulations (Prop. Reg.) dealing with inbound nonrecognition transactions (Prop. Reg. § 1.367(b)–3) and foreign section 381 transactions (Prop. Reg. § 1.367(b)–7). They also address the special rules of Prop. Reg. § 1.367–9. The final regulations, however, do not address the portions of the 2000 proposed regulations involving corporate divisions of one or more foreign corporations (Prop. Reg. § 1.367(b)–8). The Treasury Department and the IRS believe that relevant cross-border tax consequences of section 355 transactions should be dealt with in a separate guidance project.
