I. Overview

First, this notice establishes program guidance on how to implement the new coordinated public transit-human services transportation planning requirements for fiscal year 2007 for the

Elderly Individuals and Individuals with Disabilities (Section 5310), Job Access and Reverse Commute (JARC), and New Freedom Programs. These requirements are based on provisions in the statute as well as issues raised and commented on during the public comment period. The March 15, 2006, **Federal Register** notice provided interim guidance for implementing the Section 5310, JARC and New Freedom programs for fiscal year 2006.

Second, this notice provides summaries of the proposed Section 5310, JARC and New Freedom program circulars on which FTA seeks comment, and responds to comments received in response to the March 15, 2006, **Federal Register** notice. These programs are affected by the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU, Pub. L. 109-59), signed into law on August 10, 2005. The Section 5310 program provides funding, allocated by a formula, to States for capital projects to assist in meeting the transportation needs of older adults and persons with disabilities. The States administer this program. The current Section 5310 circular, developed in 1998, needs to be updated to reflect changes in the law. The JARC program was authorized as a discretionary program under the Transportation Equity Act for the 21st Century (TEA-21, Pub. L. 105-178, June 9, 1998), and changed to a formula program under SAFETEA-LU. The JARC program provides formula funding to States and designated recipients to support the development and maintenance of job access projects designed to transport welfare recipients and eligible low-income individuals to and from jobs and activities related to their employment. The JARC program also supports reverse commute projects designed to transport residents of urbanized areas and other than urbanized areas to suburban employment opportunities. The New Freedom program is newly established in SAFETEA-LU. The purpose of the New Freedom program is to provide new public transportation services and public transportation alternatives beyond those required by the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) that assist individuals with disabilities with transportation, including transportation to and from jobs and employment support services.

FTA conducted extensive outreach to develop these proposed circulars. First, FTA held initial listening sessions in Washington, DC in September, 2005. Then, FTA requested comments related to the Section 5310, JARC and New Freedom programs in a notice published
