

Section 5310, however, the data collection requirements could change if the performance measures are implemented as drafted in the proposed circulars. We invite comments to inform our next submissions to OMB, and invite comments on the reporting requirements for New Freedom.

G. Chapter VII—State and Program Management Plans

FTA requires States and designated recipients responsible for implementing the Section 5310, JARC, and New Freedom (and Section 5311) programs to document their approach to managing the programs. Chapter VII proposes guidance on how to create and use State Management Plans (for the State-managed aspects of the programs), and Program Management Plans (for designated recipient-managed aspects of the programs). The primary purposes of Management Plans are to serve as the basis for FTA management reviews of the program, and to provide public information on the administration of the programs. FTA notes that Chapter VII in the proposed circulars is largely a restatement of the State Management Plan chapter in the current Section 5310 Circular 9070.1E (Chapter VII). The proposed chapter includes FTA's intention to make designated recipients of the JARC and New Freedom programs subject to management reviews.

In all three program circulars, the first two parts of Chapter VII explain the general requirements and purpose of Management Plans. The third part, "Reviews," differs slightly among the programs. The Section 5310 circular discusses only State Management Reviews (as it is an entirely State-managed program), while the JARC and New Freedom circulars discuss reviews at both the State and designated recipient level. The Reviews part of Chapter VII is an addition to the current Section 5310 circular.

The fourth part of Chapter VII discusses the content of Management Plans. The suggested content of State and Program Management Plans is essentially identical in all three circulars, but the Section 5310 circular reflects the fact that Section 5310 is entirely State administered. Management Plans are to include a section on use of the 10% of the apportionment available for administration and technical assistance, and a description of how the State or designated recipient makes additional resources available to local areas.

The State Management Plan content for Section 5310 remains largely as it is written in the current circular. Two sections have been added regarding the

use of the 10% for administration, planning and technical assistance, and transfer of funds, consistent with the sections in the new proposed circulars.

The final part of Chapter VII, which discusses revisions to the Management Plan, is the same for all three circulars, and mirrors the language in the existing Section 5310 circular.

FTA received only one comment on Chapter VII material, asking what type of oversight will be applied in areas with population under 200,000. In response, FTA notes that in areas under 200,000 in population, the programs are all exclusively State-managed. Therefore, the State Management Plan and State Management Review will be used for oversight in these areas.

H. Chapter VIII—Other Provisions

This chapter is an expansion of the current "Other Provisions" chapter in the existing Section 5310 circular, and is virtually the same for all three circulars. Chapter VIII summarizes a number of FTA-specific and other Federal requirements that FTA grantees are held to in addition to the program-specific requirements and guidance provided in these circulars. This chapter explains some of the most relevant requirements and provides citations to the actual statutory or regulatory text. Grantees should use this document in conjunction with FTA's "Master Agreement" and the current fiscal year "Certifications and Assurances" to assure that they have met all requirements. Grantees may contact FTA Regional Counsel for more detail about these requirements.

I. Appendices

The Appendices sections for the Section 5310, JARC, and New Freedom programs are intended as tools for developing a grant application. Appendix A specifically addresses steps and instructions for preparing a grant application, including pre-application and application stages. Appendix A also includes an application checklist and information for registering with the Electronic payment system (ECHO). Appendix B includes a sample program of projects. For the Section 5310 circular, Appendix C provides contact information for FTA's regional offices, and Appendix D provides technical assistance information. In the JARC and New Freedom circulars, Appendix C includes budget information and provides specific activity line item (ALI) codes for specific types of eligible costs (i.e., capital, operating, planning, etc.). A sample approved budget is included in Appendix D. Appendix E provides

contact information for each of FTA's 10 regional offices.

Appendix D in Section 5310 and Appendix F in the JARC and New Freedom circulars list potential sources of technical assistance. A number of commenters identified a need to have technical assistance available to specific types of service providers, including public and private transportation providers, MPOs, and human service agencies. Commenters also expressed a need for technical assistance and training relative to the coordinated planning process. FTA supports a wide range of technical assistance and training initiatives that are available to service providers and members of the public. Each of the technical assistance activities is outlined in Appendix F.
