SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you produce, manufacture, distribute, sell or use exempted products that claim to control public health pests. Potentially affected entities may include, but are not limited to: Registered and unregistered establishments that commercialize products that claim to control or mitigate any pests that pose a threat to human health.

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to

assist you and others in determining whether this action might apply to certain entities. To determine whether you or your business may be affected by this action, you should carefully examine the applicability provisions in 40 CFR 152.25(f). If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date, and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. What is the Basis of the Petition?

The minimum risk pesticide exemption at 40 CFR 152.25(f) exempts

from the requirements of FIFRA those products whose only active ingredients are among a set of ingredients listed in the exemption, provided that, among other things:

1. The only inert ingredients in the product are those listed in the most current List 4A (minimal risk ingredients);
2. The product does not “bear claims either to control or mitigate microorganisms that pose a threat to human health, including but not limited to disease transmitting bacteria or viruses, or claims to control insects or rodents carrying specific diseases, including, but not limited to ticks that carry Lyme disease”; and
3. The product does not “include any false and misleading labeling statements, including those listed in 40 CFR 156.10(a)(5)(i) through (viii).”

The petitioner argues that the exemption in 40 CFR 152.25(f) as currently written, endangers public health by permitting labeling claims for effectiveness against public health pests without requiring proof that these exempt pesticides are effective against such pests.

III. What Action is the Agency Taking?

Through this notice, the Agency is providing notice of the petition submitted by CSPA and is asking for public comment. Following the review of the petition and any comments received in response to this notice, EPA will decide how best to respond to the petition. The petition, as well as a summary prepared by the petitioner is available on EPA’s Electronic Docket at <http://www.regulations.gov>. To locate this information on the homepage of EPA’s Electronic Docket, select “Quick Search” and type the OPP docket ID number EPA–HQ–OPP–2006–0687. Once the search has located the docket, clicking on “Docket ID” will bring up a list of all documents in the docket related to the petition.
