SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95)(44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information burden is accurate. The Occupational Safety and Health Act of the 1970 (the Act) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

The principal paperwork provisions of the EtO Standard require employers to notify employees of their EtO exposures, implement a written compliance program, administer medical examinations, provide examining physicians with specific information, ensure that employees receive a copy of their medical examination results, maintain employees' exposure-monitoring and medical records for specific periods, and provide access to these records by OSHA, the National Institute for Occupational Safety and Health, the

affected employees, and their authorized representatives.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

OSHA is proposing to decrease the existing burden hour estimate and to extend OMB's approval of the collection of information requirements contained in the EtO Standard. The Agency is requesting a decrease in burden hours for the collection of information contained in the EtO Standard from 43,972 hours to 42,732 hours. This 1,240-hour decrease mainly results from decrease in the number of hospitals (which are major EtO consumers). The agency will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of these information collection requirements.

Type of Review: Extension of a currently approved information collection requirement.

Title: Ethylene Oxide Standard (29 CFR 1910.1047).

OMB Number: 1218-0108.

Affected Public: Business or other for-profits.

Number of Respondents: 5,474.

Frequency: On occasion.

Total Responses: 209,256.

Average Time per Response: Time per response ranges from 5 minutes (.08 hour) to provide information to the examining physician to 2 hours for employees to receive medical examinations.

Estimated Total Burden Hours: 42,732.

Estimated Cost (Operation and Maintenance): \$6,595,597.

III. Public Participation—Submission of Comments on this Notice and Internet Access to Comments and Submissions

You may submit comments and supporting materials in response to this notice by (1) hard copy, (2) FAX

transmission (facsimile), (3) electronically through the OSHA Web page (see the section titled **ADDRESSES** above). Because of security-related problems, there may be a significant delay in the receipt of comments by regular mail. Please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for information about security procedures concerning the delivery of submissions by express delivery, hand delivery, and courier service.

All comments, submissions, and background documents are available for inspection and copying at the OSHA Docket Office at the above address. Comments and submissions posted on OSHA's Web page are available at <http://www.OSHA.gov>. Contact the OSHA Docket Office for information about materials not available through the OSHA Web page and for assistance using the Web page to locate docket submissions. Electronics copies of this **Federal Register** notice, as well as other relevant documents, are available on OSHA's Web page.
