Public Hearing and Notice of Availability for the Draft Environmental Impact Statement for Widening of the Freeport Ship Channel in Freeport, Brazoria County, TX

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Corps of Engineers, Galveston District announces the release of the Draft Environmental Impact Statement (DEIS), the Draft General Conformity Determination, the public comment period, and the date and location of the Public Hearing, for the Brazos River Harbor Navigation District's (Port Freeport) proposed widening of the Freeport Harbor Ship Channel.

DATES: The USACE Galveston District will be accepting written public comments on the DEIS and the Draft General Conformity Determination through January 9, 2007. All comments must be postmarked by January 9, 2007.

ADDRESSES: You may send written comments to the USACE, Galveston District, Attn: Sam Watson, P.O. Box 1229, Galveston, TX 77553–1229.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and DEIS can be answered by Mr. Sam Watson, (409) 766–3946.

SUPPLEMENTARY INFORMATION:

Authority: This Federal Action is in consideration of a Department of the Army Permit application for work under Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), Section 404 of the Clean Water Act (33 U.S.C. 1344) and Section 103 of the Marine Protection and Sanctuaries Act (MPRSA) (33 U.S.C. 1413).

Background: In April 2005, Port Freeport submitted a Department of Army Permit Application to widen portions of the Freeport Harbor Jetty Channel and all of the Freeport Harbor Entrance Channel from 400 feet (ft) to 600 ft. It was determined that an Environmental Impact Statement would be required for the proposed project. Since the November 29, 2005 Scoping Meeting, the consulting firm of PBS&J, under the direction of the Galveston District, U.S. Army Corps of Engineers (USACE), prepared a Draft Environmental Impact Statement for the proposed project. The DEIS is now available for public review and comment.

Project Description: Port Freeport proposes to widen portions of the Freeport Ship Channel. The project includes widening the Freeport Harbor Jetty Channel beginning at Channel Station 63+35 with a gradual widening, at the authorized depth, up to an additional 150 feet (ft) for about 1,835 ft to Channel Station 45+00. From that point to Channel Station 40+00 the widening would be less gradual from the additional 150 ft to an additional 200 ft. Through the rest of the Jetty Channel and to the end of the Freeport Harbor Entrance Channel (Channel Station −260+00), the channel would be widened an additional 200 ft. The length of channel proposed for widening is about 6.1 miles, of which 5.7 miles would be widened by 200 ft. The project depth will remain the same at 45 ft in the Jetty Channel and 47 ft in the Entrance Channel. The widening would generate approximately 3.2 million cubic yards (mcy) of new dredged material. Approximately 2.9 mcy of the new work material would consist of clay material and about 300,000 cubic yards (cy) would consist of silty/sand material. If approved by EPA and by USACE under Section 102 and 103 of MPRSA, an ODMDS previously designated as a one-time use site would be redesignated for placement of the 2.9 mcy of clay/silt material. The 300,000 cy of silty/sand material would be used beneficially and placed on Quintana Beach in front of
