BILLING CODE 8025-01-P

DEPARTMENT OF STATE

[Public Notice 5820]

Bureau of Educational and Cultural Affairs (ECA) Request for Grant Proposals: Survey of International Educational Exchange Activity in the United States

Announcement Type: New Cooperative Agreement.

Funding Opportunity Number: ECA/A/S/A-08-01.

Catalog of Federal Domestic Assistance Number: 00.000.

Key Dates: October 1, 2007 to September 30, 2009.

Key Dates: Application Deadline: Friday, July 13, 2007.

Executive Summary: The Educational Information and Resources Branch, Office of Global Educational Programs, Bureau of Educational and Cultural Affairs (the Bureau) announces an open competition for a survey of International Educational Exchange Activity in the United States. Public and private non-profit organizations meeting the provisions described in Internal Revenue Code section 26 U.S.C. 501(c)(3) may submit proposals to conduct a statistical survey (census) of foreign nationals enrolled in institutions of higher learning in the United States. The survey must provide detailed

individual student profile data and country-specific aggregate data that enumerate the numbers of foreign students and scholars from a given country affiliated with individual U.S. institutions. In addition, the report should include information about first-time enrollments to facilitate the analysis of enrollment trends. The survey, which should be conducted in the most cost-effective way possible, should identify the number of foreign students and scholars studying, conducting research, or teaching at all accredited universities and colleges in the United States during the 2007/2008 academic year (fall 2007 through summer 2008). Finally, the report should also include data about the number of American students studying abroad in credit-bearing programs of all types (year-long, semester, short-term and summer). Proposals should describe the methodology that will be used to collect the data and how the material will be analyzed and presented to the public. To the extent possible, cooperation is encouraged with the Department of Homeland Security on data comparison and sharing. Proposals must also include plans to establish an advisory board to provide assistance in identifying and framing policy issues that may need to be addressed by policy makers.

I. Funding Opportunity Description

Authority

Overall grant making authority for this program is contained in the Mutual Educational and Cultural Exchange Act of 1961, Public Law 87-256, as amended, also known as the Fulbright-Hays Act. The purpose of the Act is "to enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries * * *; to strengthen the ties which unite us with other nations by demonstrating the educational and cultural interests, developments, and achievements of the people of the United States and other nations * * * and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and the other countries of the world." The funding authority for the program above is provided through legislation.

Purpose

Since 1974, the State Department's Bureau of Educational and Cultural Affairs, with its mandate under the Fulbright-Hays Act to promote mutual understanding through international educational exchange, has supported an

annual survey of foreign students in the United States in order to gain an accurate and up-to-date picture of international educational exchange activity in the United States. Recent reports have expanded on the original survey's parameters to include foreign scholars and U.S. students studying overseas. Proposals to conduct this project should describe plans for a statistical survey that would offer a detailed and comprehensive picture of the number and academic characteristics (major fields of study or program, level of study, etc.) of non-immigrant foreign nationals (that is, excluding permanent residents and refugees) affiliated with (*i.e.*, enrolled at, employed by, etc.) American institutions of higher learning, as well the number of U.S. students studying abroad. Topics that should be covered in the survey include the number of foreign students and scholars, their gender and countries of origin. Information about students' academic level (undergraduate, graduate, post-doctorate), fields of study, primary source of financial support, financial contributions they make while in the United States, and location of study should be included. Proposals may request Bureau funding of a publication, Web site, database, newsletter, or another medium that is presented as a viable vehicle for making this data widely available to the public in a timely manner and in a clear and concise format. The Bureau reserves the right to reproduce, publish or otherwise use any work developed under this grant for U.S. Government purposes.

Guidelines

Proposals should include a precise description of the methodology to be used to obtain the data called for in this solicitation. Applicants are reminded of the need to find the most efficient and economical approach to gathering the data and are encouraged to explore electronic data collection. Applicants should also seek ways of making the information available to the public within the academic year that it is collected. Data collected should be published and made available in coordination with the Bureau.

Applicants are also encouraged to include information about their capacity to carry out electronic surveys and to report on findings at the request of the Bureau that would focus on one or more critical issues related to international educational exchange that may arise during the period in which census data is being gathered.

To provide for a more detailed analysis and cross tabulation of the

characteristics of foreign students studying in the United States, individual student profile data should also be collected. This individual student profile data should be provided to the Bureau in a format that is country-specific and should show the number of students from a specific country attending selected institutions of higher education in each state of the U.S.

The Bureau seeks a clear presentation and rigorous analysis of the data collected that will draw conclusions about trends in foreign student enrollments, numbers of foreign scholars on U.S. campuses and American students studying abroad that can be used to guide policy discussions for both government and the educational community.

Proposals should describe the establishment of an advisory board to provide assistance in identifying and framing policy issues to be addressed in the survey; the board should meet at least once a year. Board members would likely be drawn from a broad range of educational associations and organizations and will be appointed in consultation with the Bureau. Members would be expected to provide perspectives on topics that are related to the internationalization of higher education.

Scholarly analyses of survey data addressing pertinent policy issues should be included in the final report, which will be read by policy-makers in government, the educational community, and business, as well as practitioners in international educational exchange. The report will also be covered by national and educational media organizations. The report should also include a narrative on the mechanics and uses of data analysis, highlighting how conclusions can be drawn from the data collected, some of the limitations of that analysis, and how the data can benefit the educational institutions supplying it, for example, as a campus advocacy or recruiting tool. Applicants should include with the proposal a complete list of proposed chapter headings and sample analyses.

The Bureau welcomes innovative approaches to the presentation of material, including possible breakdowns for minority-serving institutions such as Historically Black Colleges and Universities and the Hispanic Association of Colleges and Universities. The Bureau also encourages applicants to consider including reporting on other topics of current interest in the final report, such as:

- (1) How the international exchange population is affected by U.S. visa policies;
- (2) How student flows to the U.S. may have been affected by efforts of other countries to attract foreign students, by the expansion of the European Union and its efforts to build an academic market via the Bologna Agreement, etc.
- (3) How political and economic trends in other countries are reflected in student flows to the U.S.;
- (4) How economic trends in the U.S., including the rise in tuition levels and the cost of living, may have affected student flows to the U.S.;
- (5) As an element of global trade, how international student flows may have commercial significance for the development of foreign markets for U.S. education and training;
- (6) The impact of international students and scholars on U.S. academic institutions and departments;
- (7) Demonstrated benefits of study abroad (for example, as seen by employers);
- (8) U.S. institutions' activities to educate foreign students in their home countries, through, for example, overseas campuses or distance education programs, to complement the data collected on the education of foreign students in the United States;
- (9) The numbers of foreign students studying in intensive English language programs in the United States.

In addition to the above, proposals should explain how the following activities might be undertaken:

- Use SEVIS data (if available) to conduct policy-relevant analysis of emerging issues in consultation with the Bureau and to provide trend data pertaining to international students in the U.S. (for example, key places of origin, including countries in Central Europe, Latin America, Asia, and the Middle East).

- Conduct surveys of international students' attitudes toward U.S. higher education in cooperation with the Department of State's network of EducationUSA centers. These centers promote U.S. higher education in 170 countries around the world. Centers exist in a variety of locations including: U.S. embassies and consulates, Fulbright commissions, binational centers, non-governmental organizations, universities and libraries. A complete list of centers is located at <http://www.educationusa.state.gov>. These surveys might include a study of international students from key places of origin to determine their attitudes

toward the U.S. and their perceptions of study in the U.S., or an overseas survey of the attitudes and perceptions of international students enrolled in U.S. branch campuses in selected countries.

- Conduct overseas surveys to collect contextual information on international students' decision making process in choosing to study abroad

- Report on higher education trends in key regions

- Conduct detailed analyses of the foreign student population. Analyses could include profiles of foreign students which contain comparative and cross-tabulated data that provide a deeper understanding of student flows, detailed information about sub-groups, *i.e.* the proportions of students in various fields of study, what proportion are female or male, what proportion of foreign students studying engineering is from Asia, etc.

- Conduct surveys through a web-based data collection system.

In a cooperative agreement, the Educational Information and Resources Branch (ECA/A/S/A) is substantially involved in program activities above and beyond routine grant monitoring. ECA/A/S/A activities and responsibilities for this program are as follows:

ECA/A/S/A will provide guidance on the types of issues and information to gather. Additionally, ECA/A/S/A may request the analysis of policy-relevant issues and trend data pertaining to international students in the U.S.

II. Award Information

Type of Award: Cooperative Agreement.

ECA's level of involvement in this program is listed under number I above.

Fiscal Year Funds: FY 2008.

Approximate Total Funding: \$400,000.

Approximate Number of Awards: 1.

Approximate Average Award: \$400,000, pending availability of funds.

Anticipated Award Date: Pending availability of funds, October 1, 2007.

III. Eligibility Information

III.1. Eligible Applicants

Applications may be submitted by public and private non-profit organizations meeting the provisions described in Internal Revenue Code section 26 U.S.C. 501(c)(3).

III.2. Cost Sharing or Matching Funds

There is no minimum or maximum percentage required for this competition. However, the Bureau encourages applicants to provide maximum levels of cost sharing and funding in support of its programs.

When cost sharing is offered, it is understood and agreed that the applicant must provide the amount of cost sharing as stipulated in its proposal and later included in an approved grant agreement. Cost sharing may be in the form of allowable direct or indirect costs. For accountability, you must maintain written records to support all costs which are claimed as your contribution, as well as costs to be paid by the Federal Government. Such records are subject to audit. The basis for determining the value of cash and in-kind contributions must be in accordance with OMB Circular A-110, (Revised), Subpart C.23—Cost Sharing and Matching. In the event you do not provide the minimum amount of cost sharing as stipulated in the approved budget, ECA's contribution will be reduced in like proportion.

III.3. Other Eligibility Requirements

Bureau grant guidelines require that organizations with less than four years experience in conducting international exchanges be limited to \$60,000 in Bureau funding. ECA anticipates awarding one grant, in an amount up to \$400,000 to support program and administrative costs required to implement this exchange program. Therefore, organizations with less than four years experience in conducting international exchanges are ineligible to apply under this competition. The Bureau encourages applicants to provide maximum levels of cost sharing and funding in support of its programs.

Failure to do so will cause your proposal to be declared technically ineligible.

IV.3d. Please take into consideration the following information when preparing your proposal narrative:

The following is included for informational purposes only:

IV.3d.1 Adherence to All Regulations Governing the J Visa.

The Bureau of Educational and Cultural Affairs places critically important emphases on the security and proper administration of the Exchange Visitor (J visa) Programs and adherence by grantees and sponsors to all regulations governing the J visa.

Therefore, proposals should demonstrate the applicant's capacity to meet all requirements governing the administration of the Exchange Visitor Programs as set forth in 22 CFR part 62, including the oversight of Responsible Officers and Alternate Responsible Officers, screening and selection of program participants, provision of pre-arrival information and orientation to participants, monitoring of participants, proper maintenance and security of forms, record-keeping, reporting and other requirements. ECA will be responsible for issuing DS-2019 forms to participants in this program.

A copy of the complete regulations governing the administration of Exchange Visitor (J) programs is available at <http://exchanges.state.gov> or from: United States Department of State, Office of Exchange Coordination and Designation, ECA/EC/ECD-SA-44, Room 734, 301 4th Street, SW., Washington, DC 20547, Telephone: (202) 203-5029, FAX: (202) 453-8640.

Please refer to Solicitation Package for further information.

IV.3d.2. Diversity, Freedom and Democracy Guidelines.

Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social, and cultural life. "Diversity" should be interpreted in the broadest sense and encompass differences including, but not limited to ethnicity, race, gender,

religion, geographic location, socio-economic status, and disabilities. Applicants are strongly encouraged to adhere to the advancement of this principle both in program administration and in program content. Please refer to the review criteria under the 'Support for Diversity' section for specific suggestions on incorporating diversity into your proposal. Public Law 104-319 provides that "in carrying out programs of educational and cultural exchange in countries whose people do not fully enjoy freedom and democracy," the Bureau "shall take appropriate steps to provide opportunities for participation in such programs to human rights and democracy leaders of such countries." Public Law 106-113 requires that the governments of the countries described above do not have inappropriate influence in the selection process. Proposals should reflect advancement of these goals in their program contents, to the full extent deemed feasible.

IV.3d.3. Program Monitoring and Evaluation.

Proposals must include a plan to monitor and evaluate the project's success, both as the activities unfold and at the end of the program. The Bureau recommends that your proposal include a draft survey questionnaire or other technique plus a description of a methodology to use to link outcomes to original project objectives. The Bureau expects that the grantee will track participants or partners and be able to respond to key evaluation questions, including satisfaction with the program, learning as a result of the program, changes in behavior as a result of the program, and effects of the program on institutions (institutions in which participants work or partner institutions). The evaluation plan should include indicators that measure gains in mutual understanding as well as substantive knowledge.

Successful monitoring and evaluation depend heavily on setting clear goals and outcomes at the outset of a program. Your evaluation plan should include a description of your project's objectives, your anticipated project outcomes, and how and when you intend to measure these outcomes (performance indicators). The more that outcomes are "smart" (specific, measurable, attainable, results-oriented, and placed in a reasonable timeframe), the easier it will be to conduct the evaluation. You should also show how your project objectives link to the goals of the program described in this RFGP.

Your monitoring and evaluation plan should clearly distinguish between program outputs and outcomes. Outputs

are products and services delivered, often stated as an amount. Output information is important to show the scope or size of project activities, but it cannot substitute for information about progress towards outcomes or the results achieved. Examples of outputs include the number of people trained or the number of seminars conducted. Outcomes, in contrast, represent specific results a project is intended to achieve and is usually measured as an extent of change. Findings on outputs and outcomes should both be reported, but the focus should be on outcomes.

We encourage you to assess the following four levels of outcomes, as they relate to the program goals set out in the RFGP (listed here in increasing order of importance):

1. Participant satisfaction with the program and exchange experience.
2. Participant learning, such as increased knowledge, aptitude, skills, and changed understanding and attitude. Learning includes both substantive (subject-specific) learning and mutual understanding.
3. Participant behavior, concrete actions to apply knowledge in work or community; greater participation and responsibility in civic organizations; interpretation and explanation of experiences and new knowledge gained; continued contacts between participants, community members, and others.
4. Institutional changes, such as increased collaboration and partnerships, policy reforms, new programming, and organizational improvements.

Please note: Consideration should be given to the appropriate timing of data collection for each level of outcome. For example, satisfaction is usually captured as a short-term outcome, whereas behavior and institutional changes are normally considered longer-term outcomes.

Overall, the quality of your monitoring and evaluation plan will be judged on how well it (1) specifies intended outcomes; (2) gives clear descriptions of how each outcome will be measured; (3) identifies when particular outcomes will be measured; and (4) provides a clear description of the data collection strategies for each outcome (*i.e.*, surveys, interviews, or focus groups). (Please note that evaluation plans that deal only with the first level of outcomes [satisfaction] will be deemed less competitive under the present evaluation criteria.)

Grantees will be required to provide reports analyzing their evaluation findings to the Bureau in their regular program reports. All data collected, including survey responses and contact

information, must be maintained for a minimum of three years and provided to the Bureau upon request.

IV.3d. Describe your plans for: Sustainability, overall program management, staffing, and coordination with ECA.

IV.3e. Please take the following information into consideration when preparing your budget:

IV.3e.1. Applicants must submit a comprehensive budget for the entire program. There must be a summary budget as well as breakdowns reflecting both administrative and program budgets. Applicants may provide separate sub-budgets for each program component, phase, location, or activity to provide clarification.

IV.3e.2. Allowable costs for the program include the following:

- (1) Salaries and fringe benefits; travel and per diem;
- (2) Other direct costs, inclusive of rent, utilities, etc.;
- (3) Overhead expenses and auditing costs.

Please refer to the Solicitation Package for complete budget guidelines and formatting instructions.

ACTION: Notice of Limitation on Claims for Judicial Review of Actions by FHWA.

SUMMARY: This notice announces actions taken by the FHWA that are final within the meaning of 23 U.S.C. 139(J)(1). The actions relate to a proposed highway project, along State Route 52 from east of Interstate 15 to Mast Boulevard in the County of San Diego, State of California. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA is advising the public of final agency action subject to 23 U.S.C. 139(J)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before November 27, 2007. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for

filing such claim, then that shorter time period still applies.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA has taken final agency actions subject to 23 U.S.C. 139(J)(1) by issuing a Finding of No Significant Impact constituting approval pursuant to the National Environmental Policy Act for the following highway project in the State of California. The project will widen State Route 52 from 12 to 24 feet into the median from east of Interstate 15 (Postmile 7.4) to Mast Boulevard (Postmile 13.3), a distance of 5.8 miles to accommodate an extra lane in each direction. The project proposes to increase capacity by adding a lane in both eastbound and westbound directions. The project would relieve peak hour traffic congestion, meet anticipated traffic increases, and improve traffic flow on State Route 52. [FHWA File #: 11-SD-52, PM 7.5/13.3] The actions by the Federal agency and the laws under which such actions were taken are described in the Final Environmental Assessment (FEA) for the project, approved on April 24, 2007, in the FHWA Finding of No Significant Impact (FONSI) issued on April 24, 2007 and in other documents in the FHWA project records. The FEA, FONSI, and other project records are available by contacting FHWA or the California Department of Transportation at the addresses provided above.
