Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g) of the Instruction, from further environmental documentation. This rule fits the category selected from paragraph (34)(g), as it would establish a safety zone to deal with an emergency situation and that safety zone would be in effect for only three hours.

A final “Environmental Analysis Check List” and a final “Categorical Exclusion Determination” will be available in the docket where indicated under **ADDRESSES**.
