

the appropriate filing fee electronically, and sending the deposit copies and materials required by paragraph (c)(4) of this section by postal mail; or by printing Form GATT from the Office's website, sending it with the appropriate filing fee and deposit copies and materials required by paragraph (c)(4) of this section in the same package by mail; or by obtaining a Form GATT, completing it, and sending the appropriate filing fee and the deposit copies and materials required by paragraph (c)(4) of this section in the same package by mail. A printed Form GATT may be obtained by calling or writing the Copyright Office Hotline at 202-707-9100. The GATT deposit materials required by paragraph (c)(4) of this section may be submitted for examination and registration electronically. Where, however, the Library of Congress requests a particular work or its identifying material for its collections, the required print deposit materials must be submitted.

■ 5. Section 202.20 is amended as follows:

- a. By revising paragraph (b)(1);
- b. By redesignating paragraphs (b)(2)(iii) through (vi) as (b)(2)(iv) through (vii); and
- c. By adding a new paragraph (b)(2)(iii).

The revisions and additions to § 202.20 read as follows:

§ 202.20 Deposit of copies and phonorecords for copyright registration.

(b) * * *

(1) *The best edition* of a work has the meaning set forth in § 202.19(b)(1). For purposes of this section, if a work is first published in both hard copy, i.e., in a physically tangible format, and also in an electronic format, the current Library of Congress Best Edition Statement requirements pertaining to the hard copy format apply.

(2) * * *

(iii) *Works submitted for registration in digital formats.* A 'complete' electronically filed work is one which is embodied in a digital file which contains:

(A) if the work is unpublished, all authorship elements for which registration is sought; and

(B) if the work is published solely in an electronic format, all elements constituting the work in its published form, i.e., the complete work as published, including metadata and authorship for which registration is not sought. Publication in an electronic only format requires submission of the digital file[s] in exact first-publication form and content.

(C) For works submitted electronically, any of the following file formats are acceptable for registration: PDF; TXT; WPD; DOC; TIF; SVG; JPG; XML; HTML; WAV; and MPEG family of formats, including MP3. This list of file formats is non-exhaustive and it may change, or be added to periodically. Changes will be noted in the list of acceptable formats on the Copyright Office website.

(D) Contact with the registration applicant may be necessary if the Copyright Office cannot access, view, or examine the content of any particular digital file that has been submitted for the registration of a work. For purposes of section 410(d) of 17 U.S.C., a deposit has not been received in the Copyright Office until a copy that can be reviewed by the Office is received.

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Redesignation of the Lancaster 8-Hour Ozone Nonattainment Area to Attainment and Approval of the Area's Maintenance Plan and 2002 Base-Year Inventory

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a redesignation request and State Implementation Plan (SIP) revisions submitted by the Commonwealth of Pennsylvania. The Pennsylvania Department of Environmental Protection (PADEP) is requesting that the Lancaster nonattainment area ("Lancaster Area" or "Area") be redesignated as attainment for the 8-hour ozone national ambient air quality standard (NAAQS). In conjunction with its redesignation request, the PADEP submitted SIP revisions consisting of a maintenance plan for the Lancaster Area that provides for continued attainment of the 8-hour ozone NAAQS for at least 10 years after redesignation. EPA is

approving the 8-hour maintenance plan. PADEP also submitted a 2002 base-year inventory for the Lancaster Area which EPA is approving. In addition, EPA is approving the adequacy determination for the motor vehicle emission budgets (MVEBs) that are identified in the Lancaster Area maintenance plan for purposes of transportation conformity, and is approving those MVEBs. EPA is approving the redesignation request, and the maintenance plan, and the 2002 base-year emissions inventory as revisions to the Pennsylvania SIP in accordance with the requirements of the Clean Air Act (CAA).

DATES: *Effective Date:* This final rule is effective on July 6, 2007 pursuant to the authority of 5 U.S.C. 553(d)(1).

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2006-0840. All documents in the docket are listed in the www.regulations.gov Web site. Although listed in the electronic docket, some information is not publicly available, i.e., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the Pennsylvania Department of Environmental Protection, Bureau of Air Quality Control, P.O. Box 8468, 400 Market Street, Harrisburg, Pennsylvania 17105. **FOR FURTHER INFORMATION CONTACT:** Ellen Wentworth (215) 814-2034, or by e-mail at wentworth.ellen@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On May 15, 2007 (72 FR 27265), EPA published a notice of proposed rulemaking (NPR) for the Commonwealth of Pennsylvania. The NPR proposed approval of Pennsylvania's redesignation request, a SIP revision that establishes a maintenance plan for the Lancaster Area that provides for continued attainment of the 8-hour ozone NAAQS for at least 10 years after redesignation, and a 2002 base-year emissions inventory. The formal SIP revisions were submitted by PADEP on September 20, 2006, and supplemented on November 8, 2006.

Other specific requirements of Pennsylvania's redesignation request and SIP revision for the maintenance plan, and the rationale for EPA's proposed actions are explained in the NPR and will not be restated here. No public comments were received on the NPR.

On December 22, 2006, the U.S. Court of Appeals for the District of Columbia Circuit vacated EPA's Phase 1 Implementation Rule for the 8-hour Ozone Standard. (69 FR 23951, April 30, 2004). *South Coast Air Quality Management Dist. v. EPA*, 472 F.3d 882 (D.C.Cir. 2006). On June 8, 2007, in *South Coast Air Quality Management Dist. v. EPA*, Docket No. 04-1201, in response to several petitions for rehearing, the D.C. Circuit clarified that the Phase 1 Rule was vacated only with regard to those parts of the rule that had been successfully challenged. Therefore, the Phase 1 Rule provisions related to classifications for areas currently classified under subpart 2 of Title I, part D of the Act as 8-hour nonattainment areas, the 8-hour attainment dates, and the timing for emissions reductions needed for attainment of the 8-hour ozone NAAQS remain effective. The June 8 decision left intact the Court's rejection of EPA's reasons for implementing the 8-hour standard in certain nonattainment areas under subpart 1 in lieu of subpart 2. By limiting the vacatur, the Court let stand EPA's revocation of the 1-hour standard and those anti-backsliding provisions of the Phase 1 Rule that had not been successfully challenged. The June 8 decision reaffirmed the December 22, 2006 decision that EPA had improperly failed to retain four measures required for 1-hour nonattainment areas under the anti-backsliding provisions of the regulations: (1) Nonattainment area nonattainment New Source Review (NSR) requirements based on an area's 1-hour nonattainment classification; (2) Section 185 penalty fees for 1-hour severe or extreme nonattainment areas; (3) measures to be implemented pursuant to section 172(c)(9) or 182(c)(9) of the Act, on the contingency of an area not making reasonable further progress toward attainment of the 1-hour NAAQS, or for failure to attain that NAAQS; and (4) certain transportation conformity requirements for certain types of Federal actions. The June 8 decision clarified that the Court's reference to conformity requirements was limited to requiring the continued use of 1-hour motor vehicle emissions budgets until 8-hour budgets were available for 8-hour conformity determinations.

For the reasons set forth in the proposal, EPA does not believe that the Court's rulings alter any requirements relevant to this redesignation action so as to preclude redesignation, and do not prevent EPA from finalizing this redesignation. EPA believes that the Court's December 22, 2006 and June 8, 2007 decisions impose no impediment to moving forward with the redesignation of this Area to attainment, because even in light of the Court's decisions, redesignation is appropriate under the relevant redesignation provisions of the Act and longstanding policies regarding redesignation requests.

With respect to the 8-hour standard, the Lancaster Area is classified under subpart 2. The June 8, 2007 opinion clarifies that the Court did not vacate the Phase 1 Rule's provisions with respect to classifications for areas under subpart 2. The Court's decision therefore upholds EPA's classifications for those areas classified under subpart 2 for the 8-hour ozone standard. In its proposal, EPA proposed to find that the Area had satisfied the requirements under the 1-hour standard whether the 1-hour standard was deemed to be reinstated or whether the Court's decision on the petition for rehearing was modified to require something less than compliance with all applicable 1-hour requirements. Because EPA proposed to find that the Area satisfied the requirements under either scenario, EPA is proceeding to finalize the redesignation and to conclude that the Area met the requirements under the 1-hour standard applicable for purposes of redesignation under the 8-hour standard. These include the provisions of EPA's anti-backsliding rules, as well as the additional anti-backsliding provisions identified by the court in its rulings. In its June 8, 2007 decision the Court limited its vacatur so as to uphold those provisions of the anti-backsliding requirements that were not successfully challenged. Therefore, EPA finds that the Area has met the anti-backsliding requirements, see 40 CFR 51.900 *et seq.*; 70 FR 30592, 30604 (May 26, 2005), which apply by virtue of the Area's classification for the 1-hour ozone NAAQS, as well as the four additional anti-backsliding provisions identified by the Court, or alternatively, that such requirements are not applicable for purposes of redesignation. In addition, with respect to the requirement for transportation conformity under the 1-hour standard, the Court in its June 8 decision clarified that for those areas with 1-hour MVEBs, anti-backsliding requires only that those 1-hour budgets

must be used for 8-hour conformity determinations until replaced by 8-hour budgets. To meet this requirement, conformity determinations in such areas must comply with the applicable requirements of EPA's conformity regulations at 40 CFR part 93.

II. Final Action

EPA is approving the Commonwealth of Pennsylvania's redesignation request, maintenance plan, and the 2002 base-year emissions inventory because the requirements for approval have been satisfied. EPA has evaluated Pennsylvania's redesignation request that was submitted on September 20, 2006, and determined that it meets the redesignation criteria set forth in section 107(d)(3)(E) of the CAA. EPA believes that the redesignation request and monitoring data demonstrate that the Lancaster Area has attained the 8-hour ozone standard. The final approval of this redesignation request will change the designation of the Lancaster Area from nonattainment to attainment for the 8-hour ozone standard. EPA is approving the maintenance plan for the Lancaster Area submitted on September 20, 2006 as a revision to the Pennsylvania SIP. EPA is also approving the MVEBs submitted by PADEP in conjunction with its redesignation request. In addition, EPA is approving the 2002 base-year emissions inventory submitted by PADEP on September 20, 2006, and supplemented on November 8, 2006 as a revision to the Pennsylvania SIP. In this final rulemaking, EPA is notifying the public that we have found that the MVEBs for NO_x and VOCs in the Lancaster Area for the 8-hour ozone maintenance plan are adequate and approved for conformity purposes. As a result of our finding, the Lancaster Area must use the MVEBs from the submitted 8-hour ozone maintenance plan for future conformity determinations. The adequate and approved MVEBs are provided in the following table:

ADEQUATE AND APPROVED MOTOR VEHICLE EMISSIONS BUDGETS IN TONS PER DAY (TPD)

Budget year	NO _x	VOC
2009	22.3	14.3
2018	9.0	7.8

The Lancaster Area is subject to the CAA's requirements for marginal nonattainment areas until and unless it is redesignated to attainment.

III. Statutory and Executive Order Reviews

A. General Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4). This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal requirement, and does not alter the relationship or the distribution of

power and responsibilities established in the Clean Air Act. This rule also is not subject to Executive Order 13045 “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997), because it approves a state rule implementing a Federal standard.

In reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the

appropriate circuit by September 4, 2007. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action.

This action, approving the redesignation of the Lancaster Area to attainment for the 8-hour ozone NAAQS, the associated maintenance plan, the 2002 base-year emissions inventory, and the MVEBs identified in the maintenance plan, may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

40 CFR Part 81

Air pollution control, National parks, Wilderness areas.

Dated: June 25, 2007.

Donald S. Welsh,

Regional Administrator, Region III.

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Redesignation of the Tioga County Ozone Nonattainment Area to Attainment and Approval of the Area's Maintenance Plan and 2002 Base Year Inventory

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania. The Pennsylvania Department of Environmental Protection (PADEP) is requesting that the Tioga County ozone nonattainment area (Tioga Area) be redesignated as attainment for the 8-hour ozone ambient air quality standard (NAAQS). EPA is approving the ozone redesignation request for Tioga Area. In conjunction with its redesignation request, PADEP submitted a SIP revision consisting of a maintenance plan for Tioga Area that provides for continued attainment of the 8-hour ozone NAAQS for at least 10 years after redesignation. EPA is approving the 8-hour maintenance plan. PADEP also submitted a 2002 base year inventory for the Tioga Area which EPA is approving. In addition, EPA is approving the adequacy determination for the motor vehicle emission budgets (MVEBs) that are identified in the Tioga

Area maintenance plan for purposes of transportation conformity, and is approving those MVEBs. EPA is approving the redesignation request, and the maintenance plan and the 2002 base year emissions inventory as revisions to the Pennsylvania SIP in accordance with the requirements of the Clean Air Act (CAA).

DATES: *Effective Date:* This final rule is effective on July 6, 2007 pursuant to the authority of 5 U.S.C. 553(d)(1).

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2006-0862. All documents in the docket are listed in the <http://www.regulations.gov> Web site. SUPPLEMENTARY INFORMATION:

I. Background

On May 8, 2007 (72 FR 26046), EPA published a notice of proposed rulemaking (NPR) for the Commonwealth of Pennsylvania. The NPR proposed approval of Pennsylvania's redesignation request, a SIP revision that establishes a maintenance plan for the Tioga Area that provides for continued attainment of the 8-hour ozone NAAQS for at least 10 years after redesignation, and a 2002 base year emissions inventory. The formal SIP revisions were submitted by PADEP on September 28, 2006 and supplemented on November 14, 2006. Other specific requirements of Pennsylvania's redesignation request SIP revision for the maintenance plan and the rationales for EPA's proposed actions are explained in the NPR and will not be restated here. No public comments were received on the NPR.

However, on December 22, 2006, the U.S. Court of Appeals for the District of Columbia Circuit vacated EPA's Phase 1 Implementation Rule for the 8-hour Ozone Standard. (69 FR 23591, April 30, 2004). *South Coast Air Quality Management Dist. v. EPA*, 472 F.3d 882 (D.C. Cir. 2006). On June 8, 2007, in *South Coast Air Quality Management Dist. v. EPA*, Docket No. 04-1201, in response to several petitions for rehearing, the DC Circuit clarified that the Phase 1 Rule was vacated only with regard to those parts of the rule that had been successfully challenged. Therefore, the Phase 1 Rule provisions related to classifications for areas currently classified under subpart 2 of Title I, part D of the Act as 8-hour nonattainment areas, the 8-hour attainment dates and the timing for emissions reductions needed for attainment of the 8-hour ozone NAAQS remain effective. The June 8 decision left intact the Court's
