Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing of a Proposed Rule Change and Amendment No. 1 Thereto Amending Its Obvious Error Rule for Equity Options

August 2, 2007.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on February 21, 2007, the Chicago Board Options Exchange, Incorporated ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been substantially prepared by the Exchange. On July 2, 2007, the CBOE submitted Amendment No. 1 to the proposed rule change.³ The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend CBOE Rule 6.25, which is the Exchange's rule applicable to the nullification and adjustment of transactions in equity options, to revise its obvious error provision related to "no bid" series. The Exchange is also proposing to make a non-substantive change by adding a cross-reference within the text of Rule 6.25.

Below is the text of the proposed rule change. Proposed new language is in italics and proposed deletions are in [brackets].

and (5) of this Rule have no applicability to trades executed in open outcry.

(a) Trades Subject to Review

A member or person associated with a member may have a trade adjusted or nullified if, in addition to satisfying the procedural requirements of paragraph (b) below, one of the following conditions is satisfied:

(1) No change.

(2) No Bid Series. Electronic transactions in series quoted no bid on the Exchange will be nullified provided:

(i) The bid in that series immediately preceding the execution was, and for five seconds prior to the execution remained, zero; and

(ii) at least one strike price below (for calls) or above (for puts) in the same options class was quoted no bid at the time of execution.

For purposes of subparagraphs (a)(2)(i) and (a)(2)(ii), bids and offers of the parties to the subject trade that are in any of the series in the same options class shall not be considered. In addition, each group of series in an options class with a non-standard deliverable will be treated as a separate options class.

(3)–(5) No change.

(b)–(e) No change.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to amend Rule 6.25, which is its obvious error rule pertaining to equity options, in order to modify the nullification provisions for no bid series. Currently, the Rule simply provides that electronic transactions in series that are quoted no bid on the Exchange are subject to nullification provided that at least one strike price below (for calls) or above

(for puts) in the same options class was quoted no bid at the time of execution. Under the revised Rule, additional criteria and clarifying language would be added. Specifically, an electronic transaction in a series quoted no bid on the Exchange would be subject to nullification provided: (i) The bid in that series immediately preceding the execution was, and for five (5) seconds prior to the execution remained, zero; and (ii) at least one strike price below (for calls) or above (for puts) in the same options class was quoted no bid at the time of execution. Thus, for example, if a trade occurs in the ABC 45 call option series when the series was quoted \$0.00–\$0.10, the trade may be nullified if: (i) The bid was at \$0.00 for at least five (5) seconds prior to the execution; and (ii) at least one call option series in ABC with a strike below 45 (e.g., the ABC 30, 35 or 40 call option series) had a bid of \$0.00 at the time of execution.

The revised no bid provision would also provide that, when determining the Exchange's quotes in the relevant series for purposes of (i) and (ii) above, bids and offers of the parties to the subject trade that are in any of the series in the same options class shall not be considered. The revised rule would also provide that each group of series in an options class with a non-standard deliverable will be treated as a separate options class. Thus, for example, if due to a reorganization, certain of the series in the ABC option class have a deliverable of 150 shares per options contract (as compared to the standard 100 shares per option contract), all ABC option series that are subject to the 150 contract delivery requirements would be considered separately from the ABC option series that are subject to the 100 contract delivery requirements for purposes of applying the no bid provision. Finally, the revised Rule would clarify that the no bid provision is intended to apply to series quoted no bid on the Exchange (as opposed to series for which the national best bid is quoted no bid).⁴

The Exchange states that the proposed changes to the no bid provision are intended to address the Exchange's experience in applying the provision to particular trading scenarios that have occurred. The Exchange believes that the additional criteria and clarifications are reasonable and objective, and would serve to better identify instances where

the no bid provision is intended to apply.

The Exchange is also proposing to make a revision to the introductory language in Rule 6.25 in order to cross reference paragraph (a)(5), which pertains to erroneous trades resulting from an erroneous quote in the underlying, as one of the three obvious error provisions that have no applicability to trades executed in open outcry.⁵ The Exchange is proposing to include the cross-reference in the introductory language in Rule 6.25 for consistency and completeness. The Exchange asserts that this proposed change is non-substantive because the text of paragraph (a)(5) already explicitly provides that the provision is not applicable to trades executed in open outcry.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with section 6(b) of the Act,⁶ in general, and furthers the objectives of section 6(b)(5) of the Act,⁷ in particular, in that it is designed to promote just and equitable principles of trade, prevent fraudulent and manipulative acts, remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received by the Exchange with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or

⁴ Consistent with the existing provisions, for a nullification to be granted, any member or person associated with a member that believes it participated in a transaction that falls within the no bid series parameters must also satisfy the notification procedures set forth in paragraph (b) of Rule 6.25.

⁵ The other two obvious error provisions that have no applicability to trades executed in open outcry pertain to obvious price errors and no bid series. See introductory language to Rule 6.25 and paragraphs (a)(1) and (2) thereunder.

⁶ 15 U.S.C. 78f(b).

⁷ 15 U.S.C. 78f(b)(5).

(ii) as to which the Exchange consents, the Commission will:

A. By order approve the proposed rule change or;

B. Institute proceedings to determine whether the proposed rule change should be disapproved.
