Information Collection Requirement

Title: Pipeline Security Awareness (CD-1) Effectiveness Assessment.

Type of Request: New collection.

OMB Control Number: Not yet assigned.

Form(s): NA.

Affected Public: Pipeline companies.

Abstract: As prescribed by the President in Homeland Security Presidential Directive 7 (HSPD-7), the Department of Homeland Security (DHS) was tasked to protect our nation's critical infrastructure and key resources (CI/KR). Through the National Infrastructure Protection Plan (NIPP), DHS gives guidance and direction as to how the Nation will secure its infrastructure. Furthermore, HSPD-7 and the NIPP assigned the responsibility for infrastructure security in the transportation sector to TSA. To this effect, the NIPP further tasks each sector to build security partnerships, set security goals and to measure their

effectiveness. To increase the security awareness levels across the pipeline industry, TSA plans to develop and distribute a Security Awareness Training compact disk (CD-1) to interested pipeline companies. In order to measure the effectiveness of CD-1 on raising pipeline company employee security awareness levels, TSA will solicit voluntary feedback from pipeline companies seeking to utilize the CD-1. TSA will use this information to: (1) Assess the effect of the CD-1 project on raising the baseline level of security awareness within the pipeline industry, and (2) obtain, based on individual company input, an indication of CD-1 user participation and employee participation levels throughout the pipeline industry.

Number of Respondents: 300.

Estimated Annual Burden Hours: An estimated 200 hours annually.

Issued in Arlington, Virginia, on November 27, 2007.

Information Collection Requirement

1652-0046; *Transportation Worker Identification Credential (TWIC) Program*. TSA developed the Transportation Worker Identification Credential (TWIC) program to mitigate threats and vulnerabilities in the national transportation system. The TWIC is a biometric credential that can be used as an identification tool for workers in various segments of the national transportation system. Before issuing an individual a credential, TSA performs a security threat assessment, which requires it to collect certain personal information such as name, address, etc.

The program implements authorities set forth in the Aviation and Transportation Security Act (ATSA) (Pub. L. 107-71; Nov. 19, 2002; sec. 106), the Maritime Transportation Security Act of 2002 (MTSA) (Pub. L. 107-295; Nov. 25, 2002; sec. 102), and the Safe, Accountable, Flexible, Efficient Transportation Equity Act—A Legacy for Users (SAFETEA-LU) (Pub.

L. 109-59; Aug. 10, 2005; sec. 7105), codified at 49 U.S.C. 5103a(g). TSA and the U.S. Coast Guard (Coast Guard) issued a joint Notice of Proposed Rulemaking (NPRM) on May 22, 2006. 71 FR 29396. After consideration of public comment on the NPRM, TSA issued a joint Final Rule (FR) with the Coast Guard on January 25, 2007 applicable to the maritime transportation sector that would require this information collection. 72 FR 3492.

Data is collected during an optional pre-enrollment step or during the enrollment session at an enrollment center. Among the records checks required by MTSA are: (1) A criminal history records check; (2) a check of intelligence databases; and (3) an alien status check. TSA also intends to conduct a survey to capture worker overall satisfaction with the enrollment process. The current estimated annualized reporting burden is 1,289,816 hours and the estimated annualized cost burden is \$47,971,669.
