BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being

already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated on the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation, and ninety (90) days have elapsed since that publication. The Assistant

Administrator of the Mitigation Directorate has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of

Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

Dated: March 17, 2008.

David I. Maurstad,

Federal Insurance Administrator of the National Flood Insurance Program, Department of Homeland Security, Federal Emergency Management Agency.

[FR Doc. E8-6911 Filed 4-2-08; 8:45 am]

BILLING CODE 9110-12-P

Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This final rule implements the Georges Bank (GB) Cod Hook Sector (Hook Sector) Fishing Year (FY) 2008 Operations Plan and Agreement, approved by the Administrator, Northeast Region, NMFS (Regional Administrator), and modifies the eligibility criteria for membership for the Hook Sector and the GB Cod Fixed Gear Sector (Fixed Gear Sector). Amendment 13 to the Northeast (NE) Multispecies Fishery Management Plan (FMP) (Amendment 13) authorized allocation of up to 20 percent of the annual GB cod total allowable catch (TAC) to the Hook Sector. Pursuant to that authorization, the Sector submitted an Operations Plan and Sector Contract entitled, "Georges Bank Cod Hook Sector Fishing Year 2008-2009 Operations Plan and Agreement" (together referred to as the Sector Agreement) and an Environmental Assessment (EA), and requested an allocation of GB cod, consistent with the FMP. This action results in authorization of the Sector Operations Plan during the 2008 fishing year and

allocation of 658 mt of GB cod to the Sector. This rule also modifies the eligibility criteria for membership in both the Hook Sector and the Fixed Gear Sector by allowing vessels without GB cod landings history to join a sector.

DATES: Effective May 1, 2008.

ADDRESSES: Copies of the Sector Agreement, EA and the Final Regulatory Flexibility Analysis (FRFA) are available from the Northeast Regional Office: Patricia A. Kurkul, Regional Administrator, National Marine Fisheries Service, One Blackburn Drive, Gloucester, MA 01930. The EA and FRFA are also accessible via the Internet at <http://www.noaa.gov/nero/regs/com.html>.

FOR FURTHER INFORMATION CONTACT: Thomas Warren, Fishery Policy Analyst, phone (978) 281-9347, fax (978) 281-9135, e-mail Thomas.Warren@noaa.gov.

SUPPLEMENTARY INFORMATION: A proposed rule soliciting public comment on the Sector Agreement for the Hook Sector was published in the **Federal Register** on March 3, 2008 (73 FR 11376), with public comment accepted through March 18, 2008. The Regional Administrator approved the FY 2008 Sector Operations Plan, based
