

on the passage of the Federal Deposit Insurance Reform Act of 2005, enacted on February 8, 2006. Provisions of the legislation directed the FDIC to merge the Bank Insurance Fund and the Savings Association Insurance Fund to form the new Deposit Insurance Fund, which subsequently merged on March 31, 2006. The formation of the single insurance fund eliminated the need for two types of insurance-related applications that existed to allow certain depository institutions to convert their coverage from one insurance fund to another. Accordingly, references in the Instructions to the previously required applications have been deleted. Also, the legal citations on page 1 of the application form, that correspond to the previously required application have been deleted (previously 12 U.S.C. 1815(d)(2), 1815(d)(3)). There are no other proposed changes to this information collection. Additionally, each of the Agencies proposes to renew two other forms, Interagency Biographical and Financial Report and the Interagency Notice of Change in Control, with no changes. The OCC proposes to renew, with no changes, one additional form, the Interagency Notice of Change in Directors or Senior Executive Officers. The Agencies need the information from these forms to ensure that the proposed transactions are permissible under law and regulation and are consistent with safe and sound banking practices. The Board published a separate **Federal Register** notice (72 FR 39428 (July 18, 2007)) and the OTS plans to publish a notice requesting public comment on these revisions.

Comments

the “I Can Do It, You Can Do It” Health Promotion Program for Children and Youth with Disabilities—New—Office on Disability (OD).

Abstract: The Department of Health and Human Services’ Office on Disability (OD) oversees the implementation and coordination of disability programs, policies, and special initiatives pertaining to the over 54 million persons with disabilities in the United States. As part of these efforts, the OD encourages youth with physical and cognitive disabilities to adopt a healthier life style that includes

good nutrition and increased physical activity. “I Can Do it, You Can Do It” is a health promotion intervention program for children and youth between the ages of 10 and 21 with disabilities that employs a one-on-one mentoring approach to change health behaviors. The program is implemented by sponsoring organizations who work with children and youth with disabilities. The OD will evaluate the effectiveness of the program.

The evaluation will be completed over a two-year period. Respondents will be children and youth with

disabilities who are participating in the program. Mentors who work with the participants/mentees will complete a post-program survey. Coordinators from the sponsoring organizations will complete a process evaluation survey. Results will be used to determine if the program has been successful, to report progress, and to make revisions for future administration of the program. There are no costs to respondents except their time to participate in the surveys.
