Definitions

The Assistant Secretary for Special Education and Rehabilitative Services, the Assistant Secretary for Vocational and Adult Education, and the Assistant Secretary for Postsecondary Education jointly establish the following definitions for the purpose of the *Center on Postsecondary Education for Students With Intellectual Disabilities* priority:

(1) *Adaptive skill areas*, as used in the definition of *students with intellectual disabilities*, means the basic skills needed for everyday life, such as communication, self-care, home living, social skills, leisure, health and safety, self-direction, functional academics (reading, writing, basic math), and work.

(2) *Scientifically based research* has the meaning given the term in 20 U.S.C. 7801(37): Research that involves the application of rigorous, systematic, and objective procedures to obtain reliable and valid knowledge relevant to education activities and programs. It includes research that—

(a) Employs systematic, empirical methods that draw on observation or experiment;

(b) Involves rigorous data analyses that are adequate to test the stated hypotheses and justify the general conclusions drawn;

(c) Relies on measurements or observational methods that provide reliable and valid data across evaluators and observers, across multiple measurements and observations, and across studies by the same or different investigators;

(d) Is evaluated using experimental or quasi-experimental designs in which individual entities, programs, or activities are assigned to different conditions and with appropriate controls to evaluate the effects of the condition of interest, with a preference for random-assignment experiments, or other designs to the extent that those designs contain within-condition or across-condition controls;

(e) Ensures that experimental studies are presented in sufficient detail and clarity to allow for replication or, at a

minimum, offer the opportunity to build systematically on their findings; and

(f) Has been accepted by a peer-reviewed journal or approved by a panel of independent experts through a comparably rigorous, objective, and scientific review.

(3) *Students with intellectual disabilities* means—

(a) Individuals ages 13 through 26 whose intellectual functioning levels require significant changes in instructional methods and modifications to the curriculum in order to participate in postsecondary education programs;

(b) Individuals who have significant limitations in adaptive skill areas as expressed in conceptual, social, and practical adaptive skills; and

(c) Individuals whose disabilities originated before the age of 18.

Executive Order 12866

This NFP has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with this NFP are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this NFP, we have determined that the benefits of the final priority and definitions justify the costs.

Summary of Potential Costs and Benefits

The benefits of the DRRP programs have been well established over the years in that other DRRP projects have been completed successfully. The priority and definitions announced in this notice will generate new knowledge through research, dissemination, utilization, and technical assistance.

Another benefit of the final priority and definitions is that establishing a new DRRP will support the President's NFI and improve the lives of individuals with disabilities. The new DRRP will generate, disseminate, and promote the use of new information that will improve the options for individuals with intellectual disabilities to achieve improved education, employment, and independent living outcomes.

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

Privacy Act of 1974; System of Records—Adult English as a Second Language (ESL) Literacy Impact Study

AGENCY: Institute of Education Sciences, Department of Education.

ACTION: Notice of a new system of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (Privacy Act), the Department of Education (Department) publishes this notice of a new system of records entitled "Adult English as a Second Language (ESL) Literacy Impact Study" (18-13-19). The National Center for Education Evaluation and Regional Assistance at the Department's Institute of Education Sciences (IES) commissioned this evaluation. It will be conducted under a contract that IES awarded in September 2004.

The study will address the following questions:

(1) How effective is instruction based on a literacy workbook in improving the English reading and speaking skills of low-literate adult ESL learners?

(2) Is instruction based upon the workbook more effective for certain groups of students (e.g., native Spanish speakers)?

(3) How well do instructors implement the instruction based upon the workbook?

The system will contain information about approximately 40 adult ESL teachers and two cohorts of approximately 900 adult learners per cohort. Within each cohort, approximately 450 learners will participate in classes in which instruction based upon the literacy workbook is implemented and approximately 450 learners will participate in classes in which instruction that is not based upon the literacy workbook is implemented. The first cohort of learners will be enrolled in adult education classes during the Fall semester of 2008. The second cohort of learners will be enrolled in adult education classes during the Spring semester of 2009.

The system of records will include information about the adult learners participating in the evaluation, including names and addresses; demographic information such as race, ethnicity, gender, age, and educational background; and scores on literacy assessments. The system of records will also include information about the teachers participating in the evaluation, including names; demographic information such as race, ethnicity, gender, and educational background; and teaching experience.

DATES: The Department seeks comment on the new system of records described in this notice, in accordance with the requirements of the Privacy Act. We must receive your comments on the proposed routine uses for the system of records referenced in this notice on or before May 27, 2008.

The Department filed a report describing the new system of records covered by this notice with the Chair of the Senate Committee on Homeland Security and Governmental Affairs, the Chair of the House Committee on Oversight and Government Reform, and the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB) on April 22, 2008. This system of records will become effective at the later date of—(1) the expiration of the 40-day period for OMB review on June 2, 2008 or (2) May 27, 2008, unless the system of records needs to be changed as a result of public comment or OMB review.

ADDRESSES: Address all comments about the proposed routine uses to Dr. Ricky Takai, Director, Evaluation Division, National Center for Education Evaluation and Regional Assistance, Institute of Education Sciences, U.S. Department of Education, 555 New Jersey Avenue, NW., room 502D, Washington, DC 20208-0001.

SUPPLEMENTARY INFORMATION:

Introduction

The Privacy Act (5 U.S.C. 552a) requires the Department to publish in the **Federal Register** this notice of a new system of records maintained by the Department. The Department's regulations implementing the Privacy Act are contained in part 5b of title 34 of the Code of Federal Regulations (CFR).

The Privacy Act applies to information about individuals that contains individually identifying information and that is retrieved by a unique identifier associated with each individual, such as a name or social security number. The information about each individual is called a “record,” and the system, whether manual or computer-based, is called a “system of records.”

The Privacy Act requires each agency to publish a notice of a system of records in the **Federal Register** and to

prepare and send a report to OMB whenever the agency publishes a new system of records. Each agency is also required to send copies of the report to the Chair of the Senate Committee on Homeland Security and Governmental Affairs and the Chair of the House Committee on Oversight and Government Reform. These reports are intended to permit an evaluation of the probable effect of the proposal on the privacy rights of individuals.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

The Department maintains records on CD-ROM, and the contractor (American Institutes for Research) and subcontractors (Berkeley Policy Associates and Mathematica Policy Associates) maintain data for this system on computers and in hard copy.

RETRIEVABILITY:

Records in this system are indexed and retrieved by a number assigned to each individual that is cross-referenced by the individual's name on a separate list.

SAFEGUARDS:

All physical access to the Department's site and to the sites of the Department's contractor and subcontractors, where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a need-to-know basis, and controls individual users' ability to access and alter records within the system. The contractor and subcontractors will establish similar sets of procedures at their sites to ensure confidentiality of data. Their systems are required to ensure that information identifying individuals is in files physically separated from other research data. The contractor and subcontractors will maintain security of the complete set of all master data files and documentation. Access to individually

identifying data will be strictly controlled. At each site all data will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry. Physical security of electronic data will also be maintained. Security features that protect project data include: Password-protected accounts that authorize users to use the contractor's and subcontractors' systems but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; and additional security features that the network administrators will establish for projects as needed. The contractor and subcontractor employees who "maintain" (collect, maintain, use, or disseminate) data in this system shall comply with the requirements of the confidentiality standards in section 183 of the ESRA (20 U.S.C. 9573).

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules (ED/RDS, Part 3, Item 2b and Part 3, Item 5a).

SYSTEM MANAGER AND ADDRESS:
