DEPARTMENT OF AGRICULTURE**Forest Service****Ketchikan-Misty Fiords Ranger District; Tongass National Forest; Alaska; Central Gravina Timber Sale Environmental Impact Statement**

AGENCY: Forest Service, USDA.

ACTION: Notice of Intent to Prepare an Environmental Impact Statement.

SUMMARY: The Forest Service, U.S. Department of Agriculture will prepare an Environmental Impact Statement (ETS) on a proposal to construct roads and harvest timber in central Gravina Island on the Ketchikan Misty Fiords Ranger District, Tongass National Forest. Two Alternatives have been developed for the public to comment on. These Proposed Alternatives would harvest between 18 and 38 million board feet (MMBF) of timber on between 515 and 1,250 acres and would construct between 7 and 16 miles of road respectively.

DATES: Opportunities for comments are available throughout the analysis process. Comments concerning the scope of the analysis will be most helpful if received within 30 days of the date of this notice. Additional opportunities for comment will be provided after release of both the Draft Environmental Impact Statement which is expected to be published November 2008 and the Final Environmental Impact Statement and Record of Decision are expected in May 2009.

ADDRESSES: Send or hand deliver written comments to the Ketchikan Misty Fiords Ranger District, Attn: Central Gravina EIS, Tongass National Forest, 3031 Tongass Avenue, Ketchikan, AK 99901; telephone (907) 225-2148. The FAX number is (907) 225-8738.

Send e-mail comments to: *comments-alaska-tongass-ketchikan-mistyfiord@fs.fed.us* with Central Gravina EIS on the subject line. Include your name, address, and organization name if you are commenting as a representative.

FOR FURTHER INFORMATION CONTACT: For further information, mail correspondence to Lynn Kolund, District Ranger, Ketchikan Misty Fiords Ranger District, Tongass National Forest, 3031 Tongass Avenue, Ketchikan, AK 99901, telephone (907) 228-4100 or Linda Pulliam, Interdisciplinary Team Leader, Ketchikan Misty Fiords Ranger District, Tongass National Forest, 3031 Tongass Avenue, Ketchikan, AK 99901, telephone (907) 228-4124.

SUPPLEMENTARY INFORMATION: This EIS will tier to the 2008 Tongass Land and Resource Management Plan (Forest Plan) that provides overall guidance, goals, objectives, and management area direction to achieve the desired condition for the project area.

The project area is administered by the Ketchikan-Misty Fiords Ranger District of the Tongass National Forest, Ketchikan, Alaska and occurs in Value Comparison Units (VCUs) 7610 and VCU 7630 as designated by the Forest Plan. The Central Gravina project area is located between Bostwick Inlet and Vallenar Bay on Gravina Island, which is located approximately 5 miles west of Ketchikan. The land use designation (LUD) for the project area is Timber Production. As part of the Forest Plan update certain LUDs on Gravina Island were adjusted based on comments received from the public during the Forest Plan draft EIS review. LUDs to the south and west of the Central Gravina project area have been adjusted and allocated to more restrictive non development LUDs. The proposed timber harvest units and roads are within the Gravina Inventoried Roadless Area #522. Slightly over three-quarters of inventoried roadless acres are included in non-development LUDS. The Forest Plan allocates 24% of the inventoried roadless acres to development LUDs; only three percent of the land in inventoried roadless areas would be included in the suitable land base. The Central Gravina project area falls within this three percent inventory roadless area that lies within a Timber LUD. The 2008 Forest Plan Timber Sale Program Adaptive Management Strategy identified three phases of projected timber development. The Central Gravina project area falls within the Phase 1, which includes most of the roaded portion of the ASQ land base and most of the lower valued inventoried roadless areas.

Purpose and Need for Action

The purpose and need for the proposed action responds to the goals and objectives identified by the 2008 Tongass Land and Resource Management Plan, and helps move the area toward the Forest Plan desired conditions. Forest Plan goals, objectives, and desired conditions that apply to the project include:

1. Maintain and promote wood production from suitable forest lands, providing a continuous supply of wood to meet society's needs.
2. Manage Forest lands for sustained long-term timber yields.
3. Seek to provide a supply of timber that meets the annual and planning-
