

DEPARTMENT OF DEFENSE**Department of the Air Force****Notice of Intent To Prepare an Environmental Impact Statement for the Expansion of the Powder River Complex Near Ellsworth AFB, South Dakota**

AGENCY: Air Combat Command, Department of the Air Force.

ACTION: Notice of Intent.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321, *et seq.*), the Council on Environmental Quality (CEQ) Regulations for Implementing the Procedural Provisions of NEPA (40 CFR Parts 1500–1508), and Air Force policy and procedures (32 CFR Part 989), the Air Force is issuing this notice to advise the public of its intent to prepare an Environmental Impact Statement (EIS). The EIS will assess the potential environmental consequences of a proposal to expand and enhance the Air Force's existing Powder River Complex (PRC) which currently has both airspace and ground-based Air Force training assets in South Dakota, Wyoming, and Montana.

The Air Force proposal would establish the Powder River Training Complex (PRTC). The PRTC would more effectively use limited resources and finite flying hours by providing locally the realistic training needed by B-1 and B-52 aircrews flying from Ellsworth Air Force Base (AFB) and Minot AFB, respectively. This would address the training and other limitations affecting the existing PRC training assets as they are currently configured. The proposed action would restructure and reconfigure the existing PRC Military Operations Areas (MOAs) and associated Air Traffic Control Assigned Airspace (ATCAA), establish additional MOA/ATCAA combinations in portions of South Dakota, North Dakota, Wyoming, and Montana, and include Gap MOAs to link these airspace units together for anticipated quarterly exercises. The resulting PRTC would provide a versatile, scalable complex with more realistic, effective, and efficient air combat training. Under each action alternative, the proposal would add new airspace with a floor of 500 feet above ground level (AGL) and eliminate some existing airspace. The proposed PRTC would also support additional ground-based simulated threat emitters under the MOAs, authorize use of defensive chaff and flares throughout the special use airspace, and permit supersonic flight

above 10,000 feet AGL (above ground level) within the special use airspace. Changes to the airspace would permit increased local training throughout the MOAs and ATCAAs and provide for almost a full range of required combat training missions which replicate the combat conditions faced by Ellsworth AFB and Minot AFB aircrews. The modular design of the airspace would provide for more viable combat training with today's technological systems, and support missions such as dissimilar air combat training, network linked operations, and large force exercises. Three action alternatives and a no-action alternative have currently been identified for analyses (per 40 CFR 1502.14(d)). Alternative A, Full PRTC, would establish low (MOAs) and high (ATCAA) airspace that would expand the area overflown at low altitude from the existing approximately 5,900 square miles to approximately 31,700 square miles. Under Alternative B the low-altitude MOA airspace would overfly approximately 22,800 square miles. Under Alternative C the low-altitude MOA airspace would overfly approximately 24,500 square miles. The proposed ATCAA airspace would overfly approximately 37,800 square miles under Alternatives A, B, or C. Under the no action alternative, the existing PRC would continue with low altitude MOAs overflying approximately 5,900 square miles and ATCAAs overflying approximately 14,100 square miles.

DATES: The Air Force will host a series of public scoping meetings in communities underlying and/or adjacent to the proposed action. The purpose of these meetings is to receive public input on the proposed action and alternatives, as well as gain a better understanding of the potential issues and concerns related to this proposal. Abstract: The No Child Left Behind Act (NCLB) requires districts with Title I schools that fall short of state standards for three years or more to offer supplemental educational services (SES) to their students from low-income families who attend these schools. SES are tutoring or other academic support services offered outside the regular school day by state-approved providers free of charge to eligible students. Parents can choose the specific SES provider from among a list approved to serve their area. The U.S. Department of Education has commissioned Mathematica Policy Research to evaluate the impact of SES on student achievement in up to nine school districts across the country. Findings of the study will not only inform national policy discussions about SES, but will also provide direct feedback to participating districts about the effectiveness of the SES offered to their students.

AGENCY: Federal Student Aid, U.S. Department of Education.

ACTION: Notice of revision of the Federal Need Analysis Methodology for the 2009-2010 award year.

SUMMARY: The Secretary announces the annual updates to the tables that will be used in the statutory "Federal Need Analysis Methodology" to determine a student's expected family contribution (EFC) for award year 2009-2010 for the student financial aid programs authorized under Title IV of the Higher Education Act of 1965, as amended (HEA). An EFC is the amount a student and his or her family may reasonably be expected to contribute toward the student's postsecondary educational costs for purposes of determining financial aid eligibility. The Title IV programs include the Federal Pell Grant, Academic Competitiveness Grant, National Science and Mathematics Access to Retain Talent Grant, Federal Perkins Loan, Federal Work-Study, Federal Supplemental Educational Opportunity Grant, Federal Family Education Loan, and William D. Ford Federal Direct Loan Programs (Title IV, HEA Programs).

SUPPLEMENTARY INFORMATION: Part F of Title IV of the HEA specifies the criteria, data elements, calculations, and tables used in the Federal Need Analysis Methodology EFC calculations.

Section 478 of Part F of Title IV of the HEA requires the Secretary to adjust four of the tables—the Income Protection Allowance, the Adjusted Net Worth of a Business or Farm, the Education Savings and Asset Protection Allowance, and the Assessment Schedules and Rates—each award year to adjust for general price inflation. The changes are based, in general, upon increases in the Consumer Price Index.

For award year 2009-2010 the Secretary is charged with updating the income protection allowance for parents of dependent students, adjusted net worth of a business or farm, and the assessment schedules and rates to account for inflation that took place between December 2007 and December
