BILLING CODE 6730-01-P

FEDERAL MARITIME COMMISSION

Privacy Act of 1974; Proposed Republication and Altered Systems of Records

June 27, 2008.

AGENCY: Federal Maritime Commission.

ACTION: Notice of republication and altered systems of records.

SUMMARY: This Notice proposes the amendment of various Privacy Act Systems of Records maintained by the Commission and republication of the agency's complete Systems of Records.

DATES: Submit an original and 15 copies of comments (paper), or e-mail comments as an attachment in WordPerfect 10, Microsoft Word 2003, or earlier versions of these applications, no later than August 1, 2008. The alterations will be effective on August 11, 2008, unless comments are received that would result in a contrary determination.

ADDRESSES: Address all comments concerning this notice to: Karen V. Gregory, Assistant Secretary, Federal Maritime Commission, 800 N. Capitol Street, NW., Washington, DC 20573-0001, Secretary@fmc.gov.

FOR FURTHER INFORMATION CONTACT: Karen V. Gregory, Assistant Secretary, Federal Maritime Commission, 800 N. Capitol Street, NW., Washington, DC 20573-0001, (202) 523-5725, Secretary@fmc.gov.

SUPPLEMENTARY INFORMATION: Notice is given that, pursuant to the Privacy Act of 1974, 5 U.S.C. 552a, the Federal Maritime Commission proposes to amend various Systems of Records ("SOR") and to republish the complete SOR.

The following systems are being deleted: FMC-15 Service Control Line-FMC—because the files are no longer maintained by the Office of Human Resources; FMC-21—Payroll Records—because a new system has been developed which indicates that the Payroll Records are no longer handled by the Office of Thrift Supervision; and FMC-30—Procurement Integrity Certification Files—because it relates to the Automated Tariff Filing and Information System which has been discontinued.

The Office of Management and Budget has advised that agencies should publish a routine use for appropriate systems of records specifically applying to the disclosure of information in connection with response and remedial efforts in the event of a data breach involving Personally Identifiable Information. Accordingly, the following routine use has been added to each of the Commission's SOR:

To appropriate agencies, entities, and persons when (a) The Federal Maritime Commission suspects or has confirmed that the security or confidentiality of information in the system of records has been compromised; (b) the agency has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by the agency or another agency or entity) that rely upon the compromised information; and (c) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the agency's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.

In addition, minor changes are being made which reflect organizational name changes and changes to retention time periods. Non-substantive editorial changes are also being made to appropriate systems. These affected systems are: FMC-8—Official Personnel Folder; FMC-9—Training Program Records; FMC-14—Medical Examination File; FMC-16—Classification Appeals File; and FMC-29—Employee Performance File System Records. These systems all fall under the Office of Personnel Management's Government-wide SOR. Also, FMC-25—Inspector General File is being changed to reflect that investigative files that do not relate to a specific investigation, currently retained for ten years, will now be retained for seven years. Other investigative case files that were retained for fifteen years will now be retained for ten years.

Interested parties may participate by filing with the Assistant Secretary,

Federal Maritime Commission, an original and 15 copies of their views and comments (paper), or e-mail comments as an attachment in WordPerfect 10, Microsoft Word 2003, or earlier versions of these applications. All suggestions for changes should be accompanied by draft language necessary to accomplish the desired changes, and should include supportive statements and arguments.

A complete Systems of Records reflecting the above listed changes follows.
