

356043 soybean; and (10) when considered in light of other past, present, and reasonably foreseeable future actions, and considering potential environmental effects associated with adoption of 356043 soybean, APHIS could not identify significant environmental impacts that would result from granting nonregulated status to 356043 soybean.

National Environmental Policy Act

To provide the public with documentation of APHIS' review and analysis of any potential environmental impacts associated with the determination of nonregulated status for 356043 soybeans, an EA was prepared. The EA was prepared in accordance with (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372). Based on that EA and other pertinent scientific data, APHIS has reached a finding of no significant impact with regard to the determination that Pioneer 356043 soybean line and lines developed from it are no longer regulated articles under its regulations in 7 CFR part 340. Copies of the EA and finding of no significant impact are available as indicated in the **ADDRESSES** and **FOR FURTHER INFORMATION CONTACT** sections of this notice.

Authority: 7 U.S.C. 7701–7772 and 7781–7786; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.3.

Commodity Credit Corporation

Agricultural Management Assistance Program

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Notice of availability of program funds for the Agricultural Management Assistance (AMA) Program.

SUMMARY: The Food, Conservation, and Energy Act of 2008 (2008 Act) expanded the geographic scope of the AMA

Program to include the State of Hawaii. The Commodity Credit Corporation (CCC) administers AMA under the general supervision of the Chief of the Natural Resources Conservation Service (NRCS), who is one of the vice presidents of CCC.

CCC announces the availability of an additional \$2.5 million of technical and financial assistance funds in fiscal year (FY) 2008 to participating States. AMA is available to States which have historically low participation in the Federal crop insurance program. These States are: Connecticut, Delaware, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Utah, Vermont, West Virginia, Wyoming, and Hawaii. Under AMA, a participant may use financial assistance to adopt conservation practices that will reduce or mitigate risks to their agricultural enterprises.

AMA is authorized by Section 524(b) of the Federal Crop Insurance Act (7 U.S.C. 1524(b)), and administered under regulations found at 7 CFR part 1465. NRCS will, at a later date, formally amend the final rule located in 7 CFR part 1465 to add Hawaii as an area which is eligible for AMA assistance.

DATES: July 24, 2008 to September 30, 2008.

FOR FURTHER INFORMATION CONTACT:

Harry Slawter, Director, Financial Assistance Programs Division, NRCS, Post Office Box 2890, Washington, DC 20013; telephone: (202) 720–1845; facsimile: (202) 720–4265; e-mail: harry.slawter@wdc.usda.gov.

SUPPLEMENTARY INFORMATION:

CCC hereby announces the availability of up to \$2.5 million in FY 2008 to provide technical and financial assistance to producers under AMA. AMA assistance helps producers develop and implement conservation practices that reduce or mitigate agricultural production risks. Conservation practices, available under AMA, reduce soil erosion, improve watershed management or irrigation structures, utilize integrated pest management principles, and assist producers in transitioning to organic-based farming.

AMA was established in 2000. Since that time, AMA has been made available to 15 States, listed in statutory authority, in which participation in the Federal crop insurance program has been historically low. The 15 States include: Connecticut, Delaware, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Utah, Vermont, West Virginia, and Wyoming. The 2008 Act expanded

AMA's geographic scope to include the State of Hawaii.

The 2008 Act provided for the continuation of conservation programs in 2008. AMA will continue to use the policies and operating procedures outlined in AMA's regulation (7 CFR part 1465) for program implementation in 2008. Individuals interested in applying for AMA assistance may contact their local Department of Agriculture (USDA) service center in participating AMA States.
