DOT's Office of Inspector General recommended, in its audit report, entitled "Actions Needed to Minimize Long, On-Board Flight Delays," issued on September 25, 2007, that the Secretary of Transportation establish a national task force of airlines, airports, and the Federal Aviation Administration (FAA) to coordinate and develop contingency plans to deal with lengthy delays, such as working with carriers and airports to share facilities and make gates available in an emergency. To effectuate this recommendation, on January 3, 2008, the Department, consistent with the requirements of the FACA, established the National Task Force to Develop Model Contingency Plans to Deal with Lengthy Airline On-Board Ground Delays. The first meeting of the Task Force took place on February 26, 2008. This will be the fifth meeting of the task force.

The agenda topics for the August 25, 2008, meeting will include the

following: (1) A final review and discussion of a draft model contingency plan for dealing with lengthy tarmac delays, developed by the Contingency Plan Working Group, the working group that is tasked with reviewing existing airline and airport contingency plans for extended tarmac delays for best practices and developing a model contingency plan; and (2) one or more presentations on recent tarmac delay events and efforts to avoid them.

Attendance is open to the public, and time will be provided for comments by members of the public. Since access to the U.S. DOT headquarters building is controlled for security purposes, any member of the general public who plans to attend this meeting must notify the Department contact noted above no later than ten (10) calendar days prior to the meeting. Attendance will be necessarily limited by the size of the meeting room.

Members of the public may present written comments at any time and, at the discretion of the Chairman and time permitting, oral comments at the meeting.
