DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Modification in *United States v. East Kentucky Power Cooperative, Inc.* Under the Clean Air Act

Under 28 CFR 50.7, notice is hereby given that on February 5, 2008, a proposed modification ("Modification") to a consent decree ("Consent Decree") between East Kentucky Power Cooperative, Inc. ("EKPC") and the United States, Civil Action No. 04-34-KSF, was lodged with the United States District Court for the Eastern District of Kentucky.

The original Consent Decree was lodged with the United States District Court for the Eastern District of Kentucky on July 2, 2007, and entered by the Court on September 24, 2007. The Consent Decree resolved claims asserted by the United States against EKPC pursuant to Sections 113(b) and 167 of the Clean Air Act (the "Act"), 42 U.S.C. 7413(b) and 7477, seeking injunctive relief and the assessment of civil penalties for EKPC's violations of:

(a) The Prevention of Significant Deterioration ("PSD") provisions in Part C of Subchapter I of the Act, 42 U.S.C. 7470-92;

(b) The New Source Performance Standards ("NSPS") provisions of the Act, 42 U.S.C. 7411;

(c) Title V of the Act, 42 U.S.C. 7661, *et seq.*; and

(d) The federally-enforceable State Implementation Plan ("SIP") developed by the Commonwealth of Kentucky. See 72 FR 37797 (July 11, 2007).

EKPC operates three coal-fired power plants in Kentucky: the Spurlock Plant, located near Maysville, Kentucky, the

Dale Plant, located near Winchester, Kentucky, and the Cooper Plant, located near Somerset, Kentucky. The complaint filed by the United States alleged that EKPC modified Spurlock Unit 2 and Dale Units 3 and 4 without complying with PSD (including the requirements to first obtain a PSD permit authorizing the modifications and to install and operate the best available technology to control emissions of sulfur dioxide ("SO₂"), nitrogen oxides ("NO_x"), and/or particulate matter ("PM")), and modified Dale Units 3 and 4 without complying with NSPS. The Complaint also alleged that EKPC violated Title V of the Act by failing to include the PSD and NSPS requirements triggered by its modifications in its Title V operating permits for the Spurlock and Dale plants. Finally, the Complaint alleged that EKPC illegally operated Spurlock Unit 2 at heat input capacities that were higher than allowed by its operating permit.

The Consent Decree entered by the Court on September 24, 2007 requires, *inter alia*, that EKPC reduce SO₂, NO_x and PM emissions at its plants through the installation and operation of state-of-the-art pollution control technologies and/or the retirement or re-powering of certain units. The proposed Modification would extend by up to 60 days the time for EKPC to comply with the Consent Decree's 30-day rolling average emission rates for NO_x applicable to Spurlock Unit 1. The extension relates to a transformer failure at the Spurlock Plant that altered EKPC's scheduled installation of a third catalyst layer for selective catalytic reduction ("SCR") controls at Spurlock Unit 1, which resulted in EKPC's inability to operate the SCR in time to meet the applicable 30-day rolling average emission rates for NO_x. The Modification also requires EKPC to mitigate the effect of the excess emissions caused by the delay, by retiring NO_x allowances equal to the amount of excess emissions, plus a premium of ten percent.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Modification. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcommentees.enrd@usdoj.gov or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. East Kentucky Power Cooperative*, D.J. Ref. No. 90-5-2-1-08085.

The Modification may be examined at the Office of the United States Attorney, Eastern District of Kentucky, 260 West Vine Street, Suite 300, Lexington, Kentucky, 40507-1612, and at U.S. EPA Region IV, 61 Forsyth Street, SW., Atlanta, Georgia, 30303-8960.
