

Collocation PA include the collocation of communications equipment on existing structures and towers.

This Program Comment is intended to streamline Section 106 review of the construction and modification of communication towers and antennas for which FCC and RUS or NTIA share Section 106 responsibility.

Nothing in this Program Comment alters or modifies the FCC Nationwide PA or the FCC Collocation PA, or imposes Section 106 responsibilities on the FCC for elements of an RUS or NTIA undertaking that are unrelated to a communications facility within the FCC's jurisdiction or are beyond the scope of the FCC Nationwide PA.

II. Establishment and Authority: This Program Comment was issued by the ACHP on (date to be determined) pursuant to 36 CFR 800.14(e).

III. Date of Effect: This Program Comment went into effect on (date to be determined).

IV. Use of this Program Comment to Comply with Section 106 for the Effects of Facilities Construction or Modification Reviewed under the FCC Nationwide PA and/or the FCC Collocation PA: RUS and NTIA will not need to comply with Section 106 with regard to the effects of communication facilities construction or modification that has either undergone or will undergo Section 106 review, or is exempt from Section 106 review, by the FCC under the FCC Nationwide PA and/or the FCC Collocation PA. For purposes of this program comment, review under the FCC Nationwide PA means the historic preservation review that is necessary to complete the FCC's Section 106 responsibility for an undertaking that is subject to the FCC Nationwide PA.

When an RUS or NTIA undertaking includes both communications facilities construction or modification covered by the FCC Nationwide PA or Collocation PA and components in addition to such communication facilities construction or modification, RUS and NTIA will comply with Section 106 in accordance with the process set forth at 36 CFR 5 800.3 through 800.7, or 36 CFR 800.8(c), or another applicable alternate procedure under 36 CFR 800.14, but will not have to consider the effects of the communication facilities construction or modification component of the undertaking on historic properties. Whenever RUS or NTIA uses this Program Comment for such undertakings, RUS or NTIA will apprise the relevant State Historic Preservation Officer (SHPO) or Tribal Historic Preservation Officer (THPO) of the use of this Program Comment for the

relevant communication facilities construction or modification component.

V. Amendment—The ACHP may amend this Program Comment after consulting with FCC, RUS, NTIA and other parties as appropriate, and publishing notice in the **Federal Register** to that effect.

VI. Sunset Clause—This Program Comment will terminate on September 30, 2015, unless it is amended to extend the period in which it is in effect.

VII. Termination—The ACHP may terminate this Program Comment by publication of a notice in the **Federal Register** thirty (30) days before the termination takes effect.

Authority: 36 CFR 800.14(e).

Dated: September 10, 2009.

John M. Fowler,

Executive Director.

[Docket No. USCG-2009-0744]

Certificate of Alternative Compliance for the Offshore Supply Vessel TYLER STEPHEN

AGENCY: Coast Guard, DHS.

ACTION: Notice.

SUMMARY: The Coast Guard announces that a Certificate of Alternative Compliance was issued for the offshore supply vessel *Tyler Stephen* as required by 33 U.S.C. 1605(c) and 33 CFR 81.18.

DATES: The Certificate of Alternative Compliance was issued on July 29, 2009.

ADDRESSES: The docket for this notice is available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet by going to <http://www.regulations.gov>, inserting USCG-2009-0744 in the "Keyword" box, and then clicking "Search."

FOR FURTHER INFORMATION CONTACT: If you have questions on this notice, call CWO2 David Mauldin, District Eight, Prevention Branch, U.S. Coast Guard, telephone 504-671-2153. If you have questions on viewing or submitting material to the docket, call Renee V.

Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION:

Background and Purpose

The offshore supply vessel *Tyler Stephen* will be used for offshore supply operations. Full compliance with 72 COLREGS and the Inland Rules Act will hinder the vessel's ability to maneuver within close proximity of offshore platforms. Due to the design of the vessel, it would be difficult and impractical to build a supporting structure that would put the side lights within 5.4' from the greatest breadth of the Vessel, as required by Annex I, paragraph 3(b) of the 72 COLREGS and Annex I, Section 84.05(b), of the Inland Rules Act. Compliance with the rule would cause the lights on the offshore supply vessel *Tyler Stephen* to be in a location which will be highly susceptible to damage from offshore platforms. The offshore supply vessel *Tyler Stephen* cannot comply fully with lighting requirements as set out in international regulations without interfering with the special function of the vessel (33 U.S.C. 1605(c); 33 CFR 81.18).

Locating the side lights 6'-9⁵/₈" inboard from the greatest breadth of the vessel on the pilot house will provide a shelter location for the lights and allow maneuvering within close proximity to offshore platforms.

In addition, the horizontal distance between the forward and aft masthead lights may be 23'-1¹/₈". Placing the aft masthead light at the horizontal distance from the forward masthead light as required by Annex I, paragraph 3(a) of the 72 COLREGS, and Annex I, Section 84.05(a) of the Inland Rules Act, would result in an aft masthead light location directly over the aft cargo deck, where it would interfere with loading and unloading operations.

The Certificate of Alternative Compliance allows for the placement of the side lights to deviate from requirements set forth in Annex I, paragraph 3(b) of 72 COLREGS, and Annex I, paragraph 84.05(b) of the Inland Rules Act. In addition the Certificate of Alternative Compliance allows for the horizontal separation of the forward and aft masthead lights to deviate from the requirements of Annex I, paragraph 3(a) of 72 COLREGS, and Annex I, Section 84.05(a) of the Inland Rules Act.

This notice is issued under authority of 33 U.S.C. 1605(c), and 33 CFR 81.18.

Dated: August 10, 2009.

J.W. Johnson,

Commander, U.S. Coast Guard, Chief, Inspections and Investigations Branch, By Direction of the Commander, Eighth Coast Guard District.
