The Interim Guidelines inform prospective participants about the qualification criteria and application process, as well as procedures and requirements for project implementation, monitoring and reporting. This notice formally requests public review of and comments on the Interim Guidelines.

DATES: The Interim Guidelines will be effective immediately upon publication of this notice in the **Federal Register**. Eligible organizations may submit applications for qualification and funding for field-based projects following the date of publication. SUPPLEMENTARY INFORMATION:

The Interim Guidelines for the PPP are intended to accomplish the following objectives:

1. Set forth the criteria for eligible organizations to apply to become qualified to submit applications for funding of a field-based project.

2. Inform qualified organizations about the requirements for the submission of applications for funding field-based emergency response projects, development assistance projects, or both.

3. Set forth the implementation guidelines and performance and reporting requirements.

4. Establish minimum quality standards for eligible commodities.

5. Allow for sufficient flexibility for participants to expedite the provision of food assistance to populations affected by food crises and disasters and to facilitate the recovery of market systems that directly affect food consumption.

6. Provide guidance to ensure that local and regional purchases:

- Expedite the provision of food to vulnerable populations;
- Do not increase the price of food for low-income consumers;
- Do not disrupt global agricultural commodity markets;
- Do not disrupt normal patterns of commercial trade; and
- Do not serve as a disincentive that substantially undermines the agricultural production levels of farmers in the recipient country or in a neighboring country in the region.

7. Identify the types of data and information that implementing organizations must collect for the independent evaluation of the PPP.

Dated: August 24, 2009.

FOR FURTHER INFORMATION ON-LINE: <http://web.ita.doc.gov/tacgi/CaftaReqTrack.nsf>, under "Approved Requests," reference number: 128.2009.08.07.Fabric.ST&Rfor Intradeco

SUPPLEMENTARY INFORMATION:

Authority: The CAFTA-DR Agreement; Section 203(o)(4) of the Dominican Republic-Central America-United States Free Trade Agreement Implementation Act ("CAFTA-

DR Implementation Act"), Public Law 109-53; the Statement of Administrative Action (SAA), accompanying the CAFTA-DR Implementation Act; and Presidential Proclamations 7987 (February 28, 2006) and 7996 (March 31, 2006); Modifications to Procedures for Considering Requests Under the Commercial Availability Provision of the Dominican Republic-Central America-United States Free Trade Agreement, 73 FR 53200 (September 15, 2008).

BACKGROUND:

The CAFTA-DR Agreement provides a list in Annex 3.25 for fabrics, yarns, and fibers that the Parties to the CAFTA-DR Agreement have determined are not available in commercial quantities in a timely manner in the territory of any Party. The CAFTA-DR Agreement provides that this list may be modified pursuant to Article 3.25(4)-(5), when the President of the United States determines that a fabric, yarn, or fiber is not available in commercial quantities in a timely manner in the territory of any Party. See Annex 3.25 of the CAFTA-DR Agreement; see also Section 203(o)(4)(C) of the CAFTA-DR Implementation Act.

The CAFTA-DR Implementation Act requires the President to establish procedures governing the submission of a request and providing opportunity for interested entities to submit comments and supporting evidence before a commercial availability determination is made. In Presidential Proclamations 7987 and 7996, the President delegated to CITA the authority under section 203(o)(4) of CAFTA-DR Implementation Act for modifying the Annex 3.25 list. On September 15, 2008, CITA published modified procedures it would follow in considering requests to modify the Annex 3.25 list of products determined to be not commercially available in the territory of any Party to CAFTA-DR (Modifications to Procedures for Considering Requests Under the Commercial Availability Provision of the Dominican Republic-Central America-United States Free Trade Agreement, 73 FR 53200) ("procedures").

On August 7, 2009, the Chairman of CITA received a request for a commercial availability determination ("Request") from Sandler, Travis & Rosenberg, P.A. on behalf of Intradeco Apparel, Inc. ("Intradeco"), for certain cotton/polyester three thread circular knit fleece fabrics. On August 11, 2009, in accordance with CITA's procedures, CITA notified interested parties of the Request, which was posted on the dedicated *website* for CAFTA-DR Commercial Availability proceedings. In its notification, CITA advised that any Response with an Offer to Supply

("Response") must be submitted by August 21, 2009, and any Rebuttal Comments to a Response ("Rebuttal") must be submitted by August 27, 2009. On August 24, 2009, CITA announced that, in accordance with Section 6(a) and 7(a) of its procedures, it found sufficient good cause to extend the deadlines for Responses to August 24, 2009, and deadlines for Rebuttals to August 28, 2009. On August 24, 2009, Hylos y Telas s.a. ("HyT") submitted a Response to the Request. On August 28, 2009, Intradeco submitted a Rebuttal to the Response.

In its Request, Intradeco stated that it had conducted due diligence to source the fabric from CAFTA-DR suppliers, including HyT. Intradeco reported that it had engaged in a dialogue with HyT over the course of several weeks, during which time it requested information about HyT's capacity and asked that HyT confirm its interest in supplying the subject fabric. The requestor asserted that HyT did not provide detailed information about its production capability and capacity to produce the subject fabric. As a result, Intradeco claimed that HyT did not demonstrate that it is able supply the fabric in question in commercial quantities in a timely manner.

In the Response submitted by HyT, the supplier stated that it had been in contact with Intradeco in the course of its due diligence efforts, and had offered to supply the subject fabric. In the Confidential version of its Response, HyT provided information regarding its production capabilities, including quantities of past production of other fabrics, and an inventory of its manufacturing equipment. HyT also stated that it had developed a new fabric in response to Intradeco's inquiries, and had sent a sample to Intradeco on August 8, 2009. With its sample, HyT also sent a lab report reflecting the specifications of the fabric, known as a "specification sheet." HyT asserted that it had provided Intradeco with the same specification sheet it included as an attachment in the Confidential version of its Response. In its Response, HyT stated that, while there were some variations in the specifications of the fabric it had developed and the required specifications of the subject fabric, "such differences (were) not an obstacle to fulfill the requirements of the final product."

Section 203(o)(4)(C) of the CAFTA-DR Implementation Act provides that after receiving a Request, CITA will make a determination as to whether the subject product is available in commercial quantities in a timely manner in the CAFTA-DR countries. In
