

DEPARTMENT OF EDUCATION**Notice Extending the Deadline Date for Transmittal of Applications and the Deadline Date for Intergovernmental Review for the Migrant Education Program (MEP) Consortium Incentive Grants Program for Fiscal Year (FY) 2010**

AGENCY: Office of Elementary and Secondary Education, Department of Education.

ACTION: Notice Extending the Deadline Date for Transmittal of Applications and the Deadline Date for Intergovernmental Review for the Migrant Education Program (MEP) Consortium Incentive Grants Program for Fiscal Year (FY) 2010.

Catalog of Federal Domestic Assistance (CFDA) Number: 84.144F.

SUMMARY: On April 1, 2010, we published in the **Federal Register** (75 FR 16446) a notice inviting applications for new awards for FY 2010 for the MEP Consortium Incentive Grants program. That notice specified a deadline date of May 7, 2010, for the submission of applications. Since publication, however, we have learned that certain State educational agencies need additional time to receive approval from their State legislatures to apply for the grant. Therefore, in order to give applicants adequate time to receive that approval to apply and to submit their application packages, we are changing the deadline for the submission of applications to June 4, 2010. As a result of this extension of the deadline for submissions of applications, we are also extending the deadline for intergovernmental review to August 4, 2010. Applicants must refer to the April 1, 2010 Application Notice for all other requirements concerning this program.

DATES: *Deadline for Transmittal of MEP consortium Incentive Grants Program Applications:* June 4, 2010.

Deadline for Intergovernmental Review: August 4, 2010.

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

The Federal Energy Administration Act of 1974 (15 U.S.C. 761 *et seq.*) and the DOE Organization Act (42 U.S.C. 7101 *et seq.*) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer term domestic demands and to promote sound policymaking, efficient markets, and public understanding of energy and its interaction with the economy and the environment.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, *et seq.*), provides the general public and other Federal agencies with opportunities to comment on collections of energy information conducted by or in conjunction with the EIA. Also, the EIA will later seek approval for this collection by the Office of Management and Budget (OMB) under Section 3507(a) of the Paperwork Reduction Act of 1995.

The weekly petroleum supply surveys (Forms EIA-800, EIA-802, EIA-803, EIA-804, EIA-805 and EIA-809) are designed to highlight information on petroleum refinery operations, inventory levels, and imports of selected petroleum products in a timely manner. The information appears in the publications listed below and is also available electronically through the Internet at <http://www.eia.doe.gov/>.

Publications: Internet only publications are the *Weekly Petroleum Status Report*, *Short-Term Energy Outlook*, and *This Week in Petroleum*.

The monthly petroleum supply surveys (Forms EIA-810, EIA-812, EIA-813, EIA-814, EIA-815, EIA-816, EIA-817, and EIA-819) are designed to provide statistically reliable and comprehensive information not available from other sources to EIA, other Federal agencies, and the private sector for use in forecasting, policy making, planning, and analysis activities. The information appears in the publications listed below and is also available electronically through the Internet at <http://www.eia.doe.gov/>.

Publications: Internet only publications are the *Petroleum Supply Monthly*, *Petroleum Supply Annual*, and *Short-Term Energy Outlook*. Hardcopy and Internet publications are the *Monthly Energy Review* (DOE/EIA-0035), the *Annual Energy Review* (DOE/EIA-0384), and the *Annual Energy Outlook* (DOE/EIA-0383).

The annual petroleum supply survey (Form EIA-820) provides data on capacities, fuels consumed, natural gas consumed as hydrogen feedstock, crude oil receipts by method of transportation, and storage capacity of operating and idle petroleum refineries (including new refineries under construction), refineries shutdown with useable storage capacity, and refineries shutdown during the previous year. The information appears in the *Refinery Capacity Report* available electronically through the Internet at <http://www.eia.doe.gov/>.

Please refer to the proposed forms and instructions for more information about the purpose, who must report, when to report, where to submit, the elements to be reported, detailed instructions, provisions for confidentiality, and uses (including possible nonstatistical uses) of the information. For instructions on obtaining materials, see the **FOR FURTHER INFORMATION CONTACT** section.

II. Current Actions

The EIA proposes the following changes: For the Form EIA-801 (Weekly Bulk Terminal Report)—Discontinue collection of this report. All bulk terminal and blender reporting will be

reported by site on Form EIA-805 (Weekly Bulk Terminal and Blender Report).

For the Form EIA-805 (Weekly Bulk Terminal and Blender Report)—Collect inventories for natural gas plant liquids and liquefied refinery gases, propane (including propylene), propylene (nonfuel use), fuel ethanol, finished motor gasoline (reformulated blended with fuel ethanol, reformulated other, conventional blended with fuel ethanol (Ed55 and lower, greater than Ed55), and conventional other), motor gasoline blending components (RBOB, CBOB, GTAB and all other), kerosene-type jet fuel, kerosene, distillate fuel oil (15 ppm sulfur and under, greater than 15 ppm to 500 ppm sulfur (incl), greater than 500 ppm sulfur), residual fuel oil and asphalt and road oil. Collect inputs and production for fuel ethanol, jet fuel, distillate fuel oil (15 ppm sulfur and under, greater than 15 ppm to 500 ppm sulfur (incl), greater than 500 ppm sulfur), and residual fuel oil.

For the form EIA-820 (Annual Refinery Report)—Discontinue collection of storage capacity on an annual basis. This information is now being collected semi-annually (March and September) on Form EIA-810, "Monthly Refinery Report."

III. Request for Comments

Prospective respondents and other interested parties should comment on the actions discussed in item II. The following guidelines are provided to assist in the preparation of comments. Please indicate to which form(s) your comments apply.

As a Potential Respondent to the Request for Information

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility?

B. What actions could be taken to help ensure and maximize the quality, objectivity, utility, and integrity of the information to be collected?

C. Are the instructions and definitions clear and sufficient? If not, which instructions need clarification?

D. Can the information be submitted by the respondent by the due date?

E. Public reporting burden for this collection is estimated to average:

Estimated hours per response: EIA-800, "Weekly Refinery and Fractionator Report,"—1.58 hours; EIA-802, "Weekly Product Pipeline Report,"—0.95 hours; EIA-803, "Weekly Crude Oil Stocks Report,"—0.50 hours; EIA-804, "Weekly Imports Report,"—1.75 hours; EIA-805, "Weekly Terminal Blenders Report,"—

2.30 hours; EIA-809, "Weekly Oxygenate Report,"—1.00 hours; EIA-810, "Monthly Refinery Report,"—6.00 hours; EIA-812, "Monthly Product Pipeline Report,"—4.30 hours; EIA-813, "Monthly Crude Oil Report,"—2.50 hours; EIA-814, "Monthly Imports Report,"—2.55 hours; EIA-815, "Monthly Terminal Blenders Report,"—5.00 hours; EIA-816, "Monthly Natural Gas Liquids Report,"—0.95 hours; EIA-817, "Monthly Tanker and Barge Movement Report,"—2.25 hours; EIA-819, "Monthly Oxygenate Report,"—1.75 hours; and EIA-820, "Annual Refinery Report"—2.00 hours. The estimated burden includes the total time necessary to provide the requested information. In your opinion, how accurate is this estimate?

F. The agency estimates that the only cost to a respondent is for the time it will take to complete the collection. Will a respondent incur any start-up costs for reporting, or any recurring annual costs for operation, maintenance, and purchase of services associated with the information collection?

G. What additional actions could be taken to minimize the burden of this collection of information? Such actions may involve the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

H. Does any other Federal, State, or local agency collect similar information? If so, specify the agency, the data element(s), and the methods of collection.

As a Potential User of the Information To Be Collected

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility?

B. What actions could be taken to help ensure and maximize the quality, objectivity, utility, and integrity of the information disseminated?

C. Is the information useful at the levels of detail to be collected?

D. For what purpose(s) would the information be used? Be specific.

E. Are there alternate sources for the information and are they useful? If so, what are their weaknesses and/or strengths?

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the forms. They also will become a matter of public record.
