BILLING CODE P

DEPARTMENT OF VETERANS AFFAIRS

Privacy Act of 1974; Report of Matching Program

AGENCY: Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Department of Veterans Affairs (VA) intends to continue a recurring computer program matching Social Security Administration (SSA) records with VA pension and parents' dependency and indemnity compensation (DIC) records.

The goal of this match is to compare income and employment status as reported to VA with wage records maintained by SSA.

VA plans to match records of veterans, surviving spouses and children who receive pension, and parents who receive DIC, with SSA income tax return information as it relates to earned income. VA will also match records of veterans receiving disability compensation at the 100 percent rate based on unemployability with SSA income tax return information as it relates to earned income.

VA will use this information to adjust VA benefit payments as prescribed by law. The proposed matching program will enable VA to ensure accurate reporting of income and employment status.

The authority for this matching program is 38 U.S.C. 5106, which requires Federal agencies to furnish VA with information necessary to determine eligibility for or amount of benefits. In addition, 26 U.S.C. 6103(l)(7) authorizes the disclosure of tax return information to VA.

Records to be Matched: VA records involved in the match are the VA system of records, "Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records—VA (58VA21/22/28)," published at 74 FR 29275 (June 19, 2009). The SSA records will come from the Earnings Recording and Self-Employment Income System, SSA/OSR, 60-0059. In accordance with title 5, U.S.C., subsection 552a(o)(2) and (r), copies of the agreement are being sent to the appropriate Congressional committees and to the Office of Management and Budget (OMB).

This notice is provided in accordance with the provisions of the Privacy Act of 1974 as amended by Public Law 100-503.

DATES: The match will start no sooner than 30 days after publication of this Notice in the **Federal Register**, or 40 days after copies of this Notice and the agreement of the parties are submitted to Congress and OMB, whichever is later, and end not more than 18 months after the agreement is properly implemented by the parties. The involved agencies' Data Integrity Boards (DIB) may extend this match for 12 months provided the agencies certify to their DIBs within three months of the ending date of the original match that the matching program will be conducted without change and that the matching program has been conducted in compliance with the original matching program.

SUPPLEMENTARY INFORMATION:

I. Description of Proposed System of Records

The Office of the Medical Inspector (OMI) conducts two different types of investigations for the VHA—case investigations and national quality assessments—both of which usually involve the collection of personal identifiable information (PII). National quality assessments result from a specific requirement assigned by the Secretary, the Under Secretary for Health (USH), or the Principal Deputy Under Secretary for Health (PDUSH). The OMI may also identify critical quality of care issues and initiate assessment projects. These assessments may include Web-based surveys, site visits, extraction of source data from VA data systems at the Austin Information and Technology Center, or use of the

many quality and performance metrics available in VHA. These projects are characterized by systematic efforts to employ VHA data and information to inform VHA officials about problems/issues that impact the general quality of VA health care. Case investigations typically focus on the care delivered to one or more Veterans within the same Medical Center or Health Care System and include information obtained from reviews of medical records, interviews with patients and their families, interviews with providers, and site visits. These investigations inevitably require gathering PII either on Veterans and their families, or on VA employees. OMI stores this collected data in a secure document management system.

II. Proposed Routine Use Disclosures of Data in the System

1. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office that is made at the request of that individual.

Veterans Affairs must be able to provide information about individuals to adequately respond to inquiries from Members of Congress at the request of constituents who have sought their assistance.

2. Disclosure may be made to the National Archives and Records Administration (NARA) and the General Services Administration (GSA) for records management activities and inspections conducted under authority of Title 44, Chapter 29, United States Code. National Archives and Records Administration and General Services Administration are responsible for management of old records no longer actively used, but which may be appropriate for preservation, and for the physical maintenance of the Federal government's records. Veterans Affairs must be able to provide the records to National Archives and Records Administration and General Services Administration in order to determine the proper disposition of such records.

3. VA may disclose information from this system of records to the Department of Justice (DoJ), either on VA's initiative or in response to DoJ's request for the information, after either VA or DoJ determines that such information is relevant to DoJ's representation of the United States or any of its components in legal proceedings before a court or adjudicative body, provided that, in each case, the agency also determines prior to disclosure that release of the records to the DoJ is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. VA, on

its own initiative, may disclose records in this system of records in legal proceedings before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of the information contained in the records that is compatible with the purpose for which VA collected the records.

Veterans Affairs must be able to provide information to Department of Justice in litigation where the United States or any of its components is involved or has an interest. A determination would be made in each instance that under the circumstances involved, the purpose is compatible with the purpose for which Veterans Affairs collected the information. This routine use is distinct from the authority to disclose records in response to a court order under subsection (b)(11) of the Privacy Act, 5 United States Code 552(b)(11), or any other provision of subsection (b), in accordance with the court's analysis in *Doe v. DiGenova*, 779 F.2d 74, 78–84 (DC Cir. 1985) and *Doe v. Stephens*, 851 F.2d 1457, 1465–67 (DC Cir. 1988).

4. Any information in this system, except the name and address of a Veteran, may be disclosed to a Federal, State, or local agency maintaining civil or criminal violation records or other pertinent information such as prior employment history, prior Federal employment background investigations, and/or personal or educational background in order for VA to obtain information relevant to the hiring, transfer, or retention of an employee, the letting of a contract, the granting of a security clearance, or the issuance of a grant or other benefit. The name and address of a Veteran may be disclosed to a Federal agency under this routine use if this information has been requested by the Federal agency in order to respond to the VA inquiry.

5. VA may disclose on its own initiative any information in this system, except the names and home addresses of Veterans and their dependents, which is relevant to a suspected or reasonably imminent violation of law, whether civil, criminal, or regulatory in nature and whether arising by general or program statute or by regulation, rule or order issued pursuant thereto, to a Federal, State, local, Tribal, or foreign agency charged with the responsibility of investigating or prosecuting such violation, or charged with enforcing or implementing the statute, regulation, rule or order. On its own initiative, VA may also disclose the names and addresses of Veterans and dependents to a Federal or State agency charged with the responsibility

of investigating or prosecuting civil, criminal, or regulatory violations of law, or charged with enforcing or implementing the statute, regulation, rule, or order issued pursuant thereto.

Veterans Affairs must be able to provide on its own initiative information that pertains to a violation of laws to law enforcement authorities in order for them to investigate and enforce those laws. Under 38 United States Code 5701(a) and (f), Veterans Affairs may only disclose the names and addresses of veterans and their dependents to Federal entities with law enforcement responsibilities. This is distinct from the authority to disclose records in response to a qualifying request from a law enforcement entity, as authorized by Privacy Act subsection 5 United States Code 552a(b)(7).

6. To assist attorneys in representing their clients, any information in this system may be disclosed to attorneys representing subjects of investigations, including Veterans, Federal government employees, retirees, volunteers, contractors, subcontractors, or private citizens.

7. Disclosure of information to Federal Labor Relations Authority (FLRA), including its General Counsel, when requested in connection with the investigation and resolution of allegations of unfair labor practices, in connection with the resolution of exceptions to arbitrator awards when a question of material fact is raised, in connection with matters before the Federal Service Impasses Panel, and to investigate representation petitions and conduct or supervise representation elections. VA must be able to provide information to FLRA to comply with the statutory mandate under which it operates.

8. Information may be disclosed to the Equal Employment Opportunity Commission when requested in connection with investigations of alleged or possible discriminatory practices, examination of Federal affirmative employment programs, compliance with the Uniform Guidelines of Employee Selection Procedures, or other functions vested in the Commission by the President's Reorganization Plan No. 1 of 1978. VA must be able to provide information to EEOC to assist it in fulfilling its duties to protect employees' rights, as required by statute regulation.

9. Information may be disclosed to officials of the Merit Systems Protection Board, and the Office of Special Counsel, when properly requested in connection with appeals, special studies of the civil service and other merit systems, reviews of rules and

regulations, investigation of alleged or possible prohibited personnel practices, and such other functions, promulgated in Title 5, United States Code, Sections 1205 and 1206, or as may be authorized by law. VA must be able to provide information to MSPB to assist it in fulfilling its duties as required by statute and regulation.

10. Any information in this system of records may be disclosed, in the course of presenting evidence in or to a court, magistrate, administrative tribunal, or grand jury, including disclosures to opposing counsel in the course of such proceedings or in settlement negotiations.

11. Any information in this system, except the name and address of a Veteran, may be disclosed to Federal, State, or local professional, regulatory, or disciplinary organizations or associations, including but not limited to bar associations, State licensing boards, and similar professional entities, for use in disciplinary proceedings and inquiries preparatory thereto, where VA determines that there is good cause to question the legality or ethical propriety of the conduct of a person employed by VA or a person representing a person in a matter before VA.

The name and address of a Veteran may be disclosed to a Federal agency under this routine use if this information has been requested by the Federal agency in order to respond to the VA inquiry.

12. VA may disclose information to individuals, organizations, private or public agencies, or other entities with which VA has a contract or agreement or where there is a subcontract to perform such services as VA may deem practicable for the purposes of laws administered by VA, in order for the contractor or subcontractor to perform the services of the contract or agreement. This routine use, which also applies to agreements that do not qualify as contracts defined by Federal procurement laws and regulations, is consistent with Office of Management and Budget guidance in Office of Management and Budget Circular A-130, App. I, paragraph 5a(1)(b) that agencies promulgate routine uses to address disclosure of Privacy Act-protected information to contractors in order to perform the services contracts for the agency.

13. Disclosure to other Federal agencies may be made to assist such agencies in preventing and detecting possible fraud or abuse by individuals in their operations and programs.

This routine use permits disclosures by the Department to report a suspected incident of identity theft and provide

information and/or documentation related to or in support of the reported incident.

14. Disclosure of any information within this system may be made when it is suspected or confirmed that the security or confidentiality of information in the system of records has been compromised and VA has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interest, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by VA or another agency or entity) that rely upon the compromised information; and the disclosure is made to such agencies, entities, and persons who are reasonably necessary to assist in connection with VA's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.

This routine use permits disclosures by the Department to respond to a suspected or confirmed data breach, including the conduct of any risk analysis or provision of credit protection services as provided in 38 United States Code 5724, as the terms are defined in 38 United States Code 5727.

III. Compatibility of the Proposed Routine Uses

The notice of intent to publish an advance copy of the system notice have been sent to the appropriate Congressional committees and to the Director of the Office of Management and Budget (OMB) as required by 5 U.S.C. 552a(r) (Privacy Act) and guidelines issued by OMB (65 FR 77677), December 12, 2000.

Approved: April 15, 2010.

Chief of Staff, Department of Veterans Affairs.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on paper and on electronic storage media, including magnetic tape, disk, encrypted flash memory, and laser optical media.

RETRIEVABILITY:

Records are retrieved by name, Social Security Number, or other assigned identifiers of the individuals on whom they are maintained.

SAFEGUARDS:

1. Access to and use of national patient databases are limited to those persons whose official duties require such access, and VA has established security procedures to ensure that access is appropriately limited. Information security officers and system data stewards review and authorize data access requests. VA regulates data access with security software that authenticates users and requires individually unique codes and passwords. VA provides information security training to all staff and instructs staff on the responsibility each person has for safeguarding data confidentiality.

2. VA maintains Business Associate Agreements (BAA) and Non-Disclosure Agreements with contracted resources in order to maintain confidentiality of the information.

3. Physical access to computer rooms housing national patient databases is restricted to authorized staff and protected by a variety of security devices. Unauthorized employees, contractors, and other staff are not allowed in computer rooms. The Federal Protective Service or other security personnel provide physical

security for the buildings housing computer rooms and data centers.

4. All materials containing real or scrambled Social Security Numbers are kept only on secure, encrypted VHA servers, personal computers, laptops, or media. All e-mail transmissions of such files use Public Key Infrastructure (PKI) encryption. If a recipient does not have PKI, items are mailed or sent to a secure fax. Paper records containing Social Security Numbers are secured in locked cabinets or offices within the OMI area. Access to OMI requires passing a security officer, an elevator card reader for floor access and a separate VHA card reader for access to the office area. All materials, both paper and electronic, that are no longer required are shredded/obliterated in accordance with VHA guidelines. Materials required for case documentation and follow up are archived in our secure document management server (electronic) and in locked storage (paper).

5. In most cases, copies of back-up computer files are maintained at off-site locations.

RETENTION AND DISPOSAL:

The records are disposed of in accordance with Section XXXV—Office of the Medical Inspector (10MI) of the Veterans Health Administration Records Control Schedule 10–1 of March 31, 2008, which stipulates that records from investigations not involving site visits will be destroyed 10 years after closure; records from investigations involving site visits will be destroyed 20 years after closure.
