SUPPLEMENTARY INFORMATION: President Obama has expressly committed to the expansion of advanced technology across the United States as a necessary part of the foundation for long-term economic stability and prosperity.¹ The increased availability and use of broadband technology is an integral part of the President's technology agenda. The National Telecommunications and Information Administration is the President's principal adviser on domestic and international telecommunications policies pertaining to the Nation's economic and technological advancement. In order to achieve the technology and broadband goals of the Administration, NTIA is working with the Federal Communications Commission (FCC), the Department of Agriculture's Rural Utilities Service (RUS), and other stakeholders to develop and implement economic and regulatory policies that foster broadband deployment and adoption. Current and detailed data by U.S. households' and persons' usage of and access to broadband is critical to allow policymakers not only to gauge progress made to date, but to identify problem areas.

Eight times since the early 1990s, the U.S. Commerce Department's Census Bureau has collected data based on questions that NTIA sponsored and developed (often in collaboration with the Department's Economics and Statistics Administration) to provide up-to-date information on the extent of the Nation's Internet adoption and the major reasons why current non-users choose not to adopt. Data have been generated by several demographic and geographic categories and must be weighted and appropriately aggregated before release. These various data, to the extent allowed under federal disclosure laws, are made publicly available for use by the research community to conduct economic, financial, demographic, and other studies. The purpose of the public meeting is to provide an opportunity for the research community to propose, with rationale, the type of Internet usage data that could be usefully collected through

¹ See Guiding Principles, "Innovation in the Economy: Drive Economic Growth and Solve National Problems by Deploying a 21st Century Information Infrastructure," <http://www.whitehouse.gov/issues/technology>.

scientific-based surveys conducted by the Census Bureau (e.g., the Current Population Survey Internet Use Supplement).

NTIA is authorized to conduct studies and evaluations concerning telecommunications research and development and for more than 15 years has collected and analyzed nationwide Internet data, including since 2000 usage of high-speed connectivity. These activities have provided essential data for prudent policymaking in this area, including providing the data to the research community whose work provides invaluable inputs for sound policies. NTIA currently collects broadband related data from several sources, as demonstrated in the agency's October 30, 2009, Broadband Data Transparency Public Workshop.²

Matters to be Considered:

The meeting will include a discussion of the following topics, including specific areas of inquiry:

1. Internet access at home and outside the home.
2. Internet use at home and outside the home.
3. Computer access at home and outside the home.
4. Computer use at home and outside the home.
5. Key demographic variables.
6. Key geographic variables.
7. Non-adoption issues: Internet.
8. Non-adoption issues: Computers.

The meeting will also seek input on:

A. The timing ("periodicity") of future data collections.

B. The data format preferred by researchers including those for distributing broadband-related data on the Web to promote maximum transparency for researchers and the interested public.

C. An updated version of the October 2003 Current Population Survey Computer and Internet Use Supplement survey instrument (pp. 8 through 23), <http://www.bls.census.gov/cps/computer/2003/quest2003.pdf>.

Specific information regarding the status of and data from specific applications for the Broadband Technology Opportunities Program (BTOP) and the State Broadband Data and Development Grant Program (State Broadband Data Program) will not be discussed at the meeting.

Time and Date: The meeting will be held on June 3, 2010, from 1 p.m. to 3 p.m. Eastern Daylight Time. The times and the agenda topics are subject to change. The meeting may be webcast. Please refer to NTIA's web site, <http://www.ntia.doc.gov>

Certain Cut-to-Length Carbon Steel Plate from the People's Republic of China: Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* May 26, 2010.

FOR FURTHER INFORMATION CONTACT: Rebecca Pandolph or Howard Smith,

AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, DC 20230, telephone: (202) 482-3627 or (202) 482-5193, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 21, 2003, the Department of Commerce ("Department") published in the **Federal Register** the antidumping duty order on certain cut-to-length carbon steel plate ("CTL Plate") from the People's Republic of China ("PRC"). See *Suspension Agreement on Certain Cut-to-Length Carbon Steel Plate From the People's Republic of China; Termination of Suspension Agreement and Notice of Antidumping Duty Order*, 68 FR 60081 (October 21, 2003). On November 2, 2009, the Department published a notice of opportunity to request an administrative review of the antidumping duty order on CTL Plate from the PRC for the period of review ("POR") November 1, 2008 through October 31, 2009. See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 74 FR 56573 (November 2, 2009).

On November 30, 2009, the Department received a timely request from Nucor Corporation, a domestic producer of CTL plate, to conduct an administrative review of Hunan Valin Xiangtan Iron & Steel Co., Ltd ("Hunan Valin"). No other party requested an administrative review. On December 23, 2009, in accordance with section 751(a) of Tariff Act of 1930, as amended (the "Act"), the Department published in the **Federal Register** a notice of the initiation of an antidumping duty administrative review of Hunan Valin. See *Initiation of Antidumping and*

Countervailing Duty Administrative Reviews and Request for Revocation in Part, 74 FR 68229 (December 23, 2009).

On December 23, 2009, Hunan Valin submitted a letter certifying that it did not have any exports or sales of subject merchandise during the POR. The Department conducted an internal U.S. Customs and Border Protection ("CBP") data query and found no evidence that Hunan Valin had any shipments of subject merchandise during the POR. In addition, on January 13, 2010, the Department made a "No Shipments Inquiry" to CBP to confirm that there were no exports of subject merchandise by Hunan Valin during the POR. The Department asked CBP to notify the Department within ten days if CBP "has contrary information and is suspending liquidation" of subject merchandise exported by Hunan Valin. See Memorandum to All Interested Parties regarding, "Antidumping Duty Administrative Review of Certain Cut-to-Length Steel Plate from the People's Republic of China (PRC): Hunan Valin Xiangtan Iron & Steel Co., Ltd.'s No Shipment Claim," dated March 16, 2010 ("Intent to Rescind Memorandum"). CBP did not reply with contrary information. The Department provided interested parties in this review until March 23, 2010, to submit comments on the Intent to Rescind Memorandum. The Department did not receive comments from any interested party on the Department's intent to rescind.

Rescission of Review

Pursuant to 19 CFR 351.213(d)(3), the Department may rescind an administrative review with respect to a particular exporter or producer if the Department concludes that during the POR there were no entries, exports, or sales of the subject merchandise by that exporter or producer. As noted above,
