panel, of which 42,032 households were interviewed. We estimate that each household contains 2.1 people, yielding 88,267 person-level interviews in Wave 1 and subsequent waves. Interviews take 30 minutes on average. Three waves will occur in the 2008 SIPP Panel during FY 2010. The total annual burden for 2008 Panel SIPP interviews would be 132,400 hours in FY 2010.

The topical modules for the 2008 Panel Wave 7 collect information about:

- Assets, Liabilities, and Eligibility;
- Medical Expenses and Utilization of Health Care;
- Work-Related Expenses and Child Support Paid.

Wave 7 interviews will be conducted from September 1, 2010 through December 31, 2010.

A 10-minute reinterview of 3,100 people is conducted at each wave to ensure accuracy of responses. Reinterviews require an additional 1,553 burden hours in FY 2010.

II. Method of Collection

The SIPP is designed as a continuing series of national panels of interviewed households that are introduced every few years with each panel having durations of 1 to 4 years. All household members 15 years old or over are interviewed using regular proxy-respondent rules. During the 2008 panel, respondents are interviewed a total of 13 times (13 waves) at 4-month intervals making the SIPP a longitudinal survey. Sample people (all household members present at the time of the first interview) who move within the country and reasonably close to a SIPP primary sampling unit will be followed and interviewed at their new address. Individuals 15 years old or over who enter the household after Wave 1 will be interviewed; however, if these individuals move, they are not followed unless they happen to move along with a Wave 1 sample individual.

Floor-Standing, Metal-Top Ironing Tables and Certain Parts Thereof From the People's Republic of China: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On September 8, 2009, the U.S. Department of Commerce (the Department) published the preliminary results of the August 1, 2007 through July 31, 2008 administrative review of the antidumping duty order on floor-standing, metal-top ironing tables from the People's Republic of China (PRC). *See Floor-Standing, Metal-Top Ironing Tables and Certain Parts Thereof From the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review*, 74 FR 46083 (September 8, 2008) (*Preliminary Results*). This review covers, Foshan Shunde Yongjian Housewares & Hardwares Co., Ltd. (Foshan Shunde), which we have determined to be part of the PRC-wide entity. We invited interested parties to comment on the *Preliminary Results.*

Based on our analysis of the comments received, we have made no changes to the findings presented in our *Preliminary Results.* The weighted average dumping margin is listed below in the section entitled "Final Results of Review."

DATES: *Effective Date:* January 20, 2010.

FOR FURTHER INFORMATION CONTACT: Michael J. Heaney or Robert James, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482–4475 or (202) 482–0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

We published in the **Federal Register** the preliminary results of this administrative review on September 8, 2009. *See Preliminary Results.*

Following the *Preliminary Results*, on October 8, 2009, the Department received case briefs from Foshan Shunde and from Polder, Inc., an importer of the subject merchandise. On October 13, 2009, Home Products International, Inc., the Petitioner in this proceeding, submitted a rebuttal brief.

Scope of the Order

For purposes of the order, the product covered consists of floor-standing, metal-top ironing tables, assembled or unassembled, complete or incomplete, and certain parts thereof. The subject tables are designed and used principally for the hand ironing or pressing of garments or other articles of fabric. The subject tables have full-height leg assemblies that support the ironing surface at an appropriate (often adjustable) height above the floor. The subject tables are produced in a variety of leg finishes, such as painted, plated, or matte, and they are available with various features, including iron rests, linen racks, and others. The subject ironing tables may be sold with or without a pad and/or cover. All types and configurations of floor-standing, metal-top ironing tables are covered by this review.

Furthermore, the order specifically covers imports of ironing tables, assembled or unassembled, complete or incomplete, and certain parts thereof. For purposes of the order, the term "unassembled" ironing table means a product requiring the attachment of the leg assembly to the top or the attachment of an included feature such

as an iron rest or linen rack. The term "complete" ironing table means product sold as a ready-to-use ensemble consisting of the metal-top table and a pad and cover, with or without additional features, *e.g.*, iron rest or linen rack. The term "incomplete" ironing table means product shipped or sold as a "bare board"—*i.e.*, a metal-top table only, without the pad and cover—with or without additional features, *e.g.* iron rest or linen rack. The major parts or components of ironing tables that are intended to be covered by the order under the term "certain parts thereof" consist of the metal top component (with or without assembled supports and slides) and/or the leg components, whether or not attached together as a leg assembly. The order covers separately shipped metal top components and leg components, without regard to whether the respective quantities would yield an exact quantity of assembled ironing tables.

Ironing tables without legs (such as models that mount on walls or over doors) are not floor-standing and are specifically excluded. Additionally, tabletop or countertop models with short legs that do not exceed 12 inches in length (and which may or may not collapse or retract) are specifically excluded.

The subject ironing tables were previously classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 9403.20.0010. Effective July 1, 2003, the subject ironing tables are classified under new HTSUS subheading 9403.20.0011. The subject metal top and leg components are classified under HTSUS subheading 9403.90.8040. Although the HTSUS subheadings are provided for convenience and for Customs and Border Protection (CBP) purposes, the Department's written description of the scope remains dispositive.

Separate Rates

Foshan Shunde requested a separate, company-specific antidumping duty rate. In the *Preliminary Results*, we found that Foshan Shunde provided inaccurate and unreliable data, and as such, the Department was unable to determine Foshan Shunde's eligibility for separate rate status. Thus, the Department determined Foshan Shunde is properly considered to be part of the PRC-wide entity. *See Preliminary Results* at 46085; *see also Carbazole Violet Pigment 23 from the People's Republic of China: Final Results of Antidumping Duty Administrative Review*, 74 FR 883 (January 9, 2009) (where the Department revoked a respondent's separate rate status after the respondent refused to cooperate with the Department's administrative review). We have not received any information since the *Preliminary Results* with respect to Foshan Shunde that would warrant changing our separate-rate determination. Therefore, in these *Final Results*, we have continued to treat Foshan Shunde as part of the PRC-wide entity because Foshan Shunde's responses contain widespread and pervasive discrepancies, for which the Department is unable to parse any reliable data.

Analysis of Comments Received

All issues raised in the case briefs by the parties and to which we have responded are fully addressed in the Memorandum to Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, from John M. Andersen, Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations entitled "Issues and Decision Memorandum for the Final Results in the Administrative Review of Floor-Standing, Metal-Top Ironing Tables and Certain Parts Thereof from the People's Republic of China", (January 6, 2010) (Issues and Decision Memorandum), which is hereby adopted by this notice. A list of the issues raised, all of which are in the Issues and Decision Memorandum, is attached to this notice as Appendix I. Parties can find a complete discussion of all issues raised in the briefs and the corresponding recommendations in this public memorandum, which is on file in the Central Records Unit (CRU), room 1117 of the Department of Commerce. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the Web at *http://trade.gov/ia*. The paper copy and electronic version of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on the comments received from interested parties, we have made no changes to the analysis employed in the Preliminary Results.

Final Results of Review

We determine that the following antidumping duty margins exist in these final results:

Exporter	Margin (percent)
PRC-wide Entity (which includes Foshan Shunde)	157.68

Assessment Rates

Pursuant to section 751(a)(2)(A) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.212(b), the Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review. We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of these final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) For Foshan Shunde the cash deposit rate will be 157.68 percent; (2) for previously-investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 157.68 percent; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporters that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Interested Parties

This notice also serves as the final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and in the subsequent assessment of double antidumping duties.

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction or conversion to judicial protective order of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3).

Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and this notice are published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: January 6, 2010.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.
