

spectators, a number of infrastructure projects and improvements are necessary. Beaver Creek and Vail Mountain hosted the 1989 and 1999 World Alpine Ski Championships, and Beaver Creek has maintained continued involvement in the World Cup race circuit. Currently, the only men's World Cup race venue used annually in the United States is located at Beaver Creek. Hosting the 2015 International Skiing Federation (FIS) World Alpine Ski Championships is a unique opportunity to increase the awareness and participation in the sports of skiing and snowboarding; however, the FIS requires separate venues for men's and women's Alpine events, which Beaver Creek currently does not offer.

The project's Purpose and Need falls into four general categories: Trails (Terrain and Snowmaking), Racecourse Finish Area, Red Tail Camp Restaurant, and Infrastructure.

Proposed Action: All proposed projects are within Beaver Creek's existing special use permit (SUP) boundary, which is administered by the White National Forest. The proposed action includes:

- A new women's downhill course that would be served by the Birds of Prey Express chairlift. The women's downhill course would require vegetation removal and grading, as well as replacement/installation of snowmaking infrastructure.
- A new women's giant slalom course on Grouse Mountain. The women's giant slalom course would require trail widening and upgrading existing snowmaking infrastructure.
- Trail widening and re-grading along the existing men's Birds of Prey downhill course.
- A new access trail between the Centennial and Goshawk trails that would enable event spectators to reach the middle portion of the men's and women's downhill courses. An existing utility corridor is also proposed to be widened near the Dally catwalk to improve skier/rider circulation.
- Approximately 10.5 acres of re-grading in the Red Tail Camp area (the finish area for the existing men's downhill course as well as the proposed women's downhill and giant slalom courses). This includes realigning and culverting a segment of Westfall Creek, relocating existing utility lines, and expanding the existing TV compound to accommodate current and future media needs.
- Relocating and expanding the existing Red Tail Camp facility, and increasing

indoor/outdoor seating. This is within the 10.5 acres of area proposed to be re-graded.

- Installing a 24x36' storage facility west of the top terminal of the Birds of Prey Express chairlift.
- Constructing a new 150,000-gallon water tank and pump station on the edge of the Paint Brush trail.
- Installing/upgrading water and sewer lines in the Red Tail Camp vicinity.

Responsible Official: The responsible official is Scott Fitzwilliams, Forest Supervisor for the White River National Forest.

Nature of Decision to be Made: Based on the analysis that will be documented in the forthcoming EIS, the responsible official will decide whether or not to implement, in whole or in part, the proposed action or another alternative that may be developed by the Forest Service as a result of scoping.

Scoping Process: This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. The Forest Service is soliciting comments from Federal, State and local agencies and other individuals or organizations that may be interested in or affected by implementation of the proposed projects. Public questions and comments regarding this proposal are an integral part of this environmental analysis process. Input provided by interested and/or affected individuals, organizations and governmental agencies will be used to identify resource issues that will be analyzed in the Draft EIS. The Forest Service will identify significant issues raised during the scoping process, and use them to formulate alternatives, prescribe mitigation measures and project design features, or analyze environmental effects.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

Dated: December 6, 2010.

Certain Hot-Rolled Flat-Rolled Carbon-Quality Steel Products From Brazil: Extension of Time Limit for Final Results of Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce

DATES: *Effective Date:* December 14, 2010.

FOR FURTHER INFORMATION CONTACT: Myrna Lobo or Justin Neuman, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482-2371 or (202) 482-0486, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 20, 2010, the Department of Commerce (the Department) published the preliminary results of the administrative review of the countervailing duty order on certain hot-rolled flat-rolled carbon-quality steel products from Brazil for the period January 1, 2008, through December 31, 2008. *See Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products From Brazil: Preliminary Results of Countervailing Duty Administrative Review*, 75 FR 64700 (October 20, 2010). This review covers Usinas Siderurgicas de Minas Gerais S.A. (USIMINAS) and its subsidiary, Companhia Siderurgica Paulista (COSIPA), producers/exporters of the subject merchandise to the United States.

Extension of Time Limit for Final Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(h)(1), the Department shall issue final results in an administrative review of a countervailing duty order within 120 days after the date on which notice of the preliminary results was published in the **Federal Register**. However, if the Department determines that it is not practicable to complete the review within the time limit, section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2) allow the Department to extend the 120-day period up to 180 days.

The final results of this countervailing duty administrative review are currently

due February 17, 2011. Pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2), we determine that it is not practicable to complete the results of this review within the original time limit. The Department had to request additional information from USIMINAS/COSIPA and the Government of Brazil after the preliminary results. Consequently, the Department needs additional time to analyze this information and to consider comments filed by the parties. In accordance with section 751(a)(3)(A) of the Act, the Department has decided to extend the time limit for the final results from 120 days to 180 days; the final results will now be due no later than April 18, 2011.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: December 7, 2010.
