Eagle Crest Energy Company; Notice of Availability of the Draft Environmental Impact Statement for the Eagle Mountain Pumped Storage Hydroelectric Project and Notice of Public Meetings

December 23, 2010.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations contained in the Code of Federal Regulations (CFR) (18 CFR part 380 [FERC Order No. 486, 52 FR 47897]), the Office of Energy Projects has reviewed the application for license for the Eagle Mountain Pumped Storage Hydroelectric Project (FERC No. 13123), located on the site of the inactive Eagle Mountain mine in Riverside County, California, near the town of Desert Center and prepared a draft environmental impact statement (EIS) for the project. The project would occupy 1,059.26 acres of federal lands administered by the U.S. Bureau of Land Management and 1,162 acres of private land owned by Kaiser Eagle Mountain, LLC.

The draft EIS contains staff's analysis of the applicant's proposal and the alternatives for a licensee for the Eagle Mountain Project. The draft EIS documents the views of governmental agencies, non-governmental organizations, affected Indian tribes, the public, the license applicant, and Commission staff.

A copy of the draft EIS is available for review at the Commission or may be viewed on the Commission's website at *http://www.ferc.gov*, using the "e-Library" link.
