SUPPLEMENTARY INFORMATION:**I. Background**

Section 484 of the HEOA, Public Law 110-315, requires the Secretary to convene a group to make recommendations to improve financial aid offer forms. The group must include students, families of students, secondary school guidance counselors, representatives of institutions of higher education (including financial aid administrators, registrars, and business officers), and nonprofit consumer groups.

The group's meeting will be held on September 13, 2011, from 9:00 a.m. to 4:00 p.m. at the U.S. Department of Education, 1990 K Street, NW., Eighth Floor Conference Center, Washington, DC 20006. We will conduct an overview and a panel discussion on financial aid award offer letters and related issues during the morning session. We will randomly separate attendees into small groups for the afternoon session. All attendees will be invited to participate in a small group discussion. Each small group will be given a set of questions to

discuss. Results from the small group meetings will be reported to participants to conclude the public meeting.

We encourage persons interested in attending and participating in the meeting to register by 5:00 p.m. on September 7, 2011. Register by sending an e-mail to ModelAidOffer@ed.gov. The e-mail should include the name, address, telephone, and e-mail contact information for the individual, as well as the constituency or interest group that the individual represents. We will accept walk-in registrations to the extent space permits.

II. HEOA Requirements for Model Financial Aid Offer Form

The HEOA requires that the recommendations for improving the model financial aid offer form present the following material in a consumer-friendly manner that is simple and understandable:

(1) Information on the student's cost of attendance, including tuition and fees, room and board costs, books and supplies, and transportation.

(2) The amount of financial aid that the student does not have to repay, such as scholarships, grants, and work-study assistance, offered to the student for such year, and the conditions of such financial aid.

(3) The types and amounts of loans under part B, D, or E of title IV of the Higher Education Act of 1965, as amended, for which the student is eligible for such year, and the applicable terms and conditions of such loans.

(4) The net amount that the student, or the student's family on behalf of the student, will have to pay for the student to attend the institution for such year, equal to—

(A) The cost of attendance for the student for such year; Minus.

(B) The amount of financial aid described in paragraphs (2) and (3) that is offered in the financial aid offer form.

(5) Where a student or the student's family can seek additional information regarding the financial aid offered.

(6) Any other information the Secretary of Education determines necessary so that students and parents can make informed student loan borrowing decisions.

III. Proposed Issues for Discussion

We propose that answers to the following questions be used to develop recommendations for improving the model financial aid offer form:

(1) What is the most important change to improve financial aid offer letters?

(2) How can we make clear the bottom line cost that the student must pay?

(3) How can we ensure that the student understands what is included in the cost of attendance?

(4) How can we help the student clearly identify "free" (grant and scholarship) money?

(5) Would it be useful to offer additional details on an accompanying information sheet to maintain a comprehensible format?

IV. Model Financial Aid Format Required

After a review of the public comments and using the group's recommendations, the Secretary must develop a model format for financial aid offer forms. In addition, the Secretary must submit recommendations resulting from the review of the public comments and from the public meeting to the Congressional authorizing committees. Finally, the Secretary is required to make the recommendations and the model financial aid offer format widely available. We will publish these items on the Internet at the Department's Model Financial Aid Offer page.

V. Comments

We are holding this public meeting for interested parties to discuss and offer recommendations for improvements to financial aid offer forms. In addition, interested parties may offer comments based on personal knowledge or experience working with financial aid offer forms, as well as comments based on the information on the Model Financial Aid Offer Web page.

The deadline for submitting comments related to this public meeting is August 19, 2011.

SUPPLEMENTARY INFORMATION: Pursuant to 35 U.S.C. 209(c), DOE is authorized to grant exclusive or partially exclusive licenses in inventions managed by DOE on behalf of the United States where it determines that, among other things, the desired practical application of the invention has not been achieved, or is not likely to be expeditiously achieved, under a nonexclusive license. The statute and implementing regulations (37 CFR part 404) require that this determination be made after public notice and opportunity for filing written objections.

Envired Systems, a new small business, has applied for a partially exclusive license to practice the inventions and has a plan for commercialization of the invention. DOE intends to grant the license, upon a final determination in accordance with 35 U.S.C. 209(c), unless within 15 days of publication of this notice the NETL Technology Transfer Manager (contact information listed above), receives in writing any of the following, with supporting documentation:

(i) A statement from any person setting forth reasons why it would not be in the best interest of the United States to grant the proposed license; or

The proposed license will be partially exclusive, subject to a license and other rights retained by the United States, and subject to a negotiated royalty. The exclusive fields of use are: Indoor air and human occupied space, including all heating, ventilation and air-conditioning applications; and indoor air quality applications, including all air quality and air treatment in buildings, houses, shelters, vehicles, vessels, aircraft, storage, refrigeration facilities, greenhouses, and the like. DOE will review all timely written responses to this notice, and will grant the license if, after expiration of the 15-day notice period and consideration of any written responses to this notice, it determines in accordance with 35 U.S.C. 209(c) that the license is in the public interest.

This notice is issued in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i).

Dated: July 22, 2011.
