

(1) Explain your views as clearly as possible and provide specific examples.

(2) Describe any assumptions that you used.

(3) Provide copies of any technical information and/or data you used that support your views.

(4) If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

(5) Offer alternative ways to improve the collection activity.

(6) Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number of EPA-HQ-OW-2008-0150 in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What information collection activity or ICR does this apply to?

Affected Entities: Entities potentially affected by this action are state, local, and Tribal governments.

Title: Establishing No-Discharge Zones Under Clean Water Act Section 312 (Renewal).

ICR Numbers: EPA ICR No. 1791.06, OMB Control No. 2040-0187.

ICR Status: This ICR is scheduled to expire on December 31, 2011. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: (A) *Sewage No-discharge Zones:* The need for EPA to obtain information for the establishment of no-discharge zones (NDZs) for vessel sewage in state waters stems from CWA sections 312(f)(3), (f)(4)(A), and (f)(4)(B), and subsequent regulations at 40 CFR 140.4(a-c). No-discharge zones are established to provide state and local governments with additional protection of waters from treated or untreated vessel sewage. This ICR discusses the information requirements associated with the establishment of NDZs for vessel sewage. The information collection activities discussed in this ICR do not require the submission of any confidential information.

(B) *UNDS No-discharge Zones:* Under section 312(n) of the Clean Water Act ("Uniform National Discharge Standards

for Vessels of the Armed Forces" or "UNDS") no-discharge zones ("NDZs") for discharges from Armed Forces vessels may be established by either state prohibition or EPA prohibition following the procedures in 40 CFR part 1700. UNDS also provides that the Governor of any state may petition EPA and the Secretary of Defense to review any determination or standard promulgated under the UNDS program if there is significant new information that could reasonably result in a change to the determination or standard. This ICR discusses the information that will be required from a state if it decides to establish a NDZ by state prohibition or apply for a NDZ by EPA prohibition, and the information that will be required from a state if it decides to submit a petition for review. The responses to this collection of information are required to obtain the benefit of an UNDS NDZ or a review of an UNDS determination or standard (see 33 U.S.C. 1322(n)). The information collection activities discussed in this ICR do not require the submission of any confidential information.

Burden Statement

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

- *Estimated total number of potential respondents:* 16.
- *Frequency of response:* Annual.
- *Estimated total average number of responses for each respondent:* 1.
- *Estimated total annual burden hours:* 2,207.5 hours.
- *Estimated total annual costs:* \$103,459.

This includes an estimated burden cost of \$101,159 and an estimated cost of \$2,300 for capital investment or maintenance and operational costs. The estimate includes time for gathering information, and preparing and submitting requests. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Are there changes in the estimates from the last approval?

Estimates have been updated with current state and Federal labor costs.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Weekly receipt of Environmental Impact Statements

Filed 07/18/2011 Through 07/22/2011 Pursuant to 40 CFR 1506.9.

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public.

Historically, EPA met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has included its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.
