OMB Number: 0518–0027.

Expiration Date of Approval: August 31, 2012.

Type of Request: To extend a currently approved information collection.

Abstract: In its role as both a preeminent agricultural research library and a National Library of the United States, NAL (part of the Department of Agriculture, Agricultural Research Service) provides loans and photocopies of materials from its collections to libraries and other institutions and organizations. NAL follows applicable copyright laws and interlibrary loan guidelines, standards, codes, and practices when providing loans and photocopies and charges a fee, if applicable, for this service. To request a loan or photocopy, institutions must provide a written request to NAL using either NAL’s Web-based online request system or an interlibrary loan request system such as the Online Computer Library Center (OCLC) or the National

Library of Medicine's Docline. Information provided in these requests include the name, address, and telephone number of the party requesting the material, and depending on the method of delivery of the material to the party, may include either a fax number, email address, or Ariel IP address. The requestor must also provide a statement acknowledging copyright compliance, bibliographic information for the material they are requesting, and the maximum dollar amount they are willing to pay for the material. The collected information is used to deliver the material to the requesting party, bill for and track payment of applicable fees, monitor the return to NAL of loaned material, identify and locate the requested material in NAL collections, and determine whether the requesting party consents to the fees charged by NAL.

Estimate of Burden: Average 1.00 minute per response.

Description of Respondents: Respondents to the collection of information are those libraries, institutions, or organizations that request interlibrary loans or copies of material in the NAL collections. Each respondent must furnish the information for each loan or copying request.

Natural Resources Conservation Service

Withdrawal of Notice of Intent To Prepare an Environmental Impact Statement for the Upper Deckers Creek Watershed, Preston County, WV

AGENCY: Natural Resources Conservation Service.

ACTION: Withdrawal of Notice of Intent to prepare an EIS.

SUMMARY: In the Monday, November 21, 2011, **Federal Register**, Vol. 76, No. 224, the Natural Resources Conservation Service (NRCS) announced its intention to prepare an Environmental Impact Statement (EIS) for the rehabilitation of the Upper Deckers Creek Site 1, in Preston County, West Virginia. Preparation of an EIS is no longer planned at this time.

The purpose of the project is to bring the dam up to current dam safety standards. NRCS policy requires that an EIS be prepared for watershed project activities that include stream channel realignment, increases in channel capacity, or projects that require congressional action or that have the potential to significantly affect the quality of the human environment. Upon review, it now appears that none of these conditions apply to the Upper Deckers Creek Site 1 dam rehabilitation project. Therefore, NRCS is withdrawing its Notice of Intent to prepare an EIS.

FOR FURTHER INFORMATION CONTACT:

Kevin Wickey, State Conservationist, Natural Resources Conservation Service, 1550 Earl Core Road, Suite 200, Morgantown, West Virginia 26505. Telephone: (304) 284-7545.

SUPPLEMENTARY INFORMATION: The project involves the rehabilitation of the Upper Deckers Creek Site 1 dam and impoundment to meet current design criteria and performance standards. The Site 1 dam, located about 1.5 miles northwest of Arthurdale, WV, was constructed in 1969 as a single purpose flood control structure. Alternatives under consideration include the addition of rural raw water supply as a project purpose and increasing the reservoir volume, evaluating other raw water supply sources, raising the top of the dam elevation, flattening upstream and downstream face of the dam to

improve slope stability, installing an internal drainage system in the dam, constructing a new auxiliary spillway, and constructing a new principal spillway riser structure. In addition to these structural alternatives, a no-action and a decommissioning alternative will be evaluated.

A draft Plan-Environmental Assessment will be prepared and circulated for review by agencies and the public. The Natural Resources Conservation Service invites participation and consultation of agencies and individuals that have special expertise, legal jurisdiction, or interest in the preparation of the draft environmental assessment. Comments received, including the names and addresses of those who comment, will be considered part of the public record for this proposal. As a result of the process, if it is determined that the project may have significant impacts, the EIS process will be reinitiated and a NOI published. Further information on the proposed action may be obtained from Kevin Wickey, State Conservationist, at the above address or telephone (304-284-7545).

Dated: February 24, 2012.

Kevin Wickey,

State Conservationist.
