SUPPLEMENTARY INFORMATION:**Summary of Information Collection**

Respondents are cadets enrolled in the National Guard Youth ChalleNGe program. The ChalleNGe program, operated jointly by states and the state National Guard units, targets at-risk male and female youth ages 16–18. Today there are 34 programs in 28 states (plus Puerto Rico). Several states have multiple campuses. It is a 22-week residential program that includes instruction on academic subjects in an effort to help cadets attain a GED (General Education Development) credential. The program also focuses on noncognitive skills (those skills which are not academic in nature including motivation and perseverance) which have been shown to be a determining factor in educational and economic success. To date, no research has been done to assess the degree to which the ChalleNGe program improves participants' noncognitive skills. This information collection will provide data on the noncognitive skills of program participants both before and after their completion of the program. The data will be used to evaluate the program's effectiveness in this area.
