SUPPLEMENTARY INFORMATION: FIPS 201 was issued on April 8, 2005 (70 FR 17975), and in accordance with NIST policy was due for review in 2010. In consideration of technological advancement over the last five years and specific requests for changes from United States Government (USG) stakeholders, NIST determined that a revision of FIPS 201-1 (version in effect) was warranted. NIST received numerous change requests, some of which, after analysis and coordination with Office of Management and Budget (OMB) and USG stakeholders, were incorporated in the Draft FIPS 201-2. Other change requests incorporated in the Draft FIPS 201-2 resulted from the 2010 Business Requirements Meeting held at NIST. The meeting focused on business requirements of federal departments and agencies. On March 8, 2011, a notice was published in the **Federal Register** (76 FR 12712), soliciting public comments on a proposed revision of FIPS 201-1 (hereafter referred to as the "2011 Draft"). During the public comment period, a public workshop was held at NIST on April 18-19, 2011, in order to present the 2011 Draft. NIST developed the Revised Draft FIPS 201-2 that is announced in this notice using the comments received in response to the March 8, 2011, notice.

Comments and questions regarding the 2011 Draft were submitted by 46 entities, composed of 25 U.S. federal government organizations, two state government organizations, one foreign government organization, 16 private sector organizations, and two private individuals. These comments have all been made available by NIST at <http://csrc.nist.gov>. None of the commenters opposed the approval of a revised standard. Some commenters asked for clarification of the text of the standard and/or recommended editorial and/or formatting changes. Other commenters suggested modifying the requirements. All of the suggestions, questions, and recommendations within the scope of this FIPS were carefully reviewed, and changes were made to the standard, where appropriate. Some commenters submitted questions or raised issues that were related but outside the scope of this FIPS. Comments that were outside the scope of this FIPS, but that were within the scope of one of the related Special Publications, were deferred for later consideration in the context of the revisions to the supporting Special Publications. The disposition of each comment that was received has been provided along with the comments at <http://csrc.nist.gov>.
