SUPPLEMENTARY INFORMATION:

Background

In General

Customs and Border Protection's (CBP's) National Customs Automation Program (NCAP) test concerning Automated Commercial Environment (ACE) Simplified Entry functionality (Simplified Entry) is authorized under § 101.9(b) of title 19 of the Code of Federal Regulations (19 CFR 101.9(b)), which provides for the testing of NCAP programs or procedures. See Treasury Decision (T.D.) 95-21. The procedures and criteria related to participation in Simplified Entry were announced in a notice published in the **Federal Register** on November 9, 2011 (76 FR 69755), and remain in effect unless explicitly changed by this or subsequent notices published in the **Federal Register**.

Simplified Entry allows participants to submit 12 required and three (3) optional data elements to CBP at any time prior to the arrival of the merchandise on the conveyance transporting the cargo to the United States. This data fulfills merchandise entry requirements and allows for earlier release decisions and more certainty for the importer in determining the logistics of cargo delivery. This initial phase of the test will run until approximately December 31, 2013, and is open to entries filed in the air transportation mode only.

Modification to Test Participant Selection Criteria

In the notice published in the **Federal Register** on November 9, 2011 (76 FR 69755), announcing the initial phase of the Simplified Entry pilot, CBP stated that participation in the test was limited to nine (9) participants comprised of importers holding a Tier 2 or higher Customs-Trade Partnership Against Terrorism (C-TPAT) status (applicable to both importer self-filers and importers for whom an eligible customs broker files a Simplified Entry) and customs brokers who are C-TPAT certified.

This notice announces modifications to the test's participation criteria to reflect that while importer self-filers

must still hold a Tier 2 or higher C-TPAT status, the C-TPAT status of an importer for whom a customs broker files a Simplified Entry is no longer an eligibility criterion.

In addition, the Simplified Entry test is no longer restricted to nine (9) participants and is open to all eligible applicants. CBP will endeavor to accept all new eligible applicants on a first come first serve basis; however, if the volume of eligible applicants exceeds CBP's administrative capabilities, CBP will reserve the right to select eligible participants in order to achieve a diverse participant pool in accordance with the selection standards set forth in 76 FR 69755.

Modification to Application Process

Applications to participate in Simplified Entry must be sent via email to cbpsimplifiedprocess@dhs.gov within 14 business days of the date of publication of this notice in the **Federal Register**. Applicants will be notified whether their application is accepted. Prior applicants who were not accepted to participate in the test must re-apply for consideration.

All other procedures and criteria applicable to participation in Simplified Entry, as set forth in 76 FR 69755, remain in effect unless explicitly changed by this or subsequent notices published in the **Federal Register**.

Paperwork Reduction Act

The collections of information contained in this NCAP test have been approved by the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act (44 U.S.C. 3507) and assigned OMB number 1651-0024.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid control number assigned by OMB.

Dated: August 9, 2012.

The public closure area comprises
14,153 acres, more or less in Pershing
County, Nevada.

The temporary closure is necessary
for the period of time from August 13
through September 17 because of the
event activities in the area, starting with
fencing the site perimeter, final setup,
the actual event (August 26 through
September 3), initial phases of cleanup,
and concluding with final site cleanup.

The public closure area comprises
about 13 percent of the Black Rock
Desert playa. Public access to other
areas of the playa will remain open and
the rest of the playa outside the closure
area will remain open to dispersed use.

Within the public closure area is the
event area, which is defined as the
portion of the public closure area (1)
entirely contained within the event
perimeter fence; (2) within 50 feet from
the outside of the event perimeter fence;
(3) within 25 feet from the outside of the
event access road; and (4) the aircraft
parking area outside the event perimeter
fence.

The temporary closure and temporary
restrictions are necessary to provide a
safe environment for the participants of
the Burning Man event and to members
of the public visiting the Black Rock
Desert, and to protect public land
resources by addressing law
enforcement and public safety concerns
associated with the event. The Burning
Man event is held on public lands
administered by the BLM. It is expected
to attract approximately 60,900
participants to a remote rural area, far
from urban infrastructure and support,
including law enforcement, public
safety, transportation, and
communication services. During the
event, Black Rock City, the temporary
city associated with the event, becomes
the tenth-largest population area in
Nevada. This event is authorized on
public land under Special Recreation
Permit #NVW03500-12-01.
