

deletions or restrictions of the Interstate system or other National Network route based upon specified justification criteria in section 658.11(d)(2). Requests for deletions are published in the **Federal Register** for notice and comment.

Notice and Request for Comment

The FHWA published a Notice and Request for Comment on July 9, seeking comments from the general public on this request submitted by the MDTA for a deletion in accordance with 23 CFR 658.11(d). The comment period closed on August 9. No public comments were received.

The FHWA sought comments on this request for temporary deletion from the National Network in accordance with 23 CFR 658.11(d). Specifically, the request is for approval of the temporary closure of I-395 just south of Conway Street in the city of Baltimore from the period beginning Wednesday August 29, at approximately 6 p.m. through Tuesday, September 4, at around 6 a.m., encompassing the Labor Day holiday. This closure will be undertaken in support of the BGP which will use the streets of downtown Baltimore as a race course. It is anticipated the BGP event will be hosted in the city of Baltimore for the next 4 consecutive years. The inaugural event occurred September 2 through September 4, 2011. The event is expected to attract 160,000 spectators over a 3–4 day period, not including the event organizer workforce and volunteers, the racing organizations and their respective personnel, or media and vendors. Event planners expect spectators from within a 400-mile radius of the city, with a large portion traveling the I-95 corridor. It is anticipated that the attendance for the peak day (Sunday) will reach 70,000 people with most arriving by private vehicle.

The construction and operation of the race course will create safety concerns by obstructing access from the I-395 northern terminus to the local street system including Howard Street, Conway Street, and Lee Street. However, an existing connection from I-395 to Martin Luther King, Jr. Boulevard will remain open throughout the event. In addition, access to and from I-95 into and out of the city along alternative access routes, including US 1, US 40, Russell Street, and Washington Boulevard will be maintained. The BGP and the city plan to update the 2011 signing plan to inform and guide motorists to, through, and around the impacted downtown area. The statewide transportation operations system, the Coordinated Highways Action Response Team, will provide real-time traffic

information to motorists through dynamic message signs and highway advisory radio. The MDTA states that the temporary closure of this segment of I-395 to general traffic should have no impact on Interstate commerce. I-95, the main north-south Interstate route in the region, will remain open during the time period of the event. There are five additional I-95 interchanges, just to the north or south of I-395, with connections to the local street system including the arterials servicing the city's downtown area. A sign and supplemental traffic control systems plan was developed as part of the 2011 event's Traffic Management Plan (TMP). In addition, I-695 (Baltimore Beltway) will provide motorists traveling through the region the ability to bypass the impact area by circling around the city.

Commercial motor vehicles of the dimensions and configurations described in 23 CFR 658.13 and 658.15 which serve the impacted area, may use the alternate routes listed above. Vehicles servicing the businesses bordering the impacted area will still be able to do so by also using the alternative routes noted above to circulate around the restricted area. In addition, vehicles not serving businesses in the restricted area but, currently using I-395 and the local street system to reach their ultimate destinations, will be able to use the I-95 interchanges north and south of I-395 to access the alternative routes. A map depicting the alternative routes is available electronically at the docket established for this notice at <http://www.regulations.gov>. The MDTA has reviewed these alternative routes and determined the routes to generally be capable of safely accommodating the diverted traffic during the period of temporary restriction. As mentioned previously, the sign and supplemental traffic control system plan is also being updated as part of the event's TMP. Commercial vehicles as well as general traffic leaving the downtown area will also be able to use the alternative routes to reach I-95 and the rest of the Interstate System. The BGP and the city are working closely with businesses, including the hotels and restaurants located within the impact area, to schedule deliveries prior to the proposed I-395 closure to the extent feasible. The BGP is also working with affected businesses to schedule delivery services during the event period.

The original plan uses a credentialing process for access through designated gates with access to specific loading areas. This request to temporarily close I-395 was prepared for the MDTA by the BGP and the city. In addition, the

city has reached out to the Federal, State, and local agencies to collaborate and coordinate efforts to address the logistical challenges of hosting the BGP. The BGP and the city have worked extensively with the businesses and residential communities in the city that could be affected by the event. These efforts include the formation of Task Forces and event Sub-Committees, to guide the development of plans for event security, transportation management, public safety and more.

The FHWA did not receive any comments in response to the Notice and Request for Comment. After full consideration of the MDTA request discussed in this final notice and determining that the request meets the requirements of 23 CFR 658.11(d), FHWA approves the deletion as proposed.

OMB Number: 1505–0170.

Type of Review: Revision of a currently approved collection.

Title: OFAC Application for the Release of Blocked Funds.

Form: TD–F–90–22.54.

Abstract: Transactions prohibited pursuant to the Trading With the Enemy Act, 50 U.S.C. App. 1–44, the International Emergency Economic Powers Act, 50 U.S.C. 1701 *et seq.*, and other authorities may be authorized by means of specific licenses issued by the Office of Foreign Assets Control (“OFAC”). Such licenses are issued in response to applications submitted by persons whose property and interests in property have been blocked or who wish to engage in transactions that would otherwise be prohibited. The OFAC Application for the Release of

Blocked Funds, which provides a standardized method of application for all applicants seeking the unblocking of funds, is available in electronic format on OFAC's Web site. Use of the form greatly facilitates and speeds applicants' submissions and OFAC's processing of such applications. By obviating the need for applicants to write lengthy letters to OFAC, this form reduces the overall burden of the application process. Since February 2000, use of the OFAC Application for the Release of Blocked Funds to apply for the unblocking of funds has been mandatory pursuant to a revision in OFAC's regulations at 31 CFR 501.801.

Title: Iranian Financial Sanctions Regulations Report on Closure by U.S. Financial Institutions of Correspondent Accounts and Payable-Through Accounts.

Abstract: Section 561.504(b) of the Iranian Financial Sanctions Regulations, 31 CFR part 561 (the “IFSR”), specifies that a U.S. financial institution that maintained a correspondent account or payable-through account for a foreign financial institution whose name is added to the Part 561 List on OFAC's Web site (*www.treasury.gov/ofac*) as subject to a prohibition on the maintaining of such accounts must file a report with OFAC that provides full details on the closing of each such account within 30 days of the closure of the account. This collection of information assists in verifying that U.S. financial institutions are complying with prohibitions on maintaining correspondent accounts or payable through accounts for foreign financial institutions listed on the Part 561 List.

Affected Public: Private Sector: businesses or other for-profits.

Estimated Total Annual Burden Hours: 2.
