

acceptable form. The form includes the three addresses of the service academies in order that the form may be submitted to the proper academy.

Respondents are candidates applying to the Air Force Academy, instructors of candidates, and their high school counselors. Information collection is necessary in order to determine which candidates have been nominated by their Congress person or Senator; to evaluate background and aptitude for commissioned service; to provide a candidate's participation in athletic and non-athletic extracurricular activities, family and personal background, and academic and school background data by a candidate's high school official. This data also includes eligibility by verification of age, U.S. citizenship, law infractions, schooling beyond high school, previous active duty tours, and previous applications to service academies. It is also necessary in order to provide a candidate opportunity to show through English, Math, or other instructors that they can meet Air Force academic performance. This data allows the selection panel to evaluate the "whole person" concept. Without this information it would be difficult to accurately determine if an initial applicant would be qualified to enter into the candidate phase of the process. It would also be difficult to accurately determine a candidate's leadership abilities, physical stamina, and academic abilities. Final USAF Academy selections could not be made if reviewing committees are not able to determine if basic requirements have or have not been met.
