SUPPLEMENTARY INFORMATION:

Background

On February 2, 2012, we published a Notice of Proposed Rulemaking entitled "Drawbridge Operation Regulation; Bear Creek, Dundalk, MD" in the **Federal Register** (77 FR 5201). The rulemaking concerned would alter the current four hour advance notice requirement for a bridge opening, found in 33 CFR 117.543(b), to a 48-hour advance notice.

Baltimore County requested to reduce the necessity for bridge openings based on bridge logs provided over a two year period. However, prior to the publication of the notice of proposed rulemaking the bridge owner displayed on the Wise Avenue Bridge signage that stated a 48-hour advance notice was required to open the draw bridge. This signage portrayed improper operational information since the current operation regulation had not changed. The Coast Guard determined the signage that stated a 48-hour advance notice was required for a bridge opening was misleading to the public and navigational users.

Withdrawal

Baltimore County, responsible for the operation of the Wise Avenue Bridge, had requested advance notification of vessel openings. Following publication of the notice of proposed rulemaking, the Coast Guard received two comments opposing changes to the regulation. Both comments felt the 48-hour advance notice was unnecessary and too burdensome to the waterway users. One of the comments stated signage had been placed on the bridge providing information misleading to the public. Baltimore County admitted establishing signage on the bridge prior to the publication of the notice of proposed rulemaking citing the bridge would open with a 48-hour notice prior to approval from the regulatory process. The second comment stated that a 24-hour advance notice would be better

than the proposed 48 hours. Due to the bridge owner displaying misleading and inaccurate signage during a public comment period and prior to any change in the bridge opening regulations, the Coast Guard is withdrawing the proposed rule. The owner may, however, request a new notice of proposed rulemaking for a future period in which the inaccurate signage is not posted.

Authority

We issue this notice of withdrawal under the authority of 33 U.S.C. 499; 33 CFR 1.05-1; Department of Homeland Security Delegation No. 0170.1.

Dated: December 4, 2012.

SUPPLEMENTARY INFORMATION:

Comment Period

The Office of the Federal Register inadvertently published the November 30, 2012, proposed "Reconsideration of Certain New Source and Startup/Shutdown Issues: National Emission Standards for Hazardous Air Pollutants from Coal- and Oil-fired Electric Utility Steam Generating Units and Standards of Performance for Fossil-Fuel-Fired Electric Utility, Industrial-Commercial-Institutional, and Small Industrial-Commercial-Institutional Steam Generating Units" in the "Rules and Regulations" section of the **Federal Register**, rather than in the "Proposed Rules" section. The Office of Federal

Register issued a correction document on December 5, 2012 (77 FR 72294). The EPA has decided to extend the public comment period by an additional 7 days in light of the clerical error. Therefore, the public comment period will end on January 7, 2013, rather than on December 31, 2012.

Summary of the Order

1. On October 2, 2012, the Commission released a Notice of Proposed Rulemaking (“NPRM”) to implement an incentive auction of broadcast television spectrum. The NPRM set deadlines for filing comments and reply comments at December 21, 2012, and February 19, 2013, respectively.

2. On November 20, 2012, the National Association of Broadcasters (NAB) and CTIA—The Wireless Association (CTIA) filed a joint request to extend the comment and reply comment deadlines to January 25, 2013 and March 26, 2013. NAB and CTIA state that an extension of time is warranted due to the complex economic, engineering, and policy issues presented by the NPRM. We grant the requested extension. As set forth in § 1.46 of the Commission’s rules, the Commission’s policy is that extensions

of time for filing comments in rulemaking proceedings shall not be routinely granted. In this case, however, an extension of the comment periods is warranted to provide commenters with sufficient time to prepare comments and reply comments that fully respond to the NPRM.

3. Accordingly, *it is ordered* that, pursuant to section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and §§ 0.61, 0.283, and 1.46 of the Commission’s rules, 47 CFR 0.61, 0.283, and 1.46, the Motion for Extension of Time filed by NAB and CTIA *is granted*, and the deadlines to file comments and reply comments in this proceeding are extended to January 25, 2013 and March 12, 2013, respectively.

Federal Communications Commission.
