DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Proposed Agency Information Collection

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

ACTION: Submission for Office of Management and Budget (OMB) review; comment request.

SUMMARY: The Department of Energy (DOE) has submitted an information collection request to the OMB for reinstatement under the provisions of the Paperwork Reduction Act of 1995. A **Federal Register** Notice with a 60-Day comment solicitation period on this information collection was published on

May 24, 2012, Vol. 77, No. 101, pg. 31000. The information collection requests a three-year approval of its Customer Electricity Data Access and Control Questionnaire, OMB Control Number 1910-5164. The proposed collection will gather and share information about customer access to electricity usage data. The information will be shared on the DOE-supported OpenEI Web site where consumers can learn about the access offered by their electricity provider to energy usage data. Visitors to the Web site will also be able to learn about measures they can take to use energy more efficiently and economically.

DATES: Comments regarding this collection must be received on or before March 18, 2013. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202-395-4650.

ADDRESSES: Written comments should be sent to: DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503, and to Jamie Vernon by fax at 202-586-9260, or by email at Jamie.Vernon@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: For information or to request a copy of the collection instrument contact: Jamie Vernon by fax at 202-586-9260, or by email at Jamie.Vernon@ee.doe.gov.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) *OMB No.:* 1910-5164; (2)

Information Collection Request Title:

Customer Electricity Data Access and Control Questionnaire; (3) *Type of Request:* Reinstatement; (4) *Purpose:*

The U.S. Department of Energy (DOE)

Office of Energy Efficiency and Renewable Energy (EERE) has

developed and launched a new

consumer-focused Web site (<http://openei.org/utilityaccess>) with the

capability to map how and what

electricity use data utilities provide to

their customers. An online

questionnaire device captures and

publishes the necessary information as

a series of web-based maps upon

completion by electricity providers.

Each electric utility has the opportunity

to fill out a web-based questionnaire

that will automatically generate the

informational maps. Consumers can

visit the maps and Web site to learn

about data access offered by their utility

and how to use energy more efficiently. Generation of such maps requires DOE to collect information from electricity providers about data access and sharing services offered to their customers. DOE is requesting a 3-year approval to continue to collect and report this information using an improved collection instrument. This information collection request may be relevant to electric utilities, energy management professionals and residential and commercial electricity customers; (5) *Annual Estimated Number of Respondents*: 3,261; (6) *Annual Estimated Number of Total Responses*: 3,261; (7) *Annual Estimated Number of Burden Hours*: 1087; (8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: \$0.

Statutory Authority: Section 13(b) of the Federal Energy Administration Act of 1974 (FEA Act), as amended, codified at 15 U.S.C. 772(b) and Section 1301 of the Energy Independence and Security Act of 2007 (EISA), as amended, codified at 42 U.S.C. 17381.

Issued in Washington, DC, on February 6, 2013.

Carla Frisch,

Acting Director of Policy and Analysis, Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. RM07-16-000 and RM01-5-000]

Information Collection Activities and Request for Comments

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Energy Regulatory Commission (Commission) invites public comment on a proposed collection of information that the Commission is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995 (PRA). This collection of information relates to the application to interstate and intrastate natural gas pipelines and interstate oil pipelines of the Commission's revised Company Registration procedures.¹

DATES: Comments regarding this proposed information collection must be received on or before April 15, 2013.

ADDRESSES: You may submit comments (identified by Docket Nos. RM07-16-000 and RM01-5-000) by either of the following methods:

- *eFiling at Commission's Web Site:* <http://www.ferc.gov/docs-filing/efiling.asp>.
- *Mail/Hand Delivery/Courier:*

Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE., Washington, DC 20426.

Instructions: All submissions must be formatted and filed in accordance with submission guidelines at: <http://www.ferc.gov/help/submission-guide.asp>. For user assistance contact FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208-3676 (toll-free), or (202) 502-8659 for TTY.

FOR FURTHER INFORMATION CONTACT:

Ellen Brown, by email at DataClearance@FERC.gov, telephone at (202) 502-8663, and fax at (202) 273-0873.

SUPPLEMENTARY INFORMATION: This collection of information relates to the application to interstate and intrastate

natural gas pipelines and interstate oil pipelines of the Commission's revised Company Registration procedures.

These procedures will replace the use of random-number generated passwords to authenticate access to a company registration account with a superior method of authentication. Under the revised procedures, a regulated natural gas and oil pipeline will be able to maintain a list of eRegistered agents whom the pipeline has authorized to submit a particular type of filing. Implementation of these changes will provide increased flexibility for regulated entities to manage their company registration accounts and to designate agents to make filings at the Commission. These changes also will reduce the need for pipelines to institute measures to protect password integrity, including the need to request new passwords if existing passwords are compromised.² These revised procedures are expected to go into effect in October 2013.

OMB's regulations³ require approval of certain information collection requirements that impose identical reporting or recordkeeping requirements imposed on ten or more persons. Without consideration of potential cost savings in reduced password management and requests for new passwords, the one-time burden on interstate and intrastate natural gas and oil pipelines to transition to the revised system is estimated to be one hour per respondent at a cost of \$35.99/hour for support staff.⁴

Information Collection Costs: The Commission projects the average annual burden and cost of compliance with these regulations to be the following:

Data collection	Number of respondents	Hours per response (1 response per respondent)	Total hours	Total cost
FERC-545—NGA Pipelines	161	1	161	\$5,794
FERC-549—NGPA Pipelines	200	1	200	7,198
FERC-550—Oil Pipelines	200	1	200	7,198

¹ Concurrent with this Notice, the Commission is issuing a separate order on "Revisions to Company Registration and Establishing Technical Conference" with additional details on the requirements.

² A description of the procedures can be found in the Commission's order in *Filing Via the Internet*,

Docket Nos. RM07-16-000 and RM01-5-000, 142 FERC ¶ 61,097 (2013) (<http://elibrary.ferc.gov/idmws/common/OpenNat.asp?fileID=13174100>).

³ 5 CFR 1320.

⁴ The estimated burden on electric utilities for compliance with this requirement was included in Order No. 770, 77 FR 71,288 (Nov. 30, 2012) and

is incorporated in FERC-920, Electric Quarterly Report, OMB Control No. 1902-0255. Those reporting requirements will be submitted to OMB for review after OMB issues a decision on another pending item under that Control Number. (Only one item per OMB Control Number can be pending at OMB for PRA review at a time.)
