SUPPLEMENTARY INFORMATION: The United States Patent and Trademark Office (USPTO) is giving notice of an amendment to a system of records that is subject to the Privacy Act of 1974. The Privacy Act notice is being updated with the current information for the system location and

system manager. The description of the routine uses of records maintained in the system has been revised to clarify which records may be open to public inspection and to include use in law enforcement, audits and oversight activities, and distribution to contractors, all uses commonly published in other agency system of records notices. The storage and safeguard information has been updated to include electronic records. The description of retrievability has been revised to clarify that records may be indexed by the names of applicants or patentees, but not witnesses. The rule references for the notification procedure, contesting record procedures, and exemptions have been updated to correspond to the current statutes and rules for those items as related to the USPTO.

The amended Privacy Act system of records notice, "COMMERCE/PAT-TM-6 Parties Involved in Patent Interference Proceedings," is published in its entirety below.
