SUPPLEMENTARY INFORMATION: *Title:* Importation of Unshu Oranges From Japan.

OMB Number: 0579-0173.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the United States Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS) regulates the importation of citrus fruit from certain parts of the world as provided in "Subpart—Citrus Fruit" (7 CFR 319.28).

In accordance with these regulations, APHIS allows the importation of Unshu oranges from Kyushu Island, Honshu Island, and Shikoku Island, Japan, into the United States under certain conditions to prevent the introduction of plant pests into the United States. These conditions involve the use of information collection activities, including box labeling, a USDA-APHIS Application to Import Plants and Plant Products (Plant Protection and Quarantine (PPQ) Form 587), and a USDA-APHIS Foreign Site Certificate of Inspection and/or Treatment (PPQ Form 203).

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0830 hours per response.

Respondents: Growers of Unshu oranges, importers, and the national plant protection organization of Japan.

Estimated annual number of respondents: 23.

Estimated annual number of responses per respondent: 2,896.

Estimated annual number of responses: 66,613.

Estimated total annual burden on respondents: 5,535 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 5th day of June 2013.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Dow AgroSciences LLC; Notice of Intent To Prepare an Environmental Impact Statement for Determination of Nonregulated Status of Herbicide Resistant Corn and Soybeans, and Notice of Virtual Public Meetings

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement;

extension of comment period and notice of virtual public meetings.

SUMMARY: We are extending the comment period for our notice of intent to prepare an environmental impact statement (EIS) on environmental impacts that may result from the potential approval of petitions seeking a determination of nonregulated status of three cultivars of herbicide resistant corn and soybeans produced by Dow AgroSciences LLC. During the comment period, we are requesting public comments to further delineate the scope of the alternatives and environmental impacts and issues to be included in the EIS. This action will allow interested persons additional time to prepare and submit comments. We are also announcing the dates of two virtual public meetings that we will be hosting to provide the public with additional opportunities to comment during the scoping period.

DATES: We will consider all comments that we receive on or before July 17, 2013. Online virtual public meetings will be held June 26, 2013, from 7 p.m. to 9 p.m. EST and June 27, 2013, from 4 p.m. to 6 p.m. EST.
