Agency Information Collection Activities: Proposed Request and Comment Request

The Social Security Administration (SSA) publishes a list of information collection packages requiring clearance by the Office of Management and Budget (OMB) in compliance with Public Law 104-13, the Paperwork Reduction Act of 1995, effective October 1, 1995. This notice includes a new information collection, and revisions of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and ways to

minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Mail, email, or fax your comments and recommendations on the information collection(s) to the OMB Desk Officer and SSA Reports Clearance Officer at the following addresses or fax numbers.

(OMB), Office of Management and Budget, Attn: Desk Officer for SSA, Fax: 202-395-6974, Email address: *OIRA_Submission@omb.eop.gov*. (SSA), Social Security Administration, DCRDP, Attn: Reports Clearance Director, 107 Altmeyer Building, 6401 Security Blvd., Baltimore, MD 21235, Fax: 410-966-2830, Email address: *OR.Reports.Clearance@ssa.gov*

I. The information collections below are pending at SSA. SSA will submit them to OMB within 60 days from the date of this notice. To be sure we consider your comments, we must receive them no later than October 15, 2013. Individuals can obtain copies of the collection instruments by writing to the above email address.

1. *Request for Corrections of Earnings Record—20 CFR 404.820 and 20 CFR 422.125—0960-0029.* Individuals alleging their earnings records in SSA's files are inaccurate use Form SSA-7008 to provide the information SSA needs to check earnings posted, and as necessary, initiate development to resolve any inaccuracies. The respondents are individuals who request correction of earnings posted to their Social Security earnings record.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
Paper form	37,500	1	10	6,250
In-person or telephone interview	337,500	1	10	56,250
Totals	375,000	62,500

2. *Protection and Advocacy for Beneficiaries of Social Security (PABSS)—20 CFR 435.51-435.52—0960-0768.* In March of 2013, Social Security announced its intention to award grants to reestablish community-based protection and advocacy projects in every State, U.S. Territories, and the Hopi and Navajo tribal nations, as authorized under Section 1150 of the Social Security Act (Act). Awardees are the 57 Protection & Advocacy (P&A)

organizations established under Title I of the Developmental Disabilities Assistance and Bill of Rights Act. The PABSS projects are part of Social Security's strategy to increase the number of Social Security Disability Insurance (SSDI) or Supplemental Security Income (SSI) recipients who return to work and achieve financial independence and self-sufficiency as the result of receiving support, representation, advocacy, or other

services. The overarching objective of the PABSS program is to provide information and advice about obtaining vocational rehabilitation and employment services, and to provide advocacy or other services a beneficiary with a disability may need to secure, maintain, or regain gainful employment. The PABSS Annual Program Performance Report collects statistical information from each of the PABSS projects in an effort to manage and

capture program performance and quantitative data. Social Security uses the information to evaluate the efficacy of the program, and to ensure beneficiaries are receiving quality

services. The project data is valuable to Social Security in its analysis of and future planning for the SSDI and SSI programs. The respondents are the 57

PABSS project sites, and recipients of SSDI and SSI programs.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
PABSS Program Grantees	57	1	60	57
SSDI and SSI Recipients	5,000	1	30	2,500
Totals	5,057	2,557

II. SSA submitted the information collections below to OMB for clearance. Your comments regarding the information collections would be most useful if OMB and SSA receive them 30 days from the date of this publication. To be sure we consider your comments, we must receive them no later than September 13, 2013. Individuals can obtain copies of the OMB clearance packages by writing to OR.Reports.Clearance@ssa.gov.

1. *Promoting Readiness of Minors in Supplemental Security Income (SSI) (PROMISE) Evaluation—Preliminary Activities—0960–NEW.*

Background

The Promoting Readiness of Minors in SSI (PROMISE) program pursues positive outcomes for children with disabilities who receive SSI and their families by reducing dependency on SSI. The Department of Education is awarding grants to States to improve the

provision and coordination of services and support for children with disabilities who receive SSI and their families to achieve improved outcomes.

PROMISE Evaluation

With support from the Department of Labor and the Department of Health and Human Services, SSA will evaluate the PROMISE program. SSA will contract with an evaluator to conduct the evaluation. The assessment will require a process evaluation of the PROMISE projects, an impact analysis of important outcomes, and a cost-benefit analysis. This will be a multi-site project conducted in four States. The evaluation contractor and the local PROMISE projects will collect data on project participants.

Current Information Collection Request

SSA will pursue OMB approval for subsequent project surveys and focus group interviews at a later date. In this information collection request, SSA is

only seeking OMB clearance for one pre-project activity: an initial intake interview including a request for consent from the participants, documented on a demonstration enrollment form. Local project staff will conduct these interviews at the local project sites, or in areas convenient for the families. The demonstration enrollment form will provide contact information for purposes of project administration, as well as work and education history, and health status, for baseline measurement purposes. The demonstration enrollment form will also allow SSA to obtain informed consent from the participants and their parents or guardians. The respondents are minors receiving SSI who will eventually participate in the PROMISE project, their parents or guardians, and, if applicable, additional household members.

Type of Request: This is a new information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
Demonstration Enrollment Form	8,000	1*	7	933

* Each respondent will complete this forms only once for the duration of the PROMISE project.

This is a correction notice: When SSA published the 60-day **Federal Register** Notice for this information collection at 78 FR 22935, on April 17, 2013, we included two forms: a demonstration enrollment form, and a consent form. Since then we have combined the two forms into a single form, and updated our burden chart accordingly. In addition, we decided local project staff will conduct the intake interviews and

help the respondents fill out the form, rather than hiring a contractor to do this initial task for the PROMISE project.

2. *Application for Child's Insurance Benefits—20 CFR 404.350–404.368, 404.603, & 416.350—0960–0010.* Title II of the Act provides for the payment of monthly benefits to children of an insured retired, disabled, or deceased worker. Section 202(d) of the Act discloses the conditions and requirements the applicant must meet

when filing an application. SSA uses the information on Form SSA–4–BK to determine entitlement for children of living and deceased workers to monthly Social Security payments. Respondents are guardians completing the form on behalf of the children of living or deceased workers, or the children of living or deceased workers.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
Life Claims (paper)	18,500	1	12	3,700
Life Claims—Modernized Claims System (MCS)	351,500	1	12	70,300
Life Claims—Signature Proxy	351,500	1	11	64,442
Death Claims (paper)	6,000	1	12	1,200
Death Claims (MCS)	114,000	1	12	22,800
Death Claims—Signature Proxy	114,000	1	11	20,900
Totals	955,500	183,342

3. *Certificate of Coverage Request*—20 CFR 404.1913—0960-0554. The United States has agreements with 24 foreign countries to eliminate double Social Security coverage and taxation where, except for the provisions of the agreement, a worker would be subject to coverage and taxes in both countries. These agreements contain rules for determining the country under whose laws the worker's period of employment is covered, and to which country the

worker will pay taxes. The agreements further dictate that, upon the request of the worker or employer, the country under whose system the period of work is covered will issue a certificate of coverage. The certificate serves as proof of exemption from coverage and taxation under the system of the other country. The information we collect assists us in determining a worker's coverage and in issuing a U.S. certificate of coverage as appropriate. Per our

agreements, we ask a set number of questions to the workers and employers prior to issuing a certificate of coverage; however, our agreements with Denmark, Netherlands, Norway, and Sweden require us to ask more questions in those countries. Respondents are workers and employers wishing to establish exemption from foreign Social Security taxes.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)

Totals	70,000	46,900

4. *Application Status*—20 CFR 401.45—0960-0763. Application Status provides users with the capability to check the status of their pending Social Security claims either via the Internet or the National 800 Number Automated Telephone Service. Users need their Social Security number and a confirmation number to access this information. The Application Status shows users when SSA received the

application, if we requested additional documents (e.g., military discharge papers, W-2s, birth records, etc.), and provides the address for the office processing the application. Once SSA makes a decision on a claim, we post a copy of the decision notice online for the user to view. There are some exceptions to posting a copy online, such as disability denial notices (even if filed electronically) or claims users did

not file via the Internet, as we may not have those notices available for online review. Respondents are current Social Security claimants who wish to check the status of their claims either through the Internet or the National 800 Number.

Type of Request: Revision of an OMB-approved information collection.

Federal Aviation Administration

Aviation Rulemaking Advisory Committee—New Task

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of new task assignment for the Aviation Rulemaking Advisory Committee (ARAC).

SUMMARY: The FAA assigned the Aviation Rulemaking Advisory Committee (ARAC) a new task to provide recommendations regarding the outdated Advisory Circular (AC) 120-17A, Maintenance Control by Reliability Methods guidance material. The FAA needs to provide its employees and the aviation industry with current information for developing, implementing, maintaining and overseeing air carrier's maintenance reliability programs. This notice informs the public of the new ARAC activity and solicits membership for the Maintenance Reliability Program Working Group.

FOR FURTHER INFORMATION CONTACT: Paul K. Pitts, Federal Aviation Administration, AFS-330 Air Carrier Maintenance Branch, 800 Independence Avenue SW., Washington, DC 20591; email: Paul.K.Pitts@faa.gov, telephone: (202) 385-6818, facsimile: (202) 385-6474.

SUPPLEMENTARY INFORMATION:

ARAC Acceptance of Task

As a result of the June 2013 ARAC meeting, the FAA has assigned and ARAC has accepted this task and will establish the Maintenance Reliability Program Working Group. The working group will serve as staff to ARAC and provide it advice and recommendations on the assigned task. ARAC will review and approve the recommendation report that will be sent to the FAA.

Background

The FAA established ARAC to provide advice and recommendations to the FAA Administrator, through the Associate Administrator of Aviation Safety, on the FAA's rulemaking activities. ARAC's objective is to improve the development of the FAA's regulations and guidance material by providing information, advice, and recommendations related to aviation issues.

The National Transportation Safety Board (NTSB) issued safety recommendation, A-09-110, which identified contradictory philosophy regarding on-condition maintenance in reliability program control mechanisms recognized by the FAA. Specifically, it requested the FAA to:

Resolve the differences between Advisory Circular (AC) 120-17A and AC 120-16E (now revised to AC 120-16F) in regard to Federal Aviation Administration philosophy and use of on-condition maintenance programs.

Currently, AC 120-17A refers to the Maintenance Steering Group 2 (MSG-2) logic for developing maintenance programs, which dates from the 1970's. AC 120-16F, dated November 15, 2012, provides guidance for the implementation of an air carriers maintenance program. Air carriers consider the maintenance requirements for identifying tasks and intervals when establishing maintenance programs. These considerations address corrective and preventive maintenance on airframes, engines, rotors, propellers, appliances, and emergency equipment. Recognizing the experience gained from MSG-2, we now use MSG 3 logic, which replaced MSC-2 logic in 1980, for developing a more effective set of procedures through analysis of aircraft functions, rather than components. In response to the NTSB safety recommendation, the FAA is requesting ARAC assistance to evaluate the guidance contained in the AC's that are associated with methods for establishing, monitoring, maintaining and overseeing air carrier reliability programs.

The Maintenance Reliability Program Working Group will provide advice and recommendations on the concepts and standards for maintenance reliability methods for ARAC review and approval.

The Task

The Maintenance Reliability Program Working Group is to complete the following:

1. Review the NTSB Recommendation A-09-110. http://www.nts.gov/doclib/reclletters/2009/A09_108_111.pdf

2. Review AC 120-17A, "Maintenance Control by Reliability Methods" http://www.faa.gov/regulations_policies/advisory_circulars/index.cfm/go/document.information/documentID/22744, and AC 120-16F "Air Carrier Maintenance Programs". http://www.faa.gov/documentLibrary/media/Advisory_Circular/AC%20120-16F.pdf

3. Gather and review all internal and external guidance documents that reference or provide information on establishing, monitoring, maintaining and overseeing air carrier reliability programs.

4. Determine whether updated guidance material is appropriate and if so, develop draft internal and external guidance based on modern concepts, which ensure a standardized methodology for establishing, monitoring, maintaining and overseeing air carrier's aircraft maintenance reliability programs.

5. Develop and submit a report that contains recommendations for ensuring consistent establishment, monitoring, maintaining and overseeing an air carrier reliability program that explains the decisions made in developing the recommendation and any corresponding documents.

6. The working group may be reinstated to assist the ARAC by responding to FAA's questions or concerns after the recommendation has been submitted.

The report should document both majority and minority positions on the findings and the rationale for each position. Any disagreements should be documented, including the rationale for each position and the reasons for the disagreement.

Schedule

The recommendation report must be submitted to the FAA for review and acceptance no later than September 30, 2014.

Working Group Activity

The Maintenance Reliability Program Working Group must comply with the
