

displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal Plant and Health Inspection Service

Title: Virus-Serum-Toxin Act and Regulations in 9 CFR, Subchapter E, Parts 101–124.

OMB Control Number: 0579–0013.

Summary of Collection: The Virus-Serum-Toxin Act (37 Stat. 832–833, 21 U.S.C. 151–159) gives the United States Department of Agriculture, the Animal and Plant Health Inspection Service (APHIS) the authority to promulgate regulations designed to prevent the importation, preparation, sale, or shipment of harmful veterinary biological products. A veterinary biological product is defined as all viruses, serums, toxins, and analogous products of natural or synthetic origin. In order to effectively implement the licensing, production, labeling, importation, preparation, sales, or the shipment of harmful veterinary biological products, and other requirements, APHIS employs a number of information gathering tools such as establishment license applications, product license applications, product permit applications, product and test report forms and field study summaries.

Need and Use of the Information: APHIS uses the information collected as a primary basis for the approval or acceptance of issuing licenses or permits to ensure veterinary biological products that are used in the United States are pure, safe, potent, and effective. Also, APHIS uses the information to monitor the serials for purity, safety, potency and efficacy that are produced by licensed manufacturers prior to their release for marketing. APHIS also enforces regulation concerning production, packaging, labeling, and shipping of veterinary biological products, and sets standards for the testing of these products. Failing to collect this information would severely cripple APHIS' ability to prevent harmful veterinary biologics from being distributed in the United States.

Description of Respondents: Business or other for profit; State, Local or Tribal Government.

Animal Plant and Health Inspection Service

Title: Commercial Transportation of Equines to Slaughter.

OMB Control Number: 0579–0160.

Summary of Collection: Sections 901–905 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 1901), authorizes the Secretary of Agriculture to issue guidelines for regulating the commercial transportation of horses to slaughter by person regularly engaged in that activity within the United States. To fulfill this responsibility, the Animal and Plant Health Inspection Service (APHIS) established regulations in title 9, part 88 of the Code of Federal Regulations. The minimum standards cover among other things the food, water, and rest provided to these horses while they are in transit; and to review other related issues that may be appropriate to ensuring that these animals are treated humanely. Implementing these regulations entails the use of information collection activities such as providing business information, completing an owner/shipper certificate and continuation sheet, and maintaining records of the owner/shipper certificate and continuation sheet.

Need and Use of the Information: APHIS will collect the following information: (1) Shippers name and address and the owner's name and address; (2) description of the transporting vehicle, including the license plate number; (3) a description of the horse's physical characteristics, including its sex, coloring, distinguishing marks, permanent brands, electronic means of identification, or other characteristics that can be used to accurately identify the horse; (4) the number of the USDA backtags that has been applied to the horse; (5) a statement of the animal's fitness to travel, which must indicate that the horse is able to bear weight on all four limbs, is able to walk unassisted, is not blind in both eyes, is older than 6 months of age, and is not likely to give birth during the trip; (6) a description of anything unusual with regard to the physical condition of the horse, such as a wound or blindness in one eye, and any special handling needs; (7) the date, time, and place the horse was loaded on the conveyance; and (8) a statement that the horse was provided access to food, water, and rest prior to transport. This information is helpful in those instances in which APHIS must conduct a trace back investigation of any possibly salleged violation of the regulations.

Description of Respondents: Business or other for-profit.

Number of Respondents: 300.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 9,803.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

August 15, 2013.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725–17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Comments regarding these information collections are best assured of having their full effect if received by September 19, 2013. Copies of the submission(s) may be obtained by calling (202) 720–8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Rural Business-Cooperative Service

Title: Annual Survey of Farmer Cooperatives.

OMB Control Number: 0570-0007.

Summary of Collection: The Rural Business Cooperative Service (RBS) was mandated the responsibility to acquire and disseminate information pertaining to agricultural cooperatives under the Cooperative Marketing Act of 1926: 7 U.S.C. 451-457 and Public Law 450. The primary objective of RBS is to promote understanding, use and development of the cooperative form of business as a viable option for enhancing the income of agricultural producers and other rural residents. The annual survey collects basic statistics on cooperative business volume, net income, members, financial status, employees, and other selected information to support RBS' objective and role. RBS will use a variety of forms to collect information.

Need and Use of the Information: RBS uses the information collected to summarize for program planning, evaluation service work and cooperative analysis and education. The information collected and published in the annual report on farmer cooperatives supports and enhances most of the major functions of RBS. By not collecting this information, the RBS would have difficulties in carrying out its policy on farmer cooperatives.

Description of Respondents: Business or other for-profit.

Number of Respondents: 1,384.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 1,367.

Agricultural Marketing Service

[Doc. No. AMS-DA-13-0047]

Notice of Request for Extension and Revision of a Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this

notice announces the Agricultural Marketing Service's (AMS) intention to request an extension for and revision to a currently approved information collection for report forms under the Federal milk marketing order program.

DATES: Comments on this notice must be received by October 21, 2013.

ADDRESSES: Interested persons are invited to submit written comments electronically at <http://www.regulations.gov> or to the Office of the Deputy Administrator, Dairy Programs, AMS, USDA, 1400 Independence Avenue SW., Room 2968 South, Stop 0225, Washington, DC 20250-0225. Comments should make reference to the date and page number of this issue of the **Federal Register**. All comments will be posted electronically without change; including any personal information provided at <http://www.regulations.gov>. Comments will also be available for public inspection in the above office during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Contact David R. Jamison, Acting Chief, Order Operations Branch, Dairy Programs, (202) 720-5752, FAX: (202)690-3410.

SUPPLEMENTARY INFORMATION:

Title: Report Forms under Federal Milk Orders (From Milk Handlers and Milk Marketing Cooperatives).

OMB Number: 0581-0032.

Expiration Date of Approval: January 31, 2014.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: Federal milk marketing order regulations (7 CFR parts 1000-1199) authorized under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), require milk handlers to report in detail the receipts and utilization of milk and milk products handled at each of their plants that are regulated by a Federal order. The data are needed to administer the classified pricing system and related requirements of each Federal order.

A Federal milk marketing order (hereinafter, Order) is a regulation issued by the Secretary of Agriculture that places certain requirements on the handling of milk in the area it covers. Each Order is established under the authority of the Act. The Order requires that handlers of milk for a marketing area pay not less than certain minimum class prices according to how the milk is used. These prices are established under each Order after a public hearing at which evidence is received on the supply and demand conditions for milk in the market. An Order requires that

payments for milk be pooled and paid to individual farmers or cooperative associations of farmers on the basis of a uniform or average price. Thus, all eligible farmers (producers) share in the market wide use-values of milk by regulated handlers.

Milk Orders help ensure adequate supplies of milk and dairy products for consumers and adequate returns to producers.

The Orders also provide for the public dissemination of market statistics and other information for the benefit of producers, handlers, and consumers.

Formal rulemaking amendments to the Orders must be approved in referenda conducted by the Secretary.

During 2012, 40,750 dairy farmers delivered over 122 billion pounds of milk to handlers regulated under the milk orders. This volume represents 61 percent of all milk marketed in the U.S. and 62 percent of the milk of bottling quality (Grade A) sold in the country. The value of this milk delivered to Federal milk order handlers at minimum order blend prices was nearly \$22.1 billion. Producer deliveries of milk used in Class I products (mainly fluid milk products) totaled 43 billion pounds—36 percent of total producer deliveries. More than 247 million Americans reside in Federal milk order marketing areas—80 percent of the total U.S. population.

Each Order is administered by a USDA market administrator. The market administrator is authorized to levy assessments on regulated handlers to carry out the market administrator's duties and responsibilities under the Orders. Additional duties of the market administrators are to prescribe reports required of each handler, to assure that handlers properly account for milk and milk products, and to assure that such handlers pay producers and associations of producers according to the provisions of the Order. The market administrator employs a staff that verifies handlers' reports by examining records to determine that the required payments are made to producers. Most reports required from handlers are submitted monthly to the market administrator.

The forms used by the market administrators are required by the respective Orders that are authorized by the Act. The forms are used to establish the quantity of milk received by handlers, the pooling status of the handler, the class-use of the milk used by the handler, and the butterfat content and amounts of other components of the milk.

The forms covered under this information collection require the minimum information necessary to
