The related system of records contains information relating to corporations and other business entities as well as individuals. Records in this system are subject to the Privacy Act only if they are about an individual within the meaning of the Act, and not if they are about a business or other non-individual.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of the Interior's (DOI) Interior Business Center (IBC) is a service provider that performs services for other Federal government agencies, both inside and outside the DOI. The IBC's service offerings include providing and maintaining various types of business management systems for its clients, including human resources and financial management applications. The Oracle Federal Financials (OFF) application will offer IBC clients a suite of customized Oracle financial management modules that combine to provide a comprehensive financial software package. The OFF modules address budgeting, purchasing, Federal procurement, accounts payable, fixed assets, general ledger, inventory, and accounts receivable. The OFF application is hosted by the IBC; each client agency accesses the system remotely to populate and manage its own data. Clients can contract with the IBC for an OFF package that includes a full set of modules or for a more limited set. The IBC is responsible for system

administration functions, while each client has one or more designated managers who are responsible for maintaining the client's data in the OFF system.

Some OFF records are covered by three existing system of records notices (SORNs), which are GSA/GOVT-3, Travel Charge Card Program; GSA/GOVT-4, Contracted Travel Services Program; and GSA/GOVT-6, GSA SmartPay Purchase Charge Card Program. This notice incorporates GSA/GOVT-3, GSA/GOVT-4, and GSA/GOVT-6 by reference.

Client data maintained within the OFF System is covered by this SORN. Clients that remove records from OFF for use outside of the system will be responsible for ensuring the use of the records is consistent with this SORN, or other published SORN, as indicated above, and the requirements of the Privacy Act.

The system will be effective as proposed on *October 21, 2013*, unless comments are received which would require a contrary determination. DOI will publish a revised notice if changes are made based upon a review of the comments received.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals' personal information. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. As a matter of policy, DOI extends Privacy Act protections to all individuals. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act Regulations, 43 CFR Part 2.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains and the routine uses made of the information in each system. The purposes of the notice are to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and

to assist individuals to more easily find these records within the agency. Below is the description of the OFF system of records.

In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: August 26, 2013.

OS/IBC Privacy Act Officer.
