The BLM will use the NEPA public participation requirements to assist the agency in satisfying the public involvement requirements under Section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470(f)) pursuant to 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and Section 106 of the NHPA.

The BLM will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, state, and local agencies, along with tribes and other stakeholders that may be interested in, or affected by, the proposed action the BLM is evaluating, are invited to

participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.

While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The minutes and list of attendees for each scoping meeting will be available to the public and open for 30 days after the meeting to any participant who wishes to clarify the views he or she expressed. The BLM will evaluate identified issues to be addressed in the plan, and will place them into one of three categories:

1. Issues to be resolved in the plan amendment;
2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of this plan amendment.

The BLM will provide an explanation in the Draft Supplemental EIS as to why an issue was placed in category two or three. The public is also encouraged to help identify any management questions and concerns that should be addressed in the plan. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

The BLM will use an interdisciplinary approach to develop the Roan Plateau RMP Amendment in order to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in the planning process: minerals and geology, air resources, wildlife and fisheries, rangeland management, forestry, outdoor recreation, archaeology, paleontology, lands and realty, hydrology, soils, sociology, and economics.

Authority: 40 CFR 1501.7, 43 CFR 1610.2 and 43 CFR 1610.5–5.

ACTION: Adjustment of Service Fees.

SUMMARY: This notice informs all lessees, operators, permittees, and right-of-way (ROW) holders that certain BOEM fees are being adjusted for inflation, as provided for in BOEM regulations at 30 CFR § 550.125 and 30 CFR § 556.63.

DATES: *Effective Date:* This Adjustment of Service Fees becomes effective on February 2, 2013.

ADDRESSES: Questions related to the calculations underlying the cost recovery fee adjustments should be directed to: U.S. Department of the Interior, Bureau of Ocean Energy Management, Economics Division, 381 Elden Street, HM 3310, Herndon, Virginia 20170.

FOR FURTHER INFORMATION CONTACT: Peter Meffert, Office of Policy, Regulations and Analysis, (703) 787–1610 or at Peter.Meffert@BOEM.gov.

SUPPLEMENTARY INFORMATION: Regulations at 30 CFR § 550.125 and 30 CFR § 556.63 provide the authority for BOEM to adjust a number of its cost recovery service fees on an annual basis. These fees were last updated in 2008, with **Federal Register** Notice 73 FR 49943. BOEM is now adjusting various cost recovery fees to reflect inflation since the last update.

This notice informs all relevant parties that the fees are being adjusted in accordance with BOEM regulations at 30 CFR § 550.125 and 30 CFR § 556.63. The proposed *2012 Fee Amount* is based on the Implicit Price Deflator value of 6.72 percent; this value is based on inflation from 2007 through 2011.

The inflation rate between any two years is calculated as the percentage difference between the measure of the level of prices for a designated year (e.g., 2011) and some previous year (e.g., 2007) of all new, domestically produced, final goods and services in the economy for the designated year (e.g., 2011), as contained in the Department of Commerce's Bureau of Economic Analysis (BEA) Table 1.1.9, Implicit Price Deflators for Gross Domestic Product, available at <http://www.bea.gov/national/pdf/dpga.pdf>. We expect BEA to revise the rate during future updates and, as in the last few years, we expect revisions to be upward. Even if BEA revises the inflation rate,

BOEM will retain the published fee schedule until BOEM's next fee recalculation.

The following table highlights those cost recovery fees that are affected by this notice:

Plan/permit action	2008 fee amount	Citation	2012 fee amount
Conservation Information Document	\$25,629	§ 550.296(a)	\$27,348.

Authority: 43 U.S.C. 1331–1356 (2002).

Dated: January 18, 2013.

Bureau of Reclamation

Cancellation of Environmental Impact Statement/Environmental Impact Report on the Sacramento River Water Reliability Study, California

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of cancellation.

SUMMARY: The Bureau of Reclamation and the Placer County Water Agency are canceling plans to continue work on a joint environmental impact statement/environmental impact report (EIS/EIR) on implementing the Sacramento River Water Reliability Study.

FOR FURTHER INFORMATION CONTACT: Ms. Sharon McHale, Bureau of Reclamation, at (916) 989–5086.

SUPPLEMENTARY INFORMATION: The Sacramento River Water Reliability Study (SRWRS) was a water supply plan consistent with the Water Forum Agreement (April 24, 2000) objectives of pursuing a Sacramento River diversion to meet water supply needs of the Placer-Sacramento region and promoting ecosystem preservation along the lower American River. The reason for canceling is that the non-federal sponsor, Placer County Water Agency, does not have the capital improvement funding to construct a project due to the decline in the regional and statewide economy.

The SRWRS cost-sharing partners had identified their long-term needs for additional water supplies to meet growing water supply demands and

reliability objectives in their respective service areas. Placer County Water Agency, Sacramento Suburban Water District, and the cities of Roseville, and Sacramento were the cost-sharing partners.

Reclamation published a notice of intent to prepare the EIS/EIR on July 30, 2003 (68 FR 44811).

Dated: December 11, 2012.

Anastasia T. Leigh,
Regional Environmental Officer, Mid-Pacific
Region.
