Assessment Rates

Upon issuance of the final results, the Department will determine, and U.S. Customs and Border Protection (“CBP”) shall assess, antidumping duties on all appropriate entries covered by this review.¹¹ The Department intends to issue assessment instructions to CBP 15 days after the publication date of the final results of this review. For any individually examined respondent whose weighted average dumping margin is above *de minimis* (i.e., is 0.50 percent or more) in the final results of this review, the Department will calculate importer-specific assessment rates on the basis of the ratio of the total amount of dumping calculated for the importer’s examined sales and the total entered value of sales, in accordance with 19 CFR 351.212(b)(1).¹² We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review when the importer-specific assessment rate calculated in the final results of this review is above *de minimis*. Where either the respondent’s weighted-average dumping margin is zero or *de minimis*, or an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. For those companies not assigned a separate rate from a prior segment of the proceeding, the Department stated that they are not separate from the Vietnam-wide entity and that the administrative review will continue for these companies.

The Department recently announced a refinement to its assessment practice in non-market economy cases. Pursuant to this refinement in practice, for entries that were not reported in the U.S. sales databases submitted by companies individually examined during this review, the Department will instruct CBP to liquidate such entries at the Vietnam-wide rate. Additionally, if the Department determines that an exporter had no shipments of the subject merchandise, any suspended entries that entered under that exporter’s case number (i.e., at that exporter’s rate) will

be liquidated at the Vietnam-wide rate.¹³

The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for shipments of the subject merchandise from Vietnam entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by sections 751(a)(2)(C) of the Act: (1) For the companies listed above, which have a separate rate, the cash deposit rate will be that established in the final results of this review (except, if the rate is zero or *de minimis*, then zero cash deposit will be required); (2) for previously investigated or reviewed Vietnam and non-Vietnam exporters not listed above that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific rate; (3) for all Vietnam exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be that for the Vietnam-wide entity; and (4) for all non-Vietnam exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Vietnam exporter that supplied that non-Vietnam exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(4).

Small Diameter Graphite Electrodes from the People’s Republic of China: Preliminary Results of Antidumping Duty Administrative Review and Partial Rescission; 2012–2013

AGENCY: Enforcement and Compliance, formerly Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on small diameter graphite electrodes (graphite electrodes) from the People’s Republic of China (PRC), covering the period February 1, 2012, through January 31, 2013. The Department has preliminarily determined that during the period of review (POR) certain companies covered by this review have made sales of subject merchandise at less than normal value, and that other companies are now part of the PRC-wide entity.¹ Interested parties are invited to comment on these preliminary results.

DATES: *Effective Date:* March 24, 2014.

¹ Due to the closure of the Federal Government in Washington, DC on March 17, 2014, the Department reached this determination on the next business day (i.e., March 18, 2014).¹

¹¹ See 19 CFR 351.212(b).

¹² In these preliminary results, the Department applied the assessment rate calculation method adopted in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Proceedings: Final Modification*, 77 FR 8101 (February 14, 2012).

FOR FURTHER INFORMATION CONTACT:

Dmitry Vladimirov or Michael A. Romani, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-0665 or (202) 482-0198, respectively.

Scope of the Order

The merchandise covered by the order includes all small diameter graphite electrodes with a nominal or actual diameter of 400 millimeters (16 inches) or less and graphite pin joining systems for small diameter graphite electrodes. Small diameter graphite electrodes and graphite pin joining systems for small diameter graphite electrodes that are subject to the order are currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 8545.11.0010, 3801.10, and 8545.11.0020. While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the order is dispositive. A full description of the scope of the order is contained in the Preliminary Decision Memorandum.²

Partial Rescission of the Administrative Review

Based on the withdrawal of the requests for review and because the companies previously established their entitlement to a separate rate, we are rescinding this administrative review with respect to 17 companies named in the *Initiation Notice*³ and listed in the attachment to this notice as Appendix II.

Preliminary Determination of No Shipments

UK Carbon and Graphite Co., Ltd. (UKCG) filed a timely “no shipment” certification stating that it had no exports, sales, or entries of subject merchandise during the POR and requested that we rescind the administrative review with respect to

UKCG.⁴ We subsequently confirmed with U.S. Customs and Border Protection (CBP) the “no shipment” claim made by UKCG.⁵ Based on the certification provided by UKCG and our analysis of CBP information, we preliminarily determine that UKCG did not have any reviewable transactions during the POR. In addition, we find that, consistent with the refinement to our assessment practice in non-market economy cases, further discussed below, it is appropriate not to rescind the review in part in these circumstances but, rather, to complete the review with respect to UKCG and issue appropriate instructions to CBP based on the final results of the review.⁶

Methodology

The Department has conducted this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act). For the Fangda Group,⁷ export prices have been calculated in accordance with section 772 of the Act. Because the PRC is a non-market economy (NME) within the meaning of section 771(18) of the Act, normal value has been calculated in accordance with section 773(c) of the Act. For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. The Preliminary Decision Memorandum is a public document and is made available to the public via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at <https://iaaccess.trade.gov>, and is available to all parties in the Department’s Central Records Unit, located at Room 7046 of the main Department of Commerce building. In addition, a complete version of the

Preliminary Decision Memorandum can be found at <http://enforcement.trade.gov/frn/>. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

We determined that Fushun Jinly is not entitled to a separate rate and should be treated as part of the PRC entity. For a full discussion of the rationale underlying our decision, see Preliminary Decision Memorandum.

Preliminary Results of Review

The Department has determined that the following preliminary dumping margins exist for the period February 1, 2012, through January 31, 2013:

Company	Margin (percent)
Beijing Fangda Carbon Tech Co., Ltd	21.16
Chengdu Rongguang Carbon Co., Ltd	21.16
Fangda Carbon New Material Co., Ltd	21.16
Fushun Carbon Co., Ltd	21.16
Hefei Carbon Co., Ltd	21.16
Xinghe County Muzi Carbon Co., Ltd	21.16
Jilin Carbon Import and Export Company	21.16
PRC-wide entity †	159.64

† The PRC-wide entity includes the companies listed in Appendix III.

Deadline for Submission of Publicly Available Surrogate Value Information

In accordance with 19 CFR 351.301(c)(3)(ii), the deadline for submission of publicly available information to value factors of production under 19 CFR 351.408(c) is 20 days after the date of publication of these preliminary results.¹¹ In accordance with 19 CFR 351.301(c)(1), if an interested party submits factual information less than ten days before, on, or after (if the Department has extended the deadline), the applicable deadline for the submission of such factual information, an interested party may submit factual information to rebut, clarify, or correct the factual information no later than ten days after such factual information is served on the interested party. However, the Department generally will not accept in the rebuttal submission additional or alternative surrogate value information not previously on the record, if the deadline for submission of surrogate value information has passed.¹² Furthermore, the Department generally will not accept business proprietary information in either the surrogate value submissions or the rebuttals thereto, as the regulation regarding the submission of surrogate values allows only for the submission of publicly available information.¹³

Assessment Rates

Upon issuing the final results of review, the Department will determine, and CBP shall assess, antidumping duties on all appropriate entries covered by this review.¹⁴ If a respondent's weighted-average dumping margin is above *de minimis* (i.e., 0.50 percent) in the final results of this review, we will calculate an importer-specific assessment rate on the basis of the ratio of the total amount of dumping calculated for the importer's examined sales and, where possible, the total entered value of those sales in accordance with 19 CFR 351.212(b)(1). Specifically, the Department will apply the assessment rate calculation method adopted in *Final Modification for Reviews*, i.e., on the basis of monthly average-to-average comparisons using only the transactions associated with that importer with offsets being provided for non-dumped comparisons.¹⁵ Where an importer- (or customer-) specific *ad valorem* rate is zero or *de minimis*, we will instruct CBP to liquidate appropriate entries without regard to antidumping duties.¹⁶

The Department announced a refinement to its assessment practice in NME cases.¹⁷ Pursuant to this refinement in practice, for entries that were not reported in the U.S. sales databases submitted by companies individually examined during this review, the Department will instruct CBP to liquidate such entries at the PRC-wide rate. In addition, if the Department determines that an exporter under review had no shipments of the subject merchandise, any suspended entries that entered under that exporter's case number (i.e., at that exporter's rate) will be liquidated at the PRC-wide rate.

The Department intends to issue appropriate assessment instructions directly to CBP 15 days after publication of the final results of review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for shipments of the subject merchandise from the PRC

entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for Xinghe County Muzi Carbon Co., Ltd., and the five companies comprising the Fangda Group will be the rate established in the final results of this administrative review (except, if the rate is zero or *de minimis*, then no cash deposit will be required); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific rate; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be that for the PRC-wide entity; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213.

Dated: March 18, 2014.

Stainless Steel Bar From Brazil: Preliminary Results of Antidumping Duty Administrative Review; 2012–2013

AGENCY: Enforcement and Compliance, formerly Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on stainless steel bar (SSB) from Brazil.
