

EA, will be available for public inspection by appointment, during normal business hours, at our Bend Field Office (see **ADDRESSES**).

Next Steps

After completion of the EA based on consideration of public comments on the draft EA, we will determine whether adoption of the proposed CCAA warrants a finding of no significant impact or whether an environmental impact statement should be prepared. We will evaluate the proposed CCAA as well as any comments we receive on it, to determine whether the CCAA would meet the requirements for an EOS permit under section 10(a)(1)(A) of the ESA. We will also evaluate whether issuance of an EOS permit would comply with section 7 of the ESA by conducting an intra-Service section 7 consultation on the proposed permit action. We will consider the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue an EOS permit to the SWCD. The final NEPA and permit decisions will not be completed until after the end of the 30-day comment period on this notice, and will fully consider all comments received during the comment period.

If we determine that the permit issuance requirements are met, the Service would issue an EOS permit to the SWCD. The SWCD would then begin processing applications from interested landowners to develop SSPs that meet the terms and conditions established in the CCAA to receive coverage for the incidental take of the greater sage-grouse. If the SSP is consistent with the CCAA, the Service will issue a letter of concurrence to the SWCD approving the SSP, and the SWCD and landowner may then sign a Certificate of Inclusion.

Authority

We provide this notice in accordance with the requirements of section 10 of the ESA (16 U.S.C. 1531 *et seq.*), and NEPA regulations (40 CFR 1501.7, 1506.6, and 1508.22).

Dated: December 19, 2013.

Hugh Morrison,

Acting Deputy Regional Director, Pacific Region, U.S. Fish and Wildlife Service, Portland Oregon.
