Information Collection Request Title: Pregnancy Assistance Fund Feasibility and Design Study (FADS).

Abstract: The Office of Adolescent Health (OAH), U.S. Department of Health and Human Services (HHS) is requesting approval by OMB on a new collection. The Pregnancy Assistance Fund (PAF) evaluation program will provide information about program design, implementation, and impacts through two core components: A rigorous assessment of program impacts and implementation, and a descriptive examination of program design. This proposed information collection activity includes (a) program design and early implementation data collected through telephone interviews with PAF grantees and (b) baseline data in up to three impact sites through self-administered questionnaires.

Need and Proposed Use of the Information: Design and implementation data will build on knowledge about the grantees and their

program plans gathered from other sources as well as identify sites for the impact study. *Baseline survey data* will be used to confirm the integrity of the random assignment process, define subgroups for which impacts will be estimated, adjust impact estimates to account for survey non-response, and to improve the precision of impact estimates.

Likely Respondents: The 17 PAF grantee administrators and expectant or

parenting young women in 2–3 grantee sites.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and

maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information.

The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Telephone Interview Protocol	6	1	2	12
Baseline Survey	950	1	.5	475
Total				487

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Information Collection Clearance Officer.
